LOS FRANCESES DOTAN SUS DEFENSAS DE NUEVOS CAÑONES PAUL HERVEYER PRONOSTICA QUE LOS ALEMANES NO LLEGARAN A VERDUN ANTES DEL 16 DE AGOSTO

PARIS, 9. — Paul Hervé, en un artículo publicado en "La Victoire", dice: "Los franceses comprenden la necesidad de artillería de más grueso calibre y han empleado nuevos grandes cañones de gran alcance en las líneas detrás de Douaumont y Vaux. Los viejos cañones usados hasta ahora tienen poca alcance y se desmenuzan para gastar los petrechos acumulados. Apuesto... dice... que los alemanes no llegarán a Verdun ni el primero de agosto."

ALEMANIA DEBILITA SUS EFECTIVOS EN LA FRONTERA RUSA PARA LANZARSE CONTRA EL FRENTE FRANCÉS. LOS ALEMANES NO PODRAN REANUDAR PRONTO SU OFENSIVA EN MOSCOWIA

PARIS, 9. — Telegrama especial de "Herald" dice que el "Daily News of Debates" declara que desde otoño los alemanes, que nunca han tenido menos de dos o tres efectivos contra los franceses, han agregado en estos últimos días cerca de 22 divisiones sacadas de Rusia y algunas que estuvieron en los Balcanes, entre ellas dos de los más renombrados grupos del ejército de Linsingen que defendieron los Cárpats y del Mackensen que conquistaron Galicia. En más de tres cuerpos que custodiaban la frontera oriental de Alemania desde el principio de la guerra, últimamente se han lanzado contra nuestro frente, dejando un solo cuerpo para patrullar y proteger la frontera oriental, pero a como se han distribuido los alemanes en el frente, no al la derecha, dice Villy y Priep, no ha cambiado desde otoño, teniendo por término medio un soldado y aún menos por cada metro. El ala izquierda es la más fuerte. Frente a Dvinsk se encuentran seis divisiones que cubren una distancia de 50 kilómetros, tanto al Sur como al Norte de la ciudad. Las tropas han sido reforzadas al Norte, con cinco divisiones entre Mitau y el sector de Friedland, mientras que al Sur de la ciudad se han aumentado las divisiones de infantería desde ocho hasta doce, y las de caballería se han reducido desde seis y media hasta cinco. Nada de esto hace previr la pronta renovación de la ofensiva alemana.

También es de notar que de las 49 divisiones que tiene en Rusia, regular diez pertenecen al ejército regular, de donde se infiere que los alemanes están haciendo su mayor esfuerzo en el frente francés y que no es probable que puedan hacer una llamada de atención en ninguna otra parte.

EL COSTO DE DOS AÑOS DE GUERRA ASCIENDE A 10.000 MILLONES DE DOLARES

LONDRES, 10. — Según correspondencia para el "New York Herald", la guerra está costando \$482,000 millones en el mundo. El costo de los dos años de hostilidades asciende a 10.000 millones de dólares, de los cuales hay que rebajar tres mil millones en dinero desatado por los aliados y por los enemigos de éstos, lo que hace un costo total de 450 mil millones. Con respecto a Alemania, se ha hecho una tentativa seria de imponer una taxa radical, lo que significa que no existe ni fondo ni entrada para pagar los intereses de la guerra deudada. La Gran Bretaña, por su parte, ha puesto tanta taxa, que suena el timbre suficiente para pagar los intereses de la nueva deuda y las pensiones, queda un sobrante de 500 millones para futuros gastos. Si las próximas elecciones fueran buenas, la situación económica sería aún algo más adelante. Reina la opinión general de que sólo la derrota militar y económica hará dable a Alemania, sin lo cual la paz no puede obtenerse. Se aproxima, sin embargo, el periodo que nos permitirá ver no el fin de la lucha, pero sí el resultado inevitable.

Nos encontramos demasiado cerca para juzgar de Francia las inmortales páginas de la Biblia está escribiendo en Verchín. Vaterkant no se va

Según parece, hemos sido víctimas de una superchería. A nuestras oficinas llegó un alemán rechoncho, de regular estatura y cara de balinuko. Había en su boca un cable de puro los de a tres por cinco. Dijo llamarse Jan von Vaterkant.

A nuestros lectores dimos noticia de esta visita inesperada y de lo que en ellos refirió el noble teutón. Pues bien, ahora resulta que el tal Vaterkant era un impostor y que nosotros infortunadamente nos dejamos tomar el pelo. Así lo declara el artículo que Vaterkant en "El Imparcial", al pie de un artículo firmado por la gran batalla naval de Slager-Rak, artículo en el que se pueden soborcar cosas tan interesantes como la que "Rusia ha llegado al fin de su resistencia, tanto en el militar como en el económico", y esto dicho en los preciosos momentos en que las tropas de Luz emprenden su ofensiva contra el ejército alemán de 150 mil, rompen las líneas austríacas, recuperan la fuerza de Lutzer y toman en cuatro días 40 mil prisioneros y más de cien cañones.

Y como si tan contundente respuesta no fuera bastante para poner en ridículo a todos los Vaterkant de alende y aquende las mares, el liquidado al Reichstag Brodski, que para el momento es un miembro vitalicio, declara que el verdadero héroe de Alemania comienza ahora; es decir, después de la "victoria" alemana y Julandacia; la declaración de Blücker, como si lo hubiera hecho el diablo, se publica aquí el mismo día en que el infame Jan von Vaterkant afirma que "no hay al bloque inglés de Alemania".

Todas las cosas que dice el referido Vaterkant en su kolosal artículo, son del mismo calibre que las que dejamos anotadas, y en embargo se maravilla de que los aliados dejen tan poco caso a las noticias oficiales austríacas, cuya veracidad ha venido a confirmar el hecho de que el Almirantazgo alemán negase oficialmente la pérdida de "Lut. 10" y del "Ruston", a riesgo de pasar por la vergüenza de ser que confesara al fin, obligada por las pruebas abrumadoras suministradas por Inglaterra, que no le permitían seguir mintiendo oficialmente.

Invasers have been repulsed everywhere with sanguinary losses, says Rome

AUSTRIAN DRIVE NOW CONSIDERED FULLY CHECKED

WASHINGTON, 10th. — It is authoritatively stated from Rome that the Austrians have for several days been attacking on the Pustio and Monte Coggio from with heavy artillery and an enormous number of machine guns in an endeavor to reach the Fuggazze road and invade the Asiatic plain, and that they have been repulsed everywhere with sanguinary losses. On the plateau north of Asiago the Austrians have not only been unable to advance during the last few days, but they have even been compelled to submit to a successful counter offensive. Notwithstanding this fact the Austrians action will develop fully on the entire Adige and Brenta front, though the situation is constantly and steadily improving and the development of the struggle may be looked upon with well-founded confidence. The whole of Trentino movement may be considered as completely checked.

ITALIANS REPORT SUCCESS EVERYWHERE EXCEPT IN THE CENGIO ZONE

ROME, 10th. — In the Alpone valley an enemy detachment on June 9 made a surprise attack on our advance battalions in the neighborhood of Malga and St. Alberto, but we had received reinforcements so made a counter attack putting the enemy to flight. In the Ledro valley an intense but ineffective artillery activity on the part of the enemy has been reported. In the Lagarina valley the enemy after the customary bombardment attempted yesterday to direct our attention through an attack against the sector between Monte Corno and Terno while making the real attack on the Corni Zugna position. The enemy was repulsed with sanguinary losses. In the Pustio sector nothing but the usual artillery duel and unimportant skirmishes occurred. Between the Posina and the Astico the enemy after a vigorous artillery preparation repeated his violent efforts in the direction of Monte Alto and the Col. Posina. A desperate struggle ensued and the enemy, after his infantry had been decimated by our fire, was forced to retire in disorder. In the Cengio zone the enemy, attacking with decidedly superior forces, forced us to evacuate our positions. We retired to the Val Can-Aglia line where we were reinforced. We still are in possession of the western slopes of Monte Cengio as far as Schin. Two violent attacks which the enemy undertook during the same night broke down.

AGREE ON INAUGURATION OF AN IRISH PARLIAMENT

LONDON, 10th. — It is authoritatively stated that Sir Edward Carson and the Hon. John Redmond have agreed that the Irish Parliament should be inaugurated in Dublin immediately. In the Parliament the three southern provinces will be represented but only three counties of Ulster, namely Donegal, Cavan and Monaghan will be represented the other six being excluded until after the war when the question will be settled definitely.

THE NATIONALIST MEMBERS OF THE BRITISH PARLIAMENT WILL STAY ON THEIR POSTS

The Nationalist members of the British Parliament will stay on their posts with the object of being in a position to advocate home rule after the war. The Lord lieutenant will call on the members of the Irish Parliament to discuss matters affecting the whole country and although as a body the Parliament will have no legislative authority it will serve as an important factor to pacify the Ulsterites. Though a settlement has been ratified, greater provisions than those stipulated in the original home rule act will be made due to the effect of the war.

AUSTRIANS CAN SEE VICENZA. ZA NOW, BUT WILL THEY EVER TAKE IT.

ROME, 10th. — Since June 2, the Austrians attacks have all been futile and it would appear at present that their advance has been definitely checked. From their new positions the Austrians can see Vicenza but it is doubted whether they will ever be permitted to take it. The "Giornale d'Italia," says: "The Austrians are advancing in five separate columns. The first between the Adige and Lanza valleys, against the Zugna peaks and the Mezzana ridge; the second coming from the Col Santo has been detained by the Monte Pustio and is now operating between the Lanza and Posina valleys; the third column, which is commanded by the Austrian Crown Prince, is carrying out the strongest advance of all between the Astico and Posina valleys; the fourth column, composed of the 20th army corps, is trying to break through the Italian line in the Sette Comuni district; the fifth columns is advancing along both sides of the Sugana valley. The first and lieutenant will call on Italian front the best of the Austrian Empire including the Kaiser-Jagers who have been recruited among the mountains, especially in Tyrol. The losses on both sides have been very heavy and the Italians are strongly reinforcing their lines at all points with the object of offsetting any initial error. It is estimated that the Austrians operating on his front number 22 divisions and about 12 reserve regiments.

QUÉDÓ CONSTITUIDA UNA COMPAÑÍA ANÓNIMA PARA EXPLOTAR EL NEGOCIO DE MINAS DE MANGANESO

Hace pocos días informamos sobre el auge que está tomando el negocio de manganeso en el país, mineral del cual se exporta en la actualidad gran cantidad, con pingües ganancias para los que se dedican a esta exportación y para los que lo recogen de las vetas. Con el objeto de ensanchar los negocios a que una compañía se ha dedicado en este ramo, se verificó ayer a la una del día, una reunión en los salones del Casino Español, a la cual concurren más de ciento cincuenta personas para constituir una nueva compañía, con mayor capital. Después de expuesto el objeto de la reunión, se convino en aumentar el capital de la mencionada compañía a la suma de doscientos cincuenta mil colones, los cuales fueron suscritos por los presentes casi en su totalidad. También fueron aprobados los estatutos de la sociedad, eligiéndose a la vez las personas siguientes para integrar el respectivo directorio: Don Félix Wiss, don Roberto Smyth, don Cesáreo García, don Carlos Volio Tinoco, don Juan Dent, don Vicente Esbajo, don Edgar Pontón de Arce, don Antonio Urbano, don Antonio Giustiniani, don Emilio Echeverría, para Síndicos a los señores: Don Joaquín Linares, don Metell Atmella, don Miguel Turull, para la Junta Consultiva: Don Manuel A. Gutiérrez, Lic. don Victor Guardia, don Ricardo Dent.

Accidente ferroviario ocurrido ayer en la vía del Pacífico

El tren ordinario que de Puntarenas salió ayer en la mañana con rumbo a esta capital tuvo un accidente serio en el cual dichosamente no ocurrieron desgracias personales. Al llegar al Salitril ese tren, en un paraje cercado lateralmente por altos matorrales, la máquina se volcó sobre la vía, se supone que por haberse aflojado los rieles. El hecho tuvo lugar a las 11 m. Manejaba la locomotora el maquinista señor Solís y por gran ventura ni él ni ninguno de sus ayudantes sufrieron daño corporal alguno.

Entre los pasajeros se produjo el consiguiente pánico y avisada la Administración Central del Sur, inmediatamente salió de a desdoblamiento un tren que trajo a los pasajeros, llegando a la capital pasadas las cinco de la tarde. Los trabajos necesarios para dejar expedita la línea se comenzaron inmediatamente. Se supone que la locomotora requerirá grandes reparaciones para poder quedar otra vez en uso. Al lamentar el peligroso accidente celebramos que no haya habido víctimas en esta ocasión.

Siguiendo la costumbre de años anteriores y accediendo a los deseos manifestados por numerosos y prominentes vecinos de dicho Cantón, el Santísimo Sacramento permanecerá expuesto todo el día para recibir la adoración de los fieles.
