LA NORTHERN RAILWAY EXPLICA QUE ES IMPOSIBLE DAR MEJOR SERVICIO DE FLETES A LOS PRODUCTORES DE MAIZ DEL ATLANTICO

LOS PEQUEÑOS FINQUEROS DE CAHUITA ESTAN PERDIENDO TODA SU PRODUCCION POR FALTA DE SERVICIOS DE CABOTAJE REGULAR

Siete mil aguacates, cuatro mil mangos, dos mil quinientos naranjos y doscientas papayas se perdieron en la última semana

Nuestro corresponsal en Cahuita nos escribe para transmitirnos una queja de los finqueros pequeños de Cahuita, en relación con el servicio de lanchas entre los diferentes puntos de la costa.

Nos dice que la única lancha que hace un servicio regular entre Limón y varios puntos de la costa Atlántica es la lancha Moderno de propiedad del señor Ernest. Pero esta lancha no tiene capacidad suficiente para trasladar toda la mercadería especialmente productos agrícolas que se producen en la Costa y estos se pierden siempre con grave perjuicio de los finqueros de esas regiones.

En días pasados, nos indica nuestra corresponsal que la semana pasada cuando pasó la lancha para dejar carga en Puerto Viejo, avisó a los finqueros que preparaban en Cahuita mercaderías para traer a Limón. A su regreso la capacidad de la lancha estaba completa y no fué posible recibirles carga.

Entre ininidad de productos que se perdieron hay siete mil aguacates, cuatro mil mangos, dos mil naranjos y doscientas papayas.

El señor Ernest por su parte no tiene responsabilidad ninguna, ya que no tiene contrato ni subvención con el Gobierno para hacer servicio de cabotaje en nuestras costas. Su lancha va y viene en servicios particulares de su propio negocio y si los productos que compra en la costa llenan la capacidad de su lancha no puede recoger la carga de otros. El señor Ernest facilita pasajes gratuitos a todos los funcionarios del gobierno que viajan en la costa y lleva, gratuitamente la correspondencia. No es posible también pedirle que abandone su negocio para favorecer a otros.

Pero es necesario que el gobierno tome alguna medida concediendo una subvención al señor Ernest para que haga viajes periódicos a la costa y facilitar así el intercambio de artículos nacionales. Así se ayudará a muchísimos

finqueros pequeños, quienes podrían encontrar mercado en esta ciudad o en el interior para su productos, sobre todo en estos momentos que hace falta comida para el pueblo. Antes se daba una subvención a la casa de Gmo. Niehaus para que hiciera ese servicio. Luego fué suprimida y nadie más se ocupó de este asunto.

Nosotros hacemos la sugerencia al gobierno en la esperanza de que tome alguna medida en beneficio de esta provincia.

En nota que su Gerente envió al señor Secretario de Agricultura, contestándole una comunicación, le expresa que el problema de los productores está en las dificultades de los mismos para llevar su producto a las estaciones más accesibles

El señor Secretario de Agricultura, atendiendo a observaciones que le hiciera un estimado finquero de la zona de Guápiles, se dirigió a la gerencia de la Compañía del Ferrocarril del Norte, para pedirle solucionar el problema del transporte del maíz, especialmente.

La respuesta del señor Green acaba de llegar al señor Secretario de Agricultura y explica ampliamente las razones que existen para esta que se califica como difícil y falta de atención de parte del despacho de agricultura.

Al respecto, se considera en dicha nota que es sumamente difícil para el ferrocarril realizar un transporte de este artículo en las condiciones en que se usa, por cuanto los productores realmente hacen ingentes esfuerzos luchando duramente con los malos caminos, para salir de sus fincas hasta la orilla de la vía férrea. Pero eso les hace doblemente difícil converger en su mayor número hacia una o dos o tres estaciones en las cuales haya comodidad de recibido, de atención de flete y hasta protección del artículo en el momento de un aguacero. Detalla que los precios en los fletes no pueden ser más favorables y de acuerdo con las condiciones que puede ofrecer la empresa en un acto de cooperación con esos agricultores.

Es por lo expuesto que, en diferentes casos, se hace imposible recoger los sacos de maíz, —dos o tres a veces— que los campesinos logran acercar hasta la vía férrea, a la salida de las fincas, y sin que sea posible saber si realmente esperará allí al tren para recoger esa carga.

Anota, pues, el señor Secretario de Agricultura, que hay motivos bastantes para demostrar que ese despacho se ha preocupado por atender las quejas, pero que el caso respondió a la versión que ahora se da.

NUESTRO CORRESPONSAL EN SIXAOILA HACE ALGUNAS REFERENCIAS SOBRE LAS AUTORIDADES DE ESA REGION

Se ponen dificultades a los costarricenses que trabajan en Panamá y quieren regresar a su país

Nuestro corresponsal

Señor don Enrique Arrázola La Voz Atlántica

Debido a la penuria de la provincia muchas gentes de color, y también latínameri canas vienen a esta región procedentes de Limón y sus alrededores en busca de trabajo mejor retribuido: que consiguen aquí o en el distrito de Changuinola, Panamá; Estas gentes dejan sus familias en los lugares de su procedencia, muchos de ellos nacidos en el país. Todos tienen sus cédulas de identidad y en la mayor parte de los casos cuando quieren regresar a ver a sus familiares, el señor subinspector de hacienda les pone trabas y no los deja pasar; parece que viviera uno en un país totalitario y no en la pacífica y hospitalaria Costa Rica, con hombres en los puestos de gobierno así apartados. Conviene también que el gobierno se de exacta cuenta de la forma como colaboran sus dos re-

presentantes en Sixaoila; el factor de la aduana y el subinspector de hacienda; estos dos señores poco les falta para darse de tiros, y cualquier día lo van a hacer, el responsable será el gobierno.

El subinspector no hace otra cosa que hacer dura crítica de la forma como viven y trabajan los empleados del gobierno de Panamá; desde luego resintiéndose mucho (Pasa a la Pág. TRES)

LOS VECINOS DE LA CIUDAD DE CARTAGO SE DIRIGEN AL PRESIDENTE DE LA REPUBLICA, PIDIENDOLE LA PAVIMENTACION DE LA CALLE AL CEMENTERIO

Nuestro corresponsal en la ciudad de Cartago nos comunica de las gestiones que se están llevando a efecto de lograr la pavimentación de la calle del Cementerio por parte de importantes vecinos de la ciudad brumosa. —Según nuestro represen-

tante hace días se viene pavimentando la calle que conduce a La Línea y que pasa frente al cementerio y que se pretende seguir al norte hasta llegar a Cinco Esquinas. Enterados de esto los vecinos se han dirigido al (Pasa a la Pág. TRES)

ARREGLADA LA SITUACION DE EDUCACION FISICA EN LA ESCUELA

Al retirarse de la escuela don Juan Bta. Peralta, director que fué de la Escuela Tomás Guardia, quien tenía a su cargo las clases de Educación Física, los grados superiores de dicha escuela quedaron sin este ramo educativo tan necesario en nuestro ambiente cultural y físico. El Sr. Peralta se retiró con permiso por enfermedad y en virtud de eso no fué sustituido en esas lecciones especiales, situación que estaba redundando en perjuicio para nuestra juventud. A fin de arreglar esta situación le fué enviado un memorial al Sr. Director Técnico de Educación Física don Jacobo de Foinquinos, en el cual un nutrido grupo de padres de familia le solicitaba el arreglo in-

mediato del nombramiento de un nuevo maestro que viniera a sustituir al Sr. Peralta, fallecido poco después de su retiro. El Señor Foinquinos, culto deportista consciente de la importancia de la Educación Física en las escuelas y técnico en este ramo, accedió gustoso a la solicitud que se le hacía y nombró para tal cargo al conocido profesor y deportista consumado don Hernán Solano A., quien en los días posteriores al retiro del Sr. Peralta había tenido a su cargo esas lecciones sin remuneración alguna.

El Sr. Director Técnico de Educación Física contestó el memorial con el siguiente telegrama: señores Roberto Blanco M. y demás (Pasa a la Pág. TRES)

NOTAS EDITORIALES

NO HA CONTESTADO EL SEÑOR VOLIO

El ingeniero don Claudio A. Volio, Asesor técnico de la Secretaría de Agricultura ha contestado todavía las críticas que se le ha hecho a su informe sobre la ganadería en zona atlántica. Los señores José Rossi, Fernando Castro y Ricardo Gutiérrez, experimentados agricultores de la provincia de Limón quienes han invertido mucho dinero en la cría de ganado, difieren en absoluto de lo que piensa el señor Volio.

Para la provincia de Limón ese informe reviste una importancia extraordinaria, y porque la opinión bastante teórica del señor Volio, sea cosa definitiva y absoluta, sino porque su carácter oficial va a causar muchísimos perjuicios. Los bancos que nunca han tenido muy abiertas sus cajas para prestar dinero a los agricultores de esta zona, las cerrarán ahora definitivamente cuando se trate de fomentar la ganadería de esta provincia. El Gobierno no que había ofrecido en innumerables ocasiones como base para nuestro resurgimiento, una ayuda completa a la ganadería, aceptará las conclusiones de su asesor técnico y dejará el mismo abandono de siempre toda la ayuda que nos había ofrecido.

Y mientras tanto el ingeniero señor Volio guarda silencio no obstante la gravedad que ese silencio tiene. Su mismo prestigio profesional y la seriedad del cargo que desempeña obligan a ratificar sus conclusiones, si es que ellas son exactas, o aceptar la ligereza de sus opiniones hidalgamente.

Y si el señor Volio continúa callando, la Secretaría de Agricultura quien está obligada a recurrir a otros técnicos, para que un estudio más amplio puede justificar una u otra tesis. El Banco Nacional de Costa Rica, por medio de su Departamento Agrícola hizo hace ya algunos años, un estudio sobre las posibilidades de ayuda a la industria ganadera en esta zona. Sus conclusiones fueron del todo favorables. El señor Iglesias, autor de ese trabajo, tiene tanta autoridad científica con el señor Volio. Si en la balanza de la razón ponemos las opiniones de los señores Iglesias, Gutiérrez, Castro Cervantes y Rossi, contra la que sustenta el señor Volio, la elección no es dudosa.

Pero aquí no se trata de opiniones más o menos autorizadas por la experiencia y el conocimiento, sino del carácter oficial de un informe que, lo repetimos, puede tener incalculables consecuencias para nuestra provincia.

Mientras todas estas cosas se aclaran, sería oportuno que el señor Cónsul de Costa Rica en Panamá a quien seguramente ya mandó el informe, lo tome a juicio de invertario, y espere las publicaciones que nosotros iniciaremos de otras muchas opiniones de tanto valor como la que tiene en sus manos y que son favorables al desarrollo de la ganadería en nuestra zona.

Para el Sr. Foinquinos el nombramiento y comenzará, al iniciarse de nuevos respetos y para nuestros respetos y para la preparación de una serie de ejercicios físicos para el 15 de septiembre.

padres de familia — Limón "La Dirección Técnica de Educación Física a mi cargo, tomando muy en cuenta nuestra justa petición, se permite manifestarles que procederá inmediatamente a nombrar los maestros de Educación Física necesarios para que ningún niño de esa progresista ciudad se prive de sus beneficios. Unicamente la falta de elementos capacitados ha impedido hasta el momento hacerlo, pues esta oficina desea que dicha actividad esté en buenas manos, por lo cual habiendo ya encontrado, procederá inmediatamente a su nombramiento. Atentamente,

Jacobo de Foinquinos
 Director Técnico Educación Física

A la vez el Sr. Solano nos ha informado que le fueron dadas diez lecciones de Educación Física en los grados superiores. Tomando en cuenta que el Sr. Peralta daba Veinte lecciones, nos

permitimos pedirle al señor Foinquinos que le sean dadas a Solano las veinte, ya que teniendo libres las dos últimas lecciones de la mañana y no habiendo lecciones en la tarde, bien podrían acomodarse esas lecciones sin tener que recurrir a otro maestro. Tratándose de las lecciones al aire libre (Futbol, basquet, base u ejercicios gimnásticos) que son los más gustados por los estudiantes, resultarían más provechosos que fueran dadas después de medio día ya que aquí el sol de la mañana resulta muy pesado para ejercicios físicos. Además con un aumento de solamente diez lecciones, que dan sin Educación Física 3 tercetos y dos cuartos grados que podrían beneficiarse si fueran veinte en vez de diez las lecciones asignadas al nuevo maestro. Teniendo las lecciones en grados inferiores dadas por una señorita, lo lógico es que el mayor número de grados superiores sean incluidos en las clases del Sr. Solano.

El Sr. Solano aceptó gustosamente el nombramiento y

UNA HISTORIA DE DOS ISLAS, MENORCA Y PANTELERIA O LAS CAÑAS SE TORNAN LANZAS

Por PEDRO BILBAO

Julio de 1936. Unos generalitos despechados se han sublevado en España contra el gobierno legítimo. "Es un conflicto local — dicen algunos seneas — y lo mejor es no intervenir en líos de familia". Pero algunos amigos de los de la familia, no piensan lo mismo, y... en Argelia, a pocos kilómetros del Marruecos Español, han hecho un aterrizaje forzoso varios Junkers, cortos de gasolina, en su viaje de Alemania a Melilla, el primer feudo de los generalitos. Pero otros muchos llegaron a su destino... Menorca es una isla leal. A pesar de su guarnición y de la semilla lanzada por los "turistas alemanes" y los "comerciantes italianos" que desde hace tiempo pululan por el archipiélago, Mahón está con la República Democrática Española. Pero en Mallorca no sucede lo mismo; el generalito Goded ha dado bien el golpe y ha salido para Barcelona, a "conquistar" Cataluña... El fascista italiano, delegado de Mussolini, Conde Rossi ha tomado el mando de la isla, y los primeros "Savoias — Marchetti" ya han

llegado en vuelo directo de Cerdeña al aeródromo de Palma. El Conde Rossi ha dicho: "Hay que machacar a Menorca con aviación, hasta que se rinda". Julio de 1936. Sobre el cielo de Menorca aparecieron unos raudos, gigantes, extraños trimotores. Y Mahón fué la primera ciudad europea que supo de las bombas totalitarias; y un aviador español, el capitán Freire, la primera víctima en Europa de la metralleta de la aviación fascista. El asedio de Menorca por mar y aire duró muchos meses. Desde julio de 1936 hasta el 18 de febrero de 1939. Como en Malta, muchos aviones italianos y alemanes pagaron cara la osadía de bombardearla. Algunas veces, en medio de las nieblas de la noche, se acercaron el "Bolzano" y el "Deutschland", de "control del Mediterráneo", para atacarla, pero las baterías de La Mola les infundían demasiado respeto. Después de treinta y tres meses, agotados todos los recursos, sin cazas en el aeródromo para su defensa y sin víveres para la pobla-

ción, capituló la plaza. Una de las condiciones aceptadas por el bando vencedor, y en la que hizo hincapié el Gobernador de la Isla, el heroico marino D. Luis Ubieta, fué la evacuación a bordo de un crucero inglés surto a la sazón en el puerto, de todos los responsables civiles y militares q

se habían distinguido en la defensa de la isla. Los representantes de Franco aceptaron la condición y a bordo del barco británico embarcaron unos cuatrocientos refugiados con sus familiares. La guerra se había acabado en Menorca; de una forma muy triste, pero... se había acabado. Dos horas más tarde, cuando los exilados se hacían a la mar, en el ciclo de Menorca aparecieron por vez postrera los "Savoias 81" y bombardearon el barco y a la ciudad... Fué su última hazaña. Los cañones antiaéreos de La Mola, de acuerdo con las capitulaciones, hacía 2 horas que habían sido desmontados.

fué una junta de capitulación. El 15 de marzo, Alemania se anexiona Bohemia y Moravia; el día 21 se anuncia, (¿plebiscito?) de Mel.

El 26 de marzo capitula Madrid, y el 29 empieza campaña anti-polaca en la prensa del Reich. Italia, siempre cauta, aprovecha la ocasión de haber quedado las manos libres en España, y da el paso siguiente. El 7 de abril ataca a Albania... etc., etc. Ya lo saben ustedes; después de terminado el episodio de España los acontecimientos se precipitan. Cinco meses más tarde Polonia es atacada. Ahora ven la guerra hasta los muelles de la "no intervención"... Y solamente en semana se derrumban Polonia, Noruega, Holanda, Bélgica... Todavía los Aliados no tienen más que cañas para defenderse, y Mussolini aprovecha la "feliz circunstancia", para dar el empujón fácil a Francia, que se tambaleaba sobre la línea Maginot... ¡Túnez, y Córcega, en la mano! El apetito se excita comido, y... ¡vamos por Malta! Pero ¿Malta?; las cañas aliadas las empieza a convertir en lanzas la Gran Bretaña.

¡Cómo corre el tiempo! ¡Parece que fué ayer cuando una isla del Mediterráneo sucumbió ante la aviación y la marina del Eje! Las democracias no tuvieron entonces sino cañas para defenderla... Después de Menorca y del colapso de La República Española hubo unos días de paz. Muy poquitos; solamente los necesarios para que el monstruo recobrará aliento. La primera víctima, España, había sido la más difícil. Las que sucederían iban a ser mas fáciles, vencida la retaguardia estratégica de las democracias. Virtualmente, la guerra de España terminó el 5 de marzo de 1939. Lo que allí quedó hasta el 28 de marzo,

Han cambiado ya las cosas. La espabilada Italia ha perdido todo lo que tenía que perder fuera de la met

INTEGRADA LA NUEVA LIGA PARA EL PERIODO 1943 - 44

En reunión que celebraron los representantes de los cinco clubs deportivos de esta localidad, quedó integrada la nueva Liga que ha de funcionar durante el periodo de 1943-44. La representación de los clubs fue así: Barcelona, Luis F. Blanco; Júpiter, Roberto Blanco M., Gimnástica, Franklin Rivers F., Limón Junior, John Humphreys; México Junior, Miguel A. Rodríguez. Por la prensa así: Semanario Deportes, Héctor Pastor D., La Voz del Atlántico, Roberto Blanco M., (Sec. español) y Joseph A. Thomas (Sec. inglés).

La liga fué integrada por dos representantes de cada club presentados por los respectivos representantes como sigue: Barcelona, Domingo de Sárraga y Héctor Pastor; Júpiter, José Joaquín Araya, y Edwin Saenz R., Gimnástica Jesús Mora y José Arias; México Víctor Ml Solano y Rigoberto Moreira; Limón Junior Gonzalo Xirinach y Rodolfo Johnson.

Para la nominación de los respectivos puestos dentro de la Liga, fué promovida una reunión que se celebró el lunes pasado, quedando integrada la directiva en la siguiente forma:

Presidente: don Héctor Pastor D.

Vicepresidente: don José J. Araya.

Secretario: don Víctor Mr. Solano.

Prosecretario: don Edwin Saenz.

Tesorero: don Domingo de Sárraga.

Fiscal: don José Arias.

Vocales: don Jesús Mora, don Rigoberto Moreira; don Gonzalo Xirinach, don Rodolfo Johnson.

Como puede verse, muchos de estos elementos son nuevos en estas funciones y fueron escogidos precisamente por elevado espíritu deportivo y su dinamismo condiciones marcadas que harán que su trabajo sea eficiente y provechoso para el deporte local. Tienen estos señores delicadas situaciones que resolver tales como el acondicionamiento de las dos plazas, la organización del nuevo campeonato, la efectividad del timbre deportivo en Limón, la construcción de un estadio, la federación de los clubs deportivos limonenses y una serie de intervenciones más que si llegara a realizarse redundarían en beneficio positivo para nuestro deporte. Pero antes que esto creemos que el primer paso de esta nueva Liga es resolver su problema económico, ya que sin "harina" no hay "pan" posible de elaborar.

NOMBRA NUEVA DIRECTIVA EL JUPITER SPORT CLUB

En reunion general celebrada el martes 20 de los corrientes, quedó nombrada la nueva directiva del Jupiter, que ha de funcionar durante el periodo 1943-44. En su casi totalidad fué reelecto la actual directiva. Su integración quedó así:

Presidente: don Roberto Blanco M.

Vicepresidente: don Joaquín Araya M.

Secretario: don Heleodoro Andrés H.

Prosecretario: don Danilo Solano A.

Tesorero: don José Olmedo R.

Fiscal: don Jaime Rodríguez C.

Vocales: don Manuel Ulloa F, don Jorge Solano y don Hernán Campos.

El señor tesorero presentó un balance económico al cumplir el club un año de su instalación, de donde cogemos los siguientes datos que creemos de importancia general:

Se ha movilizado una suma global de ₡ 7.500.00. Esta suma está distribuida como sigue: Mobiliario propiedad del club ₡ 2.500.00. Gastado en deportes ₡ 2.000.00. Gastos de administración ₡ 2.500.00. Queda en caja libre de compromiso, una crecida suma a la orden de la nueva directiva.

va, que tomará el club en magnificas condiciones. Hay que recordar que el Júpiter surte a sus jugadores de primera y segunda, con todo el equipo necesario para el deporte. De ahí que este renglón se haya elevado tanto. Pará la toma de posesión de esta nueva directiva, se prepara un baile en el Parish Hall para fines de este mes. Mucho acierto deseamos a los nuevos directivos.

Tifópoli ¡Se prepara ya el asalto decisivo de los Aliados.

Junio de 1943. Han pasado siete años desde que aquel jefecillo fascista Conde Rossi satisfacía los deseos de Mussolini diciendo: "Hay que machacar a Menorca con aviación hasta que se rinda". Pero desde entonces el procedimiento ha sido perfeccionado, y ahora Pantellería, el Gibraltar de Italia de que hablaba el Duce, apenas ha podido resistir una semana las pasadas de la Flota y de la RAF. A pesar de sus bases de lanchas torpederas y de submarinos, de su estación de hidroaviones, de su aeródromo subterráneo y de sus fortificaciones, ha caído la isla en cuanto comenzaba a ser machacada por la aviación Aliada.

Y, ¡qué verdad es que el que a hierro mata a hierro muere! Cuando la guarnición italiana se había ya rendido, una fuerza de cincuenta o sesenta bombarderos alemanes atacaban traidoramente a Pantellería. Si había allí alguno de los legionarios fascistas que lucharon en España, debió de acordarse con amargura del crimen italiano de Mahón.

CONDITIONS ON THE FIGHTING FRONTS

Each day passes, the of the enemy forces in the different war zones become more and more precarious.

The larger and more important part of the Island of Sicily has fallen under the control of the Allied Command. The capture of the island's capital, Palermo, is said to be imminent.

The capture of the important position of Enna so disorganized the enemy's system of defence in the center of the Island that their forces were compelled to flee toward Messina.

The Germans are said to have concentrated their activities in the Catania sector where they still offer stubborn resistance to the forces of General Montgomery. In other sectors the Italians are reported surrendering en masse, while making a general retirement.

The Russians have annihilated their big offensive on four fronts, and the fighting is said to have assumed an intensity unparalleled throughout the period of war.

In the central zone, they have broken through the principal Nazi defences in the exterior of Orel, after cutting all the railway lines leading from the locality. The Soviets have also made advances in the Belgorod sector, where the Nazis were forced to abandon their chief lines of defence. The offensive in the South has also been extended and it is thought the Russians plan to reach the sea of Azov and completely surround the German forces located in the Donetz and Caucasian regions.

Due to the effectiveness of the Allied aero-naval blockade, it is expected that only a very small part of the enemy troops will be able to evacuate Sicily, while advices from Rome declare that the Italian ports having been so badly damaged by the aerial attacks there is hardly any possibility of re-inforcements being sent to maintain the defence in Sicily. A later advice reports the capture of Palermo by the Allied troops.

ROME HAS BEEN BOMBED

Neither the governing authorities nor the public of Italy seem to have seriously regarded the ultimatum addressed to them by President Roosevelt and Premier Churchill, in which they were advised that they held their destiny in their own hands, as the only way of saving their country and themselves from the mighty striking forces of the United Nations was by getting rid of Mussolini and his chief henchmen. As a consequence of this attitude, the long delayed aerial attack on Rome, the Eternal City, was effected in plain daylight, last Monday the 19th instant, during a space of two and a half hours.

The attack was conducted by squadrons of bombers of the Mediterranean Command. Numerous objectives of great military importance including factories, railway stations, concentration camps and other edifices were heavily damaged. It has been officially stated that the pilots in charge of the attack had been specially instructed to abstain from effecting any damage to the Papal State or religious or cultural monuments; unfortunately a bomb exploded some three hundred yards off the famed Basilica of San Juan de Letran and produced serious damage to the edifice, which appertains to the Vatican.

An official report from Rome places the victims at 717 persons killed and 1,660 injured.

With a view of saving Rome from further bombings, the information has been released that His Holiness the Pope has solicited the removal of all installations of military value so the capital can be declared an "open city".

Meantime, the Governor of the City has arranged to give effective assistance to all who wish to leave.

IN THE PACIFIC WAR ZONE

Melbourne reports that Allied air units effected the most devastating attack of the war in the southwest Pacific on Wednesday last, when they discharged 133 tons of explosives over Japanese positions in New Georgia.

THE THOUGHT FOR THE WEEK

When a friend is carried to his grave, we at once find excuses for every weakness and palliations for every fault; we recollect a thousand endearments which hitherto glided off our minds without impression as also a thousand favours unrepaid, numerous duties unperformed, and wish, vainly wish, for his return; not so much that we may receive as that we may bestow happiness and reward that kindness which we once never understood.

THE APPEAL ON BEHALF OF MEN OF ROYAL NAVY AND MERCHANT MARINE

The development of the present age has provided the means whereby world-wide happenings are vividly brought before our eyes, rendering us, at times, impulsive, as we gaze on the pictorial views. Among the grasping scenes, we note the life of the mariner who faces the storms, the tempestuous billows and the monsters of the deep—perils which are today greatly increased by the activities of the enemy under-water craft.

The men of the Royal Navy and Merchant Marine are combatting these dangers in order to carry out the duties demanded of them and to maintain free communications with the various territories of the United Nations for the supplying of the essentials of the war and the feeding of their peoples.

The plea for an overwhelming financial support to King George's Fund for the sailors of the Navy and Merchant Marine of the British Commonwealth of Nations is most deserving. In fact, those who truly appreciate freedom, justice and civilization cannot fail to realize the indomitable courage of the men for whom the Fund has been promulgated. The Fund merits the fullest support, not only of Britishers, but of every anti-totalitarian who is cognizant of the fact that all those terrors which Nazidom has employed against other free peoples are also designed for us. We have every reason to believe it is not the distance which separates our Continent from Europe that has freed us from greater perils than the torpedoing of a single ship, but the daring Sea-Power of the Britons and their Allies. It should not be forgotten that the real aim of the Axis Combine is world domination, to obtain which the control of the seas is needed—and this they have not been able to wrench from our Navy and Merchant Marine.

We urge a wholehearted support to King George's Fund for the sailors of the Royal Navy and Merchant Marine. As mentioned in the memorandum of the H. M. Charge d'Affaires published in our last Saturday's issue donations can be sent direct to the British Legation in San José. We believe the Consulate in this city will, for convenience, be willing to accept contributions for remittance to the Capital.

ITALIANS PLEAD FOR PEACE

By way of Madrid we have the information that the Italian public have been holding a series of meetings in the principal cities through-

out the country in an effort to secure Peace. One of the largest demonstrations took place in the Plaza de Venezia when the Fascists leaders were asked to initiate the question of Peace and also that Robe be declared an "open city".

Rather significantly, we note the report that Mussolini, having suffered a serious break down of his health, his medicos have ordered his retirement to a place of rest or else they fear the gravest results.

ABACA PLANTINGS TO BE LARGELY EXTENDED

We are in the receipt of information that the Costa Rica Banana Company have decided to extend their abaca plantations. The new plantings will, it is stated, cover an area almost as extensive as that now under cultivation.

This is certainly gratifying, as the extra activities

will necessitate the employment of an additional number of workers and place an appreciable amount of each in regular circulation to the benefit of the entire community; while the establishment of the Industry on so vast a scale must eventually provide a splendid aid to our economic resuscitation.

The vote of the people is the law of the land — and the people vote Dixon's Barber Shop for better service. — West of the city Market.

THE PASSING OF ANOTHER OLD RESIDENT

The news of the almost sudden death of Mr. John Barley, another citizen of pioneering status, who had earned great esteem, was rather alarming, and gave rise to sympathetic expressions from all sides. The end of his earthly career took place last Sunday night, the 18th. instant, after a very brief illness.

Mr. Barley was a native of Duncans in the parish of Rre'awny, Jamaica, and had resided in this Republic for a very long number of years. He served, we are

told, the United Fruit Company in many responsible positions, and was held in high esteem by his principals. The burial of his remains was effected the day following that of his death after Major Lynch had performed the funeral ceremony in the Hall of the Salvation Army. The number of mourners and sympathizers who attended was very representative.

The deceased is survived by his widow, ten sons and daughters, ten grandchildren and other relatives. Among his sons is Mr. Ernest Barley of the Merchandize Department of the Costa Rica Banana Company and Musical Fame. We extend to all the deeply bereaved ones our profound condolence. May the soul of the departed citizen rest in Peace.

RALLY ON OUTSTANDING PERSONAGES OF JAMAICA

Quite an oration of history is said to be in the making in connection with the Rally the Methodists propose to stage in their city Church on the evening of Tuesday the 3rd. August proximo, based on some of the outstanding personalities of the Island of Jamaica. We glean that the names selected are self-evident of a thrilling contest, in view of the careers of the owners in educational, political, religious and other spheres. The representatives have, we are told, already started the campaign and a lively pace has been set. Is it hoped the name of Marcus Garvey will be among the chosen ones. We wish the entertainment will be a complete success.

On the evening of Saturday the 17th. instant the Baptist Church at Germania was graced with an attractive and impressive scene, when Miss AgatLa Louise Clarke was joined in wedlock to Mr. Thomas Theodore Thompson in the presence of an appreciable company. At the left of the Bride was Mrs. Frank H Tully and at the right of the Groom, Mr. Joseph C. Francis, the Deacon of the Church. With marked solemnity, the Rev. W. Forde, Pastor of the Church, administered the matrimonial Rite.

The Bride, who is known, generally, as "Miss Gatha," is very much loved by both the young and old of Germania and the nearby districts—a just recognition of her winsome ways and friendly disposition in addition to her willingness to always lend a helping hand whenever and wherever needed. With respect to "T. T." as we so amicably call him, we believe that not only in this district, but almost throughout the Atlantic Zone he is known and esteemed, both for his distinctive qualities in the Sartorial art and his splendid character. We are sure that when the glad news of his marriage, through the medium of this Journal, reaches his brethren—the Mechanics the Grand United Odd Fellows, the Bethlehemites and Free Gardeners, they will hail him and his Bride with great rejoicing. We hope and trust that his marriage will be the means of affording him that right hand brace

Inauguration of Women's Life Problem Club

Apparently, the founders of the Women's Life Problem Club belong to that fraternity of thinkers who believe in the significance of a "NAME", as we have learned, through the medium of the preamble of the Association, at its advent in the St. Mark's Church on the afternoon of Wednesday of the week in course. Believing in the sanctification of all human endeavours; submissively, the members of the Club effected their supplications to God for His Blessing, Guidance and Wisdom through the priestly office of the Reverend W. J. Evans, Rector of the Church. The soul-stirring service began with the singing of the illustrious hymn—"Children of the heavenly King". The scripture lesson, read by the Rector, was taken from the Epistle, of Paul, the Apostle, to the Ephesians, treating upon the installation of the complete armour of a Christian and a Commendation to be strong in the Lord and in the power of His might. The Rector solemnly administered the ceremony of Installation on Mrs. Adassa Daysley, President — Mrs. Maryan Brotherton, Vice President — Miss Margaret Dawkins, Secretary — Miss Edith Blake, Chaplain and Miss Rachael Barnes, Tyler. Then followed the acceptance, at the altar, of the general membership of the club in Christian fellowship, and under the banner of the Church. The discourse of the Reverend Father Evans was effected on the principles of the Club and the effort which it is necessary for

them to maintain as the basis from which all the higher powers of character and service must proceed, and that intimate connection between the women of the Club and the Church, and outside as well, must be resolved to be of the aspiring mind to embrace the work of Christ. The social features of the Inauguration were charmingly observed during the later evening hours in the Hall of the Parish. The appetizingly prepared banquet table occupied a central position and setted with toothsome dainties and refreshing beverages for its decoration. Mrs. Daysley befittingly delivered the opening oration and in turn introduced Mr. Jos. A. Thomas to preside over the festival. The other specially invited male guests were Messrs. Wm McCreath, N. James and James Messam. The entertaining items were highly intellectual. Those who contributed were the gentleman already named and Mr. Jos. N. Brotherton, treasurer of the Club, Mesdames Ruth Evans — Clara Lawrence — Teresa Henry — Matilda Wade, Emilia Cranstan, Ruth Escob. Maryan Brotherton, L. Messnam (song), Leticia Gray (reading), Diana Gayle, Doris Gray, song, A. Heron (address and song) Hilda Davis, Miss Margaret Dawkins and Miss Edith Blake (song). Mrs. Daysley also rendered a song. The happy event terminated at ten o'clock, and undoubtedly all the participants took home with them the rich fragrance of the celebration.

JEHOVAH'S WITNESSES CALL TO ACTION
ASSEMBLY AT SIQUIRRAS

PAST BUT NOT FORGOTTEN

Burning in the hearts of all servants and fighters for the New World is the memory and inspiration of the joyous Kingdom activity of our past Assembly. Over 350 brethren and friends assembled, the which has never been before in this place.

Behold; View the rising tide; Be thrilled; Visualize, if not present 200 brethren taking part in the house to house witness, bearing testimony to the Theocratic Kingdom as the only hope of mankind, surpassing any previous assembly of the Lord's people in Costa Rica. Look: Watch these human creatures by God's grace and command following Jesus in action, going from house to house.

Jesus, going into the house of Simon and Andrew with James and John, conducted a bible study and healed. St. Mark 1:29-34. Math. 8:14. Luke 4:38. Going to another private home to preach on a week day, people gathered and there resulted a neighborhood meeting. Thick crowds caused the opening of a hole in the top of the house to let a sick, paralyzed man down. This happens sometimes to Jehovah's Witnesses; crowds gather to hear them. Mat. 9:1-7. Mark 2:1-8. Jesus did not pass by the houses of those of poor

reputation. Math. 9:10-13. These service records are for our example.

Repeatedly the report is to the effect that "He went in to a house" and crowds assembled and He gave them Kingdom testimony. Mark 3:19-20. Jesus was also visited by blind men at a home. Math. 9:28. At various homes He instructed His disciples privately with fuller information concerning things already preached to others. Jesus did not keep to these apostles only or in any little private circle. "He departed thence" for more field activity. Math: 13-36:58 Mark 7:17. 9:28. 10-10.

One night at a house He was quietly visited under cover of darkness by a Pharisee named Nicodemus with whom Jesus had a long discussion. John 3:1-21. Again by a Gentile woman (Syro-Phoenician), Jesus healed her daughter. Math. 15:21-28. Mark 7:24

He accepts an invitation, contacted a sinner woman who wept and wiped His feet with her hair. Luke 7:34-50. At another home He uses a little child, illustrating a speech to His disciples. Math. 18:1-10. Mark. 9:33-37. At another Pharisee's home to which He was a guest at meal He was criticized for not

washing His hands in religious fashion before eating; there He exposed religion, not compromising because He was a guest. He was the re primarily as a witness to the kingdom and He tried to help the household, rather than indulge in meat. Luke 11:37-54. Luke 10 38-42. At Bethany, Martha received Jesus into her house; her sister Mary also who humbly received Jesus' words realized the real importance of Jesus' visit and became more interested than Martha who asked for Mary's assistance in getting meals ready for Him. Jesus told Martha (Note the importance of these remarks today) "Martha, Martha, thou art careful and troubled about many things, but one thing is needful and Mary has chosen that good part which shall not be taken away from her. Luke 10:38-42. At another home Jesus was anointed with costly ointment, head and feet. John 12:1-9, Math 26:6-13.

Zaccheus' deep interest in climbing a tree to see Jesus called forth even greater interest from Him (Jesus) which was expressed by no tifying Zaccheus that He would be with Him at his home later for bible instructions. (Let us be sure to pass no one especially showing interest in a way you do not expect (peculiar).

Specially notice at this time the parable of the pounds or Kingdom interests was given. Luke 19:1-10 Jesus sends His disciples to homes and cities preaching the Kingdom.

RIVERSIDE ORCHESTRA SPREADS JOY

Tuning in for the Inaugural Dance, which presented the personnel of the "Eagles Friendly Club" to our sporting fraternity in the St. Mark's Parish Hall, last Saturday night, the Riverside Orchestra dispersed much joy. Hall (Blue), the Crooner. These merry Boys played with marked harmony. The scene was colourful and the merriment was enhanced when the popular "Muno" trumpeter arrived and augmented the previously named musicians.

Every feature of the celebration was A-1, and Messrs. George Babb, S. Maitland, S. Wade, Luis Mc Ral and others associated with the Club, merit the following.

There are men who Time but mellow as it ever onward goes; There are hearts that carry fragrance as the fragrance of the rose; There are greetings that are warmer for the showy, frosted head; There are memories we shall treasure even till memory has fled; There are those who are like sunbeams as they go their daily round. They are worthy of remembrance, for but seldom are they found. So we write this tribute in humility as those who love their

Thus the evidence direct and circumstantial proves that the house to use and back-call method instructing the common people in the gospel of the dom is the Christlike God ordained way for those who desire to serve and worship God in spirit and truth today. VISITORS MUST NOT TAKE FRUIT TO PATIENTS IN LOCAL HOSPITAL

When a people have been the recipients of certain privileges during a period of many years, they usually get to regard them as inalienable. When, therefore, they are suddenly deprived of them they will experience great disappointment and give vent to much murmuring.

Having regard to the attitude of those who previously served, authoritatively, in the local hospital we are of the opinion that if wholesome fruits were injurious to the health of the patients in the sick institution they would not have permitted.

According to the information we have received, an order has been placed in effect which prohibited a visitor, without exception, taking edibles of any kind into the wards. It is hoped that a reconsideration will be given the order in so far as fruits are concerned.

Precios Económicos

Anent the very many comments, from time to time, heard regarding the extortionate prices charged for locally cultivated products, our attention was, a few days ago, directed to the fact that a large percentage of these ever increasing charges for our first-line necessities can be traced to the disposition of greed possessed by some of the retail traders in our city market. These persons will grab the greatest quantities of produce and offer to buy them at prices much higher than their competitors and much beyond even the expectations of the seller. Therefore, in the final analysis, the consumer becomes the target.

This and other known irregularities clearly prove that if our purchasing public is to be protected from extortion it is imperative the authorities institute a rigid vigilance on every article offered for sale in every branch of business.

RECUPERATING

The "Atlantic Voice" learns that due to a sharp attack of illness our highly esteemed collaborator and cultivator of 12-12 Miles, Mr. Stephen Daleg, has been confined to his city residence for the past several days.

We are, however, exceedingly pleased with the information that he is steadily recovering and expects to shortly resume his agricultural activities. We wish him continued progress.

A COMPLAINT FROM CAHUITA

Our Correspondent at Cahuita has transmitted a complaint regarding the great loss many of the agriculturists of that coastal town are encountering as the result of inadequate transportation facilities.

It is mentioned that on a recent trip of the launch, which operates between this city and that region, the inhabitants experienced much disappointment in addition to the loss of a large quantity of perishable produce, which were ready for shipment but could not be sent forward, on account of the vessel having taken on

its capacity load at points further down the coast. The owners of the produce were assured that in view of the circumstances, they could expect the return of the launch the following day; but for reasons unknown to the interested parties the vessel failed to make the trip. The result was the loss of 7,000 alligator pears, 4,000 mangoes, 2,500 oranges, 200 papayas and many other perishable articles, for which the correspondent claimed no recompense would be had having regard to the oppression which existed.

LIMON WELCOMES A WORTHY SON

Last Thursday's regular afternoon train brought us a truly welcomed visitor in the person of Mr. Roberto Evans.

A son of our widely known citizens, Mr. and Mrs. Carlos Evans, young Roberto left this his native city some six years ago to initiate his studies for the Priesthood in the Seminary conducted by the Lazarite Fathers in San Jose, and where, we ha

ve been given the assurance, his intellectual attainments and spiritual characteristics have been most creditable and noteworthy.

He is the guest of the priests of the Cathedral and might be with us for three weeks, or so. We extend him a heartfelt welcome and hope he experiences a very pleasing vacation.

BULLETINS FROM BRITAIN

ITALY HAS NO AIR RAID SHELTERS

Not only Rome, but Sicily also—contrary to what the totalitarian radio says—has the best constructed and equipped air-raid shelters in the whole world", affirms an expert on the present-day Italy of Mussolini.

Throughout Christendom, it is a well known fact that during the first centuries of the Christian Era, thousands of persecuted men, women and children took refuge in the underground catacombs, which year after year yielded Italy millions of pounds and dollars from those tourists who were the outstanding source of profit for the land of that execrable jackal Benito.

Why howl now that the first bombs, which the Duce in his pride asked permission from his crony Hitler to rain on London, are beginning to fall on his own ground. 'Twas a bad day for the "brave" Italian airmen who knew only how to drop mustard-gas bombs on Abyssinians, when in their "memorable" attack on London they lost thirteen machines, that is half the number that managed to cross the English Channel and this fatal number is perhaps the most certain augury of the approaching fall of the fascist government in the Italy of Garibaldi.

Why the howling over there, when those catacombs, so glorious in Christian History, have already saved the life of one of those depraved fascists of modern times, who dishonor ancient history and not deserve to exist today.

80 BRITISH GIRLS KEPT IN CELLAR

Letters from British girls interned at Ilag Liebenau, a former nunnery in Bavaria, reveal something of the life lines.

One letter from Miss Joan Thomson, an actress said: "We are under punishment—Eighty women are sleeping together. We have just completed nine days of being kept in from two till four".

Boredom is the chief enemy of these girls, who are allowed out only in a schoolgirl "coddle". The only man they have seen for two years is the sentry at the entrance to their prison.

The Germans, apparently, tell the girls that it is Britain's fault that they are not returned home.

"Are you doing anything about our exchange," Joy writes: "I hear the men at G— have been asked to sign their names if they want to go to England, so perhaps the transport is working after all."

On a previous occasion she said the Germans had offered to send them to Palestine, but every one of the 250 girls refused to go.

No lights are allowed in the bedrooms. — Joy asked her

THE INITIATIVE IS OURS

The one momentous fact emerging from the fighting of this year, and of decisive importance for the outcome of the whole war, is that the Axis Powers have completely lost the initiative; and that the United Nations are now on the offensive on all fronts. For years before the war the initiative was Hitler's, and nations trembled with apprehension as to where he would strike next. One Government after another thought it wise either to appease him or to throw in its lot with him, including the Japanese, who plot their wars according to the degree of division among the Western Powers. But how changed the picture looks today.

In Europe, Germany is definitely on the defensive and Italy is on the verge of catastrophe. The bold invasion of Sicily, breached one gate of Hitler's European fortress, and assaults on other gates may be expected soon. In Russia, where Hitler made one last effort to maintain the initiative, his third offensive was stalled by immediate Russian counter-attacks which Stalin is now expanding into an offensive, jumping all fortress walls, has been carrying the war home to the enemy for some time.

Hitler can no longer choose the time and place for his attack, but must worry about the time and place of Allied attacks. He must scatter his resources to guard all the vulnerable points of his extended battle lines instead of concentrating them for assault. What is more, he is now confronted with three factors which spell defeat to every German. The first is the failure of the Blitzkrieg, which puts into effect the German military maxim that Germany must win a short war or lose a long one. The second is the certainty that Germany must now wage war on two fronts. And the third is the knowledge that Allied resources are growing steadily while Germany's have passed the peak.

All reports from the German home front, together with the growing number of deserters and the efforts of satellite Governments to get out from under, indicate that history is beginning to repeat itself. After the failure of the Russian offensive, the German generals must have arrived at the conclusion, that the war can no longer be won by military means. The length of time it will take before they and the German people are able to draw the consequences from this realization will depend on

father for a warm bed-jacket. "You see, we sit out in the corridor to read at night—and it is so cold."

One comment at the end of one letter home: "Won't it be funny when we see men again"

ROMFORD MAN'S MAGNIFICENT OFFENSIVE SPIRIT

Said to have carried out certain operations with a dash and enthusiasm which were a great inspiration to the whole of his column, Sergt. Edwin Kerwynne Chapman, of the Essex Regiment, whose home is at Romford, has been awarded the Distinguished Conduct Medal as a result of exploits in the Middle East desert, which enabled him to destroy two German planes and to take a German officer prisoner.

Sergt. Chapman was n.c.o. in charge of a section of carriers forming part of a mobile column which left Mersah Matruih on the afternoon of June 25th. During hours of darkness many columns were encountered, and only means of identifying them as friend or enemy was by sending the section of carriers forward to investigate.

TOOK A PRISONER

On every occasion Sergt. Chapman carried out this role with great dash and enthusiasm, although often encountering considerable enemy opposition. On one particular occasion he identified a column as hostile, but continued his investigation so close to the enemy that he was able to procure an officer prisoner, in spite of heavy fire.

On a later occasion he identified two German aircraft on the ground, and wrecked them both by small arms fire and grenades, again under enemy fire.

"Throughout the entire operation of the column he displayed a magnificent offensive spirit, which, coupled with a complete disregard for his own personal safety, was a great inspiration to the whole column," says official report.

"Furthermore, his quick and accurate identification of enemy columns enabled considerable damage to be inflicted on them, and at a later stage was of great assistance in enabling the column to get back when completely surrounded."

the effectiveness of Hitler's control organization.

The Italian people are apparently ready to draw these consequences soon, and the collapse of Italy would prove the signal for many Germans to follow them.

In the Pacific the Americans and the Australians and the Chinese are likewise on the offensive Unlike Axis Europe, However, Japan is still strong and her final defeat is impossible till the end of the war in Europe releases the bulk of Allied power engaged there. But the Allied offensives have already demonstrated that Japan, too, has lost the initiative.

In this war the end may still be long and costly, but both the military and the moral factors are now on our side and it is up to us to make the most of them.

PIGEONS SAVE LIFE IN RAF

LONDON. — Pigeons have often been the means of saving the lives of Royal Air Force crews, who, after a raid on Germany, have been forced down in the North Sea. It is when German "flak" has put the radio out of action that the pigeon comes into its own.

Before the plane is "ditched" the crew member in charge of the pigeons—two to each plane—closes the airtight breather caps of the two containers, just in case they have to swim for it. A sealed container gives the bird an hour's air and protection from sea water, besides providing extra buoyancy for the crew.

After the dinghy has been launched and the crew are safely on board, an SOS by carrier pigeon is soon on its way home, unless it is a night crash, when the birds are held until daybreak, as they refuse to fly in the dark.

Pigeons are an absolute necessity to Coastal Command planes on convoy duty, for often radio cannot be used, as the signals would slip off U-boats lying in wait for the convoy. So the radio operator takes a bird from its container, and with trained and gentle fingers, attaches a tiny bakelite cylinder to its leg with a ring clip. The container holds a 1½ by 2 inch piece of "flimsy" on which the message is written.

Now comes the hardest part of the operation. The bird must be properly launched. For just to throw it out in any old way is asking for the immediate destruction of the pigeon.

Only birds of the best racing strain are used by the RAF, with the result that 80 per cent of the messages sent while planes are on operational flights reach their destinations.

SAYINGS

"The RAF derives its greatest urge from the example of the worker in the factories, on the farms, and in the offices and workshops. You have worked for victory as hard as they have fought for victory. Your effort has been a fine example for us in America; it has set the pace and precedent for all our Allies." — Major General Ira C. Eaker.

"I give the most solemn assurance to the people of France that their sacred right to choose their provisional government themselves will be fully safeguarded and will operate as soon as France has been liberated." — General Giraud.

"Reconstruction like charity, should begin at home. If we succeed in that, our most immediate task, our practice may well do far more by its example to advance the world than we could do by our preaching." — Mr. L. S. Amery, Secretary of State for India.

THE GREAT BENITO

In 1928 Benito Mussolini's own story of himself, "My Autobiography", was published. How strange the book's boastful words read today, in the light of World War II. The Duce, in 1928, the strutting great; today, the humpty dumpty jackal of Adolf Hitler.

In the book, the Italian dictator failed to attribute only one virtue to himself. That was modesty. After about 300 pages of describing himself as the bravest, brainiest, most triumphant and fairest man of all time, he winds up in a blaze of glory, holding a royal flush against Napoleon, Caesar, Plato, Alexander, Cicero and all the other boys who just have to throw in their hands.

The Duce wrote of himself: "But when it has become necessary, I have shown myself to be inexorable."

"I always feel a power over events and over men."

"In politics I have never gained a penny. I detest those who live like parasites, sucking away at the edges of social struggle. I hate men who grow rich in politics."

"I push on toward better forces of life and progress. I weigh them. I launch them. I guide them. I desire our nation to conquer again."

"I think that Italy is advanced beyond all European nations."

"I have controlled my impatience. I have avoided losses into darkness. I do not sleep my way into conclusions."

"If Duce now has the RAF—merely opportunity, instead of sentry 'telling the world,' of SHOWING these remarkable qualities which, his hoped, in contrast to his Fascist legions famous Marathon from Egypt's frontier to Tunis, will prevent his running hell for leather to clasp the clay feet of his shining disciple, Hitler, imploring shelter in a padded cell in Berchtesgaden."

At least 33 1/3 per cent of the weapons we are making in 1943 are new weapons and this proportion will be increased as the year goes on we must look forward to war in close country. This requires new types of weapons." — Mr. Oliver Lyttelton, Minister of Production.

"In the face of far greater odds and much greater difficulties than perhaps at any time in its history, the Royal Navy has maintained its highest traditions. Never has it met so many new and deadly forms of combat warfare, and never has its task been so widely pread in the maintenance of the lifelines to these islands and in carrying the offensive to so many fronts overseas." — Mr. A. V. Alexander, First Lord of the Admiralty.

A German soldier being decorated by Hitler was asked what would be his dearest wish should a bomb drop beside him. "That my Fuehrer should be with me", was the answer.
