LA CRUZ ROJA DE LIMON, Y EL CUERPO DE BOMBEROS VOLUNTARIOS HACEN GESTIONES ANTE LA MUNICIPALIDAD DE LIMON, PARA LA ADQUISICION DE UNA AMBULANCIA, DE INDISPENSABLE UTILIDAD EN ESTA CIUDAD

Para su publicación hemos recibido las notas que a continuación publicamos y que se refieren a la solicitud hecha ante la Municipalidad de Limón para la adquisición de una ambulancia para los servicios de emergencia en esta ciudad.

Como lo dicen los solicitantes, La Cruz Roja de Limón y el Cuerpo de Bomberos Voluntarios, es de suma urgencia dotar a la ciudad de la referida ambulancia. Continuamente se están presentando casos que hacen indispensable este vehículo. Innumerables enfermos que llegan todos los días de la línea y que no son empleados de la Compañía Bananera, no tienen como ser trasladados porque la ambulancia del Cuartel de Policía no puede ni debe usarse para estos servicios ya que muchos enfermos que llene las ne-

pacientes padecen de enfermedades contagiosas y no es justo meter allí a los detenidos exponiéndolos a un contagio inmediato. Nosotros creemos que la ambulancia que se solicita va a llenar una necesidad inaplazable. . . .

SUPRESION DE INTERMEDIARIOS PARA LA VENTA DEL CACAO PRODUCIDO EN EL ATLANTICO

Los pequeños productores de cacao de la provincia de Limón que forman legión, se han visto obligados hasta ahora a aceptar no sólo el precio que les fije el comprador intermedio, sino también la pesa de éste.—Percebe así el intermediario crecidas ganancias en menoscabo de la economía del productor, por lo que librados, mediante la creación de una cooperativa, y el auxilio directo del Estado, sería lo prudencial y conveniente. — Juntamente con la Cooperativa de producción cacaotera, deben figurar la de ventas y la de consumo, con lo que los beneficios para el productor serán más estimables, dice don Raúl Velázquez Fernández

Unas interesantes referencias del culto caballero, don Raúl Velázquez Fernández en relación con la industria cacaotera del Atlántico, nos ha parecido oportuno reproducir en las columnas de LA VOZ ATLANTICA, porque ellas por lo bien meditadas y sensatas, forman ya en gran parte, base de un movimiento al que en otra oportunidad nos referimos: la formación de la cooperativa de Productores de Cacao del Atlántico. Aborda el punto el señor Velázquez en el Agricultor Costarricense y de sus valiosos conceptos traemos a estas páginas los siguientes:

—La formación y organización de cooperativas de consumo y de ventas no representa mayores dificultades. En el fondo se semejan a las operaciones de las casas detallistas que conocemos. La diferencia esencial está en la devolución que se le hace al socio de la utilidad, de conformidad con el monto de las compras que hiciera en determinado período. Las cooperativas de producción en el medio nubro, son más difíciles de realizar por cuanto son muy pocos quienes tienen un cabal conocimiento de sus ventas y alcances. El hecho de

cesidades del transporte de enfermos y heridos.

Fué para nosotros muy grato oír de sus labios el ofrecimiento de que la Corporación Municipal en su próximo presupuesto incluirá la suma de ₡ 500.00 (quinientos colones) para ese fin e inmediatamente fué acogida también la idea por el señor Alfonso Solé, Vice-Presidente Municipal, quien nos hizo el mismo ofrecimiento.

que en Costa Rica no se ha yan establecido antes, hace fácil la desconfianza en los resultados.

Es indispensable educar primero si se quiere fomentar y desarrollar en el país la moderna organización social y económica que ya tienen establecidos otros pueblos.

Quienes hayan vivido algún tiempo en Limón, saben muy bien que la gran masa de pequeños productores del cacao al vender su producto tienen que aceptar no solamente el precio que se les fije sino también el peso que indique la romana del comprador, que por lo general, acusa una regular diferencia con el peso que indica la guía del ferrocarril, como también la generalidad de esos agricultores necesitan adelantos en mercaderías que pagan con cacao, percibe además el intermediario las crecidas ganancias de esas ventas, absorbendo así por dis

tintos medios el esfuerzo y el trabajo del agricultor.

El gobierno del doctor Calderón Guardia, es el primero desde que existe esta industria que le tiende una mano protectora, alentando las cooperativas, única forma de consolidar los intereses de esos pequeños productores de cacao. Con la cooperativa se organizaría

esta industria económica y socialmente, consiguiéndose resolver los siguientes aspectos: supresión del intermediario; mejoramiento de las calidades de cacao; acción de créditos y ahorros; fomento de otros cultivos anexos y de la ganadería; importación de herramientas, maquinaria y materiales agrícolas e industriales; cooperativa de consumo afiliada y cooperativa de venta afiliada".

Tales, en síntesis, los principales aspectos de ese interesante estudio sobre la industria cacaotera nacional.

APLAZADA LA VELADA DE LA ESCUELA DE NIÑAS

Hemos sido informados que debido al arreglo que actualmente se realiza en el Teatro Arrasty, no se podrá efectuar la velada que

la Escuela de Niñas venía preparando para la semana entrante. El señor Cruz ha ofrecido su teatro para principios de noviembre, ya que el escenario de dicho coliseo está siendo transformado completamente.

Oportunamente informaremos de la fecha en que la velada que nos ocupa se realice. Mientras tanto los ensayos de los números preparados continúan, esperándose que para el día de la función, todo ha de resultar a las mil maravillas.

Repartidas 40 hectáreas en Parrita

Son bananales abandonados por la United y tomados en arriendo por el Consejo de Distrito, el cual las cedió en parcelas de una hectárea entre cuarenta vecinos. — Se dedicará a la explotación de arroz y otros cultivos necesarios en aquella zona.

Podemos decir también, respecto a Parrita, que se ha inaugurado la iluminación eléctrica de su calle principal, lo que le da un aspecto moderno y bello a la localidad.

Recientemente, la United Fruit Company abandonó algunas cuarenta hectáreas de bananales en Parrita. Mediante algunas cordiales negociaciones, obtuvo el Consejo de Distrito, tomarlas en arriendo, a fin de distribuir de esa localidad, para ciertos cultivos gratuitamente entre vecinos.

Y efectivamente, fueron concedidas cuarenta hectáreas, las cuales se distribuyeron como hemos dicho, entre cuarenta vecinos, que cada uno explota una parcela de una hectárea.

La cesión ha sido hecha con el fin de que se cultive arroz, maíz y verduras, lo que, no solamente hará vivir a los agricultores sino que también llenará una necesidad de aquella zona.

Podemos decir también, respecto a Parrita, que se ha inaugurado la iluminación eléctrica de su calle principal, la que le da un moderno y bello aspecto a la localidad.

Estimado señor:

He tenido el gusto de recibir una nota del señor Jefe del Cuerpo de Bomberos Voluntarios de Limón en la cual me da cuenta del gentil ofrecimiento suyo y del señor Vicepresidente Municipal, don Alfonso Solé, referente a una contribución de ₡ 500.00 de

la Corporación para la compra de una ambulancia para el servicio de la comunidad.

El Comité Auxiliar de la Cruz Roja acogió con mucho gusto la idea del Cuerpo de Bomberos por ser de suma necesidad para la población tener una ambulancia, así como la sugerencia de ellos de que fuera la Cruz Roja la que pidiera e hiciera la colecta para la compra de la ambulancia ya que por la índole de la institución era la que el corazón podría hacer algo.

En nombre del Comité Auxiliar agradezco a Ud. y al señor Solé el ofrecimiento y espero q' ahora q' se va a hacer nuevo presupuesto no olviden incluir la partida indicada, ya que son los deseos del Comité traer esa ambulancia lo más pronto posible. Asimismo agradeceré la partida sea he-

de la organización de los programas, puesto que sigue actuando hasta la fecha a pesar de que la esfera de sus actividades se ha ampliado considerablemente.

A sus obligaciones de organizador de programas, agrega las de comentarista, participa con frecuencia en las transmisiones en inglés de la BBC, contribuye a periódicos y da conferencias, siendo siempre sus temas estrechamente relacionados con su actividad central, es decir, América Latina.

Naturalmente se podría suponer que con todo esto Atalaya tiene suficiente para ocupar sus horas de trabajo y aún sus horas de descanso, pero no hay tal cosa. Ultimamente ha agregado a sus actividades algunas conferencias en centros universitarios y desde hace más de tres años su conocida voz es la que acompaña o mejor dicho la que acompaña—las películas de actualidades que son distribuidas en todos los cines de América por la Olympic News. Atalaya aún después de todo esto, no pierde ninguna actividad relacionada con América Latina, y es así como forma parte del Consejo de la Sociedad Anglo Brasileña de Londres.

Durante diez años de su vida, Atalaya, que es un hombre joven a pesar de poseer ya algunas cartas, recorrió por asuntos comerciales, muchos países europeos y hizo repetidos viajes a América, familiarizándose prácticamente con todos los países que ocupan el continente desde la frontera de México hasta el extremo Sur.

En 1938 cuando la BBC organizó su transmisión latino americana, Atalaya se encontraba en Londres e ingresó a la Corporación correspondiéndole como locutor la presentación del programa inaugural. Al año siguiente poco tiempo antes de que el servicio para las Américas en castellano y portugués fuese ampliado, Atalaya se hizo cargo

de sus ratos de descanso no es extraño verlo en su casa de los alrededores de Londres dedicado a pintura una puerta o componer una ventana. Allí vive con su esposa y dos niños el hombre cuya voz commenta todas las semanas en beneficio de nuestros oyentes de América, el desarrollo de los acontecimientos mundiales.

REPORTAJE DIRECTO DE HOLLYWOOD**¿Habrá reconciliación?**

Día por día los cronistas de cine hablan del corazón de Ann Sheridan, pero los que la conocemos a fondo sabemos que ella es la muchacha más tranquila de Hollywood, y sin embargo, hoy se dice que Ann está planeando casarse otra vez con George Brent... Ustedes saben que la principal causa del disgusto de Ann con Brent fué que él tenía una escuela de aviación y andaba siempre viajando en avión de un sitio para otro, y ella se ponía tan sumamente nerviosa que los miembros del Tribunal de Justicia acordaron que aquella incertidumbre en q' Brent la mantenía, era una causa suficientemente poderosa para que Ann tuviera derecho a solicitar el divorcio. Pues bien, ahora Brent es Comandante del Cuerpo de Aviación, está muy canoso y no piensa en romances; pero como que Ann lo fué a visitar al campo han surgido los rumores de una reconciliación entre ellos. Conste que yo no lo creo.

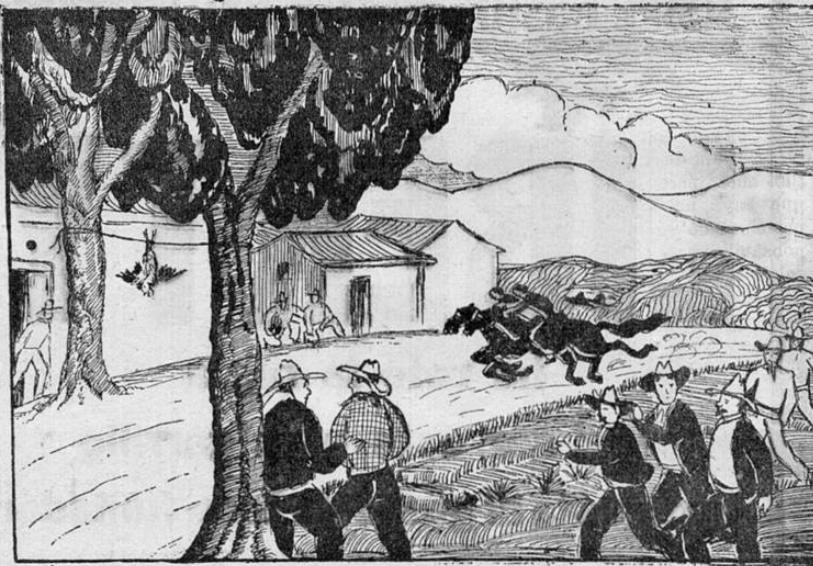

"El Tío Alcayata" . . .

Hay un tipo a quien le dicen "Spike" Jones, que quiere decir algo así como "el Tío Alcayata", que se gana la vida haciendo un acto de variedades en el cual presenta números musicales que toca en la parte corrugada de una tablilla de lavar, valiéndose de 10 dedales para darle sonoridad a ese extraño instrumento. Pues bien, "el tío Alcayata" se encuentra ahora en Hollywood, y como

se le extraviaron los dedales baratos que él usa, el cómico, sin vacilar se fué al almacén de utilerías del Studio Warner y empezó a elegir los dedales que le parecieron mejores... Llegando el momento de actuar ante la cámara, el utilero, que no había visto que el actor hubiera estado en el almacén, se quedó pasmado al verle usar algunos de tales finísimos, de gran valor histórico, para tocar en el lavadero... Entretanto el que custodia las antigüedades había notado la falta de 4 dedalesvaluados en una suma fabulosa, y había dado aviso a los detectives del Studio, así es que allí se armó la gran revolución por la ignorancia de "Alcayata", que no sabía que hubiera dedal alguno en el mundo que pudiera valer miles de dólares.

Henreid y su contrato

La verdad es que hay noticias que me hacen reír. Una revista americana ha dicho que Paul Henreid ha tenido la suerte de que le renueven el contrato. ¿Recuerdan ustedes lo que hizo Paul Henreid en el drama "LA EXTRANJA PASAJERA" o "LA EXCENTRICA"? Pues nada menos que enamorar a Bette Davis y ponerla tan romántica que mientras que se desarrollaba la película todo el mundo se olvidaba de que ella había merecido el calificativo de "la hiena" en una de sus obras y de que tiene fama de ser una mujer sin alma... Luego entonces, si un actor sabe infiltrarle un espíritu de romance a una actriz tan famosa, qué menos pueden hacer los que

Estampas Nacionales**LAS CARRERAS DE SAN JUAN**

la "Ginebra extra-fina", con Gin-Añe y limón, entona, reanima y sient y entre los Licores Nacionales sobresa a bien.

se benefician con su talento que renovarle el contrato? En mi concepto los afortunados han sido los productores que han logrado que él acepte un compromiso por tres años, ya que eso les asegura un mínimo de seis películas, que sin duda alguna tendrán éxito, lo cual quiere decir que una millonada de dólares entrarán en las taquillas de los teatros.

El romance se impone

Hablando de Henreid y de lo que él hizo para humanizar a Bette Davis vamos a contárselo que en la actualidad él se ha impuesto la labor de convertir en una romántica a la dura y áspera Ida Lupino, que quiere rivalizar con la Davis en eso de ser despiadada y cruel, y que lo logra con gran éxito debido a que la expresión de su rostro se presta a esas modalidades; pero ahora, ¿qué sucederá cuando Henreid la tome en

sus brazos? ¿Tendremos otro caso como el de Bette Davis en "LA EXTRANJA PASAJERA"? El título del drama en que Henreid actuó con la Lupino es: "EN NUESTRO TIEMPO", y lo mejor podemos esperar es que se logre otro éxito como el que se está obteniendo con sus películas anteriores. En "CASABLANCA" él tenía el papel del patriota, y su elegancia proverbial y su distinción contribuyeron poderosamente a la película resultara tan animada y plena de contraste, por la diferencia que notábamos entre él y Humphrey Bogart, el irresistible pandillero que al fin se ha metido de lleno en el corazón de las damas.

BACKACHE GOES

when kidneys are active again!

If you suffer frequently from backache you can be fairly certain that Kidney Trouble is to blame. The kidneys are two of the hardest worked organs in your body. They act as the body's filters—preventing impurities and poisons from escaping into the blood. Weak and sluggish kidneys cannot do this important job properly. Not until those kidneys are active again can you be certain of getting relief from aches and pains.

That is why De Witt's Kidney and Bladder Pills are prepared especially to act directly on the kidneys. Quick relief from backache follows the first dose for that very reason. Within 24 hours of your first dose, De Witt's Pills get to the source of your trouble—the kidneys. You will have positive, visible proof of this direct action.

Once in the kidneys, the beneficial ingredients in De Witt's Pills set to work—soothing inflammation, healing and restoring. At the same time, a remarkable internal antiseptic clears the kidneys of all clogging impurities and poisonous matter. In a very few days your kidneys

are helped back to healthy activity again. Poisons and impurities are filtered out of the bloodstream. Your backache and joint pains quickly vanish.

If you suffer with backache—don't be content with half measures. Get at the real cause of the trouble with De Witt's Pills and enjoy quick relief from those weakening, nagging attacks.

EL FASCISMO ITALIANO SE RESISTE A LA RENDICION SIN CONDICIONES PERO LA IMPONDRA EL PUEBLO

Parecía lógico que a la caída de Mussolini arrastrara tras de sí todo el aparato fascista. Es verdad que el Duce es el responsable número uno de todo lo ocurrido en Italia desde hace veintiún años; pero el hecho de que haya un responsable principal no excluye la responsabilidad a todos sus colaboradores. ¿Podrían, por ejemplo, considerarse descargados de toda culpa los diez y nueve miembros del Gran Consejo Fascista que votaron contra el jefe superior provocando la dimisión de éste? El hecho de que el conde Ciano haya merecido el calificativo de traidor por parte de su propio suegro ¿puede significar que el ex-ministro de Negocios Extranjeros está limpio de toda culpabilidad en la política seguida por el Duca a todo lo largo de sus 21 años de dictadura? ¿Puede el Mariscal Badoglio levantar el dedo declarándose inocente en la política seguida por Mussolini? Quién que haya servido a las órdenes del primer dictador fascista puede considerarse en el caso de entrar en negociaciones de paz con las Naciones Aliadas para obtener "una paz honorable", como parece que reclama el jefe del gobierno actual de Italia?

Mussolini dimitió por negarse a aceptar una rendi-

te este llegue a la paz mediante las condiciones que convenga con las Naciones Aliadas. Ambas soluciones llevan aparejados grandes sufrimientos. Si las circunstancias imponen la primera, el pueblo italiano se verá acosado por las bombas de la aviación inglesa y americana con la consiguiente secuela de muertes y destrucción que ellas siembran en todas partes. Si los hechos impusieran la segunda de estas soluciones es posible que no llegara a alcanzarse sino por medio de una guerra civil. Así, pues, el panorama que se ofrece al pueblo italiano no es muy halagüeño que digamos.

Pero las grandes causas exigen grandes sacrificios. La clase trabajadora italiana, que ha sido la más perseguida y a la que mayores sacrificios impuso el fascismo, tiene que convencerse de que no conseguirá la paz a que aspira mediante huelgas en regiones determinadas del país ni con manifestaciones que recorran las calles de Turín o Milán, ni siquiera las de Roma, reclamando la paz, Badoglio y quien le sostiene en el poder no parecen dispuestos a dar satisfacción a los deseos del pueblo. En consecuencia es el propio italiano quien tiene la palabra. Ha llegado el momento de las grandes determinaciones. Procederá la clase trabajadora italiana y todos los elementos progresivos del país de acuerdo con lo que exigen de una y otros las actuales circunstancias?

Nosotros hemos sostenido más de una vez que la falta de ardor para la batalla del ejército italiano no era una manifestación de cobardía

colectiva, sino de repugnancia o obligarle a sostener una lucha en defensa de un régimen que no es el pueblo italiano desea. Ahora se le presenta al pueblo italiano la ocasión de demostrar si estábamos o no equivocados. Nosotros abrigamos la esperanza de que ese pue-

CON IRRESPONSABILIDAD ABSOLUTA LA LIGA ANULÓ EL PARTIDO JUPITER-GIMNASTICA

Desde hace tiempo hemos venido anotando la irregularidad con que la Liga Deportiva ha venido actuando. Costó un triunfo que sus miembros asistieron, y ahora, todavía siguen reuniéndose un cincuenta por ciento de sus integrantes. Nos quedaremos con la gana de ver un día la Liga completa. Falta disciplina y más que eso responsabilidad. De ahí que los fallos dados por una Liga "renca" en su integración, no se ajusten a la justicia y mucho menos al reglamento. El fallo que dió la Liga al asunto Barcelona - Junior, es un completo absurdo. El reglamento lo dice claramente que equipo que presente ocho jugadores solamente, pierde el partido. Este fué el caso del Junior, quien protestó la falta de disciplina del Barcelona y la Liga le dió el juego ganado al equipo que indisciplinadamente no llenó los requisitos del reglamento. Por supuesto, la Liga argumentó que el capitán del Junior había protestado cuando el juego ya se estaba realizando. Es que no vale nada el informe del árbitro Señor Bolanos, cuando claramente dice que el señor Jackson hizo notar el punto en discusión antes de iniciarse el juego?

Ahora la Liga nos da otra demostración de su parcialidad notoria en perjuicio del deporte porteño. Sin acatar al reglamento y mucho menos el informe del árbitro cuya reproducción hacemos seguidamente, da por anulado el juego Jupiter - Gimnástica, por cuento este último equipo, cuyo recurso principal ha sido siempre la apelación, alega que el penal que anuló el juez NOMBREDO POR LA LIGA, debió haberse repetido. El criterio del árbitro lo dejamos a juicio de nuestros lectores, una vez leído el informe presentado, lo que queremos es hacer unas pre-

guntas a la Liga: Para qué se le pide ampliación al informe de un árbitro si éste se echa al canasto de la basura? Para qué permiten la defensa de un representante de un equipo si sus argumentaciones no son tomadas en cuenta? Ha mediado la Liga las consecuencias que una repetición de este partido pueda acarrear a nuestros jugadores? Alegó la Gimnástica el anulamiento de un gol que decía la pérdida del partido o el EMPATE SOLAMENTE? Qué apoyo puede tener un árbitro ante la Liga si sus fallos son tergiversados por ella a su antojo? Ha

INFORME DEL ARBITRO DEL PARTIDO "JUPITER" VS. "GIMNASTICA"

Limón Set. 28 de 1943
Sr. Secretario de La Liga
Atlántica de Foot Ball.
Limon.

Muy señor mío:

Al dirigirle la presente es para dar cumplimiento a su muy atenta nota del 18 último, y en la cual se me pide que dé un amplio detalle, referente a los pocos minutos que arbitré el partido "Júpiter" vs. "Gimnástica".

Al referirme al mismo debo manifestar los siguientes detalles del mismo: "Dí principio al partido a las 3:30 de la tarde previa las formalidades del caso: como son: revisión de listas,

medido la Liga las consecuencias que para un equipo puede tener la pérdida de un partido que legalmente fué ganado?"

ra de que yo estaba arbitrando en contra de ellos. No obstante en todo momento tuve la intención de armonizar ambos cuadros, pero me fue imposible.

Al promediar el poco rato que arbitré: le castigué al Júpiter un Hand Penal: Al efectuarse el castigo del penal un jugador de la Gimnástica señor Roy Hayling se internó en la zona prohibida o área de penal, lo cual motivó que al efectuarse el tiro al gol habían dos jugadores Gimnásticos dentro del área prohibida. El gol fue anotado: pero lo anulé por la anterior falta cometida por la Gimnástica.

El capitán de la Gimnástica en forma grosera y poco cortés, me preguntó por qué anulaba el tanto marcado; y una vez satisfecha su pregunta, ordenó a sus jugadores ocupar sus puestos para proseguir el partido. (NOTA: EL CAPITAN ME PREGUNTO POR QUE ANULABA EL TANTO ANOTADO, Y SATISFECHA SU CONSULTA SE PROSIGUIO EL PARTIDO). ESTE CAPITAN NO ME PROTESTO NI ME HIZO NINGUNA MANIFESTACION DE QUE APELARIA EL CASO EN LA MESA DE LA LIGA.

Al anular este tanto, me atengo al reglamento internacional de Foot Ball o en su lugar al libro titulado "INTERPRETACIONES DE LAS LEYES DEL JUEGO DE FOOT BALL" Artículo N° 17 "PENALTY KICK".

Debo creer que el mismo capitán o ambos ignoraban que existía un reglamento interno en que se trata este

caso; así como yo también lo ignoraba, pero no obstante creo que mi fallo es correcto y no tiene discusión.

Si ha habido un mal fallo de mi parte creo que el capitán está en la obligación de protestarlo en el mismo campo de juego, para así si se reconoce la falta cometida emendarla en el mismo acto; o de lo contrario hacer la observación del caso como son las protestas.

El capitán no me protestó el fallo dado: quiere decir que aceptaba de hecho el castigo de la falta a como yo lo hice.

Después de este momento el juego se descompuso, de tal manera que en tres ocasiones el capitán de la Gimnástica me invitó a que me retirara por que mis fallos eran completamente perjudiciales a su banda.

Al hacer esta aclaración apelo al testimonio del señor Alfredo Salazar guarda línea y que en varias ocasiones me instó a que expulsara del campo a los jugadores insurrectos, pues el mismo se dió cuenta de la dificultad en que me hallaba con la Gimnástica, y en todo momento tuve su apoyo moral.

Al hacer esta aclaración, no es mas que con el propósito de aclarar y explicar los pocos minutos que arbitré en este partido.

Al entregar el silbato al señor Salazar, el partido estaba a 0 tantos por ambos bandos.

ALLIED VICTORIES IN ITALY

Continuing their effective advances the Eighth and Ninth Armies have made other important gains in the battle in Italy.

During the earlier part of the week in course the Eighth Army captured the very important base of Foggia which controls a group of twelve other aerodromes. From there it is reported, to easily operate against Albania, Greece, Yugoslavia, Bulgaria, Rumania, Hungary and Austria. Munich is also said to be within the range of danger. The victorious 8th has

incedarred at the Gulf of Manfredonia.

Naples was occupied last Thursday night by the Fifth Army, after a violent encounter in which Allied Naval units participated. The city is said to have been badly destroyed by the wanton acts of the Nazis.

Both armies are now advancing direct to Rome where it is expected the Germans will be unable to offer much resistance.

A Madrid advice states the newly formed Government of Marshal Badoglio has declared war on Germany and Japan.

KING PEDRO OF YUGOESLAVIA

ERNA TRES

Travelling aboard a British battle ship and accompanied by his full staff and other high functioning officers, His Majesty King Pedro of Yugoslavia has reached Cairo, Egypt, where it is said he will be residing for some time.

The departure of His Majesty from London is regarded in military circles as an indication of the intention of the United Nations to start a new front in the Balkans.

In this respect it is significant that aided by a force of 50,000 Italians the Yugoslavian patriots have not only been causing serious destruction among the Nazi garrisons

during the recently passed weeks, but have made effective assaults on important enemy bases in the Adriatic regions. It has also been mentioned that the General in command of the fighting troops only awaits the order of the Allied High Command to initiate a general move against the Nazis.

An advice dated last Thursday states that Yugoslavian warriors have penetrated the territory of Austria and registered successful attacks against important railway communications with Hungary. They have also invaded north Italy to the extent of nearly 200 kilometres.

THE WAR IN RUSSIA

The Nazi forces have had another gruesome time in Russia during the week in course. They have experienced disastrous defeats on all fronts.

The Caucasian region is said to be now entirely free from them. Gomel, the last of their stronghold, west of the Dnieper is expected to fall

THE GALLANT EIGHTH ARMY

When the history of the present world war shall have been compiled, the names of General Bernard Law Montgomery and his gallant British Eighth Army ought to be emblazoned on the pages.

From the gates of Egypt to Tunisia, they kept Marshal Rommel, the pride of the Nazis, and his huns on the run until they were hunted, stunted, bombed and knocked out by the combined Allied North African Forces. Moving onward, the mighty army, as commanded, in supreme, by General Dwight Eisenhower, was again seen to the front in the battle of Sicily where they quickly overcame the Nazi resistance and drove what was left of them off the Island, to face the onslaught of the Allied naval and aerial units.

Before initiating the invasion of the Italian mainland, General Montgomery's order to his troops is said to have been couched in the following language—“The time has come to start the battle on the mainland of Italy. To the Eighth Army has been given the great honour of being the first of the Allied armies to land on the mainland of the continent of Europe. We have a good plan and also air support on a greater scale than we ever had before. There can be only one end to this next battle — another success. Forward to victory! Let us knock Italy out of the war! Good luck and God bless you all”.

That same night the General's British and Canadian troops moved across the docks and beaches to their landing boats, which group by group, started toward the shore of Italy under the influence of a clear and starry night. They traversed the Strait of Messina.

This perilous assault was initiated exactly four years after Britain had declared war on Germany; three years and two months after the last British soldier had evacuated Dunkirk; two years, four months and two days after the last British soldier was taken from Greece, and fifty-six days after the first batch of Al-

THE THOUGHT FOR THE WEEK

GROANS FROM FREEHOLD AND LIVERPOOL

An appreciable number of agriculturists, who for years enjoyed the convenience of shipping their produce at the stopping place at Freehold, are said to be experiencing serious difficulties on account of the refusal of the employees of the Limon-San José freight and passenger Combination train to accept the shipments.

The refusal to receive the produce is said to have been effected without previous notice to the parties directly concerned.

The farmers are now forced, it is understood, to transport their goods, along the same railway track, to Pacuarito to secure shipment — a procedure fraught, they declare, with much danger, particularly during heavy rains which are not unfrequent.

A difficult situation also exists, it is said, at Nine Miles, Liverpool, where the long existed privilege of the local stop has been cancelled, so that the residents in need of rail transportation, whether in cases of illness or otherwise, are compelled to cover the distance to Liverpool, proper, on foot.

As it is generally understood that the main objective of the “Combination” service is to satisfy the requirements of the inhabitants of the districts lying outside the limits of the regular towns, it is hoped the very genial and considerate Manager of the Northern Railroad system will, on learning, by this medium, of the situation, institute the necessary investigations and effect an amelioration of the inconveniences claimed by an appreciable number of our hard working people.

It has been mentioned that the residents of Nine Miles are quite willing to pay, if necessary, an extra fare between that point and Liverpool.

THE CONTEST INCREASES IN TENSION

"Pleasure, are you the gentleman who writes for the Atlantic Voice newspaper?" said a very captivating damsel to us a few days ago. In a somewhat bewildered state our reply was given. Our interrogatrix then continued "Will you please let everybody far and near, know about the approaching Rally

to be held in the Hall of the Catholic Day School, in this city, on Armistice Night, November 11th. You see, I am one of the representatives, and I want the whole town to be in attendance, in order that this initial effort, along such a line, by the Legion of Mary will be a Banner success."

The final touch is said to have been applied in connection with the preparations for the portrayal of the scriptural lesson of Noah's Ark by the Seventh Day Adventist Denomination in this city.

We have heard it stated that on the night of Tues-

day the 5th. instant, the Hall of the Denomination's Day School will present a strange setting for the entertainment.

The cast of characters are reported seasoned artists. Everything points to an evening of rare enjoyment.

Believe it, dear readers, before the eyes had sufficiently feasted on this strange creature, she darted out of sight like the little mouse which got away from kitty, "long time ago". However, one of our "spitfires" is on her trail and we will have something more to say about her later. In the meantime, all are requested to keep a record of the date, November 11th, and be guests of the Legion of Mary.

DEATH OF AN OCTOGENARIAN

After having enjoyed the grand privilege of living beyond man's allotted time of three score and ten years, and experiencing many of the ills encountered on the checkered and variegated pavement of human existence, the spirit of Mrs. Ann Coleman took its flight into Eternity early Tuesday morning of the week in course. The late Mrs. Coloman was a native of the Parish of Clarendon, Jamaica, British West Indies. She had been a resident of long and widely regarded status in this city, and was of the Anglican Faith.

On the afternoon of her death, that which remained of Sister Annie (as she was so lovingly called) was taken from the family house of mourning by her late fraternal associates of the Central Flower and Rose of Ardah Lodges of the Ancient Order of Free Gardeners to the St. Mark's Church where the funeral service was conducted by the Rector, the Reverend W. James Evans. The Fraternal Rites were performed at the grave by Messrs. Ruben Samuel — P. Little and Adam Rottray. May the soul of the departed rest in peace.

It is mentioned that the attending guests will be furnished the latest novelties in Sanding, Jittering and Swinging. Everything that one can desire at such a pleasure resort will, it is said, be available. All are asked to remember that the first Bus is slated to leave in front of the city market at 9 a. m. sharp — other means of transportation will follow precisely at 11 a. m. The earlier the better, said don Muñó, the proprietor "as the early birds procure the most worms".

APPROACHING HARVEST FESTIVAL

The yearly Harvest Festival Services of the St. Mark's Church in this city, will be observed on Sunday the 17th instant. The Children's Entertaining Programme will be presented on the following evening in the Hall of the Parish. All are cordially invited to attend.

RALLY OF CHURCHES

We have seen the voting Tags, done in attractive colour for the proposed Rally based on the Churches in this city, and slated for the night of Tuesday, December 1st, in Kingdom Hall, under the auspices of Miss Sarah Cummings, who operates her private school in that building.

As the entertainment is listed for presentation on the threshold of the Season of Good-will, we feel optimistic that the characteristic generosity will be extended the effort of one of our pioneer educators.

RACIAL DISFRANCHISEMENT SHOULD NOT CIRCUMSCRIBE EFFICIENCY

The appreciation of those to whom we "owe so much" is not based on any particular race included in our democracies. On the firing lines of the United Nations, in their factories, in their navies and on their merchant ships and aircraft, as also in their Red Cross Institutions are to be found every shade or colour of humanity. In fact, wherever the forces of the United Nations are pounding toward the overthrow of tyranny, peoples of colour are contributing efficiently, without racial shrinkage. On the British Isles, in Africa, on the Islands of the Far Eastern fighting Zones and elsewhere the peoples of colour are not exempt from the enemy destruction of human lives and property.

In the numerous categories of human activities members of the black race are known, as a rule, to be up to normal standards; cords testify to their heroism, their extraordinary bravery and outstanding excellence in given franchises. We can, therefore, find no justification for the assumption that because of their race they are incapable of accomplishing certain functions.

If the allegation be true that prejudices exist against the negro in our local labour and industrial fields, regardless of adaptability or capability, then such is incompatible with our claim to true democracy. Let us ever adhere to the principle of common justice, and recognize efficiency, irrespective of the colour of the persons concerned.

of the dictum. The latest illustration was on the occasion of the celebration of the sixteenth anniversary of the Methodist Women's League in the Church of the Denomination on the evening of Monday the 27th ultimo. Precious cargoes were delivered in a highly appreciative harbour. The winsome manners of the contributors to the entertaining features, added to the floral decorations of the platform, were a seeming trespass into Fairyland.

The fragrance from a reasonable number of the items was undoubtedly inhaled by the capacity audience, among whom were numbered many persons from other organizations and almost every other Denomination.

The Rev. J. P. Holmes presided in a manner fully representative of his Ministerial office. Mrs. Jessie Wright officiated at the organ in her well known effective and impressive style. Mrs. J. Brown was indeed double Gin — Gin in the delivery of her recitation. There were several guest speakers, couched in clear and sparkling language, Mrs. A. Heron delivered the greetings from the Mothers' Union of St. Mark's. The good-will of the Home League of the Salvation Army was effected by Miss Delrita Hunter. As if emptied from an intellectual crystal urn were the congratulations of the Bap-

tist Women's Federation poured out by Mrs. Leonie Jackson. The Squires Women's League was splendidly represented by Mrs. Imogene Grant. For the Sisters Union, Mrs. C. Francis was marvellous. The Girls' League sent its hearty cheers through the very effective contributions of the Misses D. Wallace, Smith and B. Blake. The Young Adventurers were spoken for by Miss H. Ogilvie. Up the hill of eloquence, treating on Women, the War and the Gospel, Mrs. Inez Holmes ascended with her hearers. Due to illness, Mrs. Marjorie Baily, the President of the Estrada League, who was slated to speak for her group, was regrettably unable to at-

tend, a condition which also impeded other members of her League.

BLESSED ARE THE PURE IN HEART

On the occasion of the fourth anniversary of the ravaging World War, His Holiness the Pope, by means of the Vatican Microphone, admonished the crowding Allied Nations, to give ear toward those less favoured by the trend of the war. His Holiness fourteen minutes broadcast was as follows

"We turn to all those whose task it is to promote agreement and harmony for peace, and say to them that real strength need not fear generosity. It has always been the means of guaranteeing itself against

any false interpretation of it

readiness and will for pacification and against other possible repercussions.

"Do not disturb or impede the desire of peoples for peace by actions which instead of encouraging confidence, rather inflame anew and strengthen determination to resist

"Give" all nations a justified hope of worthy peace which does not clash with their right to live and the sense of honour Let it be clearly seen that there is loyal accord between your principles and your decision between statements about just peace and facts.

"Only thus will it be possible to create a propitious atmosphere, wherein people who are less favoured than others by the trend of the war at any given time, may believe in the dawning development of a new sense of justice and co-operation among nations.

"Blessed are those who help prepare the ground for international justice, who cooperate to overcome the deadlock between war and peace, who keep themselves free of preconceived opinions and uncontrollable passions. Woe to those who, in the terrible moment, do not realize the awareness of their responsibility for the fate of the peoples, who feed hatred and conflicts among them, who build their power upon injustice, who oppress and torment the unarmed and innocent."

THE RECENT ANGLICAN SYNOD

It is with pleasure we find ourselves in a position to give our esteemed readers the following information regarding the Anglican Synod held recently at Belize, Honduras.

The opening service took place on the 29th. August. The 9 a. m. service was, we learn, conducted by the Rev. W. J. Evans of this city. The Ven. Arch-Deacon Cooper, formerly of the Canal Zone — Central America Diocese, now retired and residing in Guatemala, was the preacher at the evening service.

The Synod's deliberations were commenced the following day, August 30th., the Celebrant being His Lordship, Bishop Douglas Wilson, the acting Administrator. The agenda was — Prayer; Appointment of Scrutinizers by the Administrator; Presentation of Credentials by Representatives; Report of Scrutinizers; Roll Call; Standing Rules of Order; Reading of the Mandate from the Primate, declaring the See vacant. The Administrator's address to Synod. The Synod to proceed to the election of a Bishop according to the prescribed methods.

It has been stated that the election of the Bishop was not undertaken by the Synod, the matter being delegated to the new Arch-Bishop of the West Indies, the Rt. Rev. A. E. Anstey, D. D. Bishop of Trinidad since 1918, with the assistance of the Bishops of the Domain.

The Rev. W. J. Evans was the Celebrant at Holy Communion given at 7 a. m. in the Belize Cathedral on the 5th. September. He also conducted the 7 p. m. service, that day, at St. Mary's On September the 12th, he preached at St. Mary's and at the Cathedral. Due to defective electrical arrangements, the War Service had to be conducted by the Dean in the Cathedral, on the 15th. at 7.30 p. m., under candle light.

We are assured that among the very pleasing contacts effected by our Rural Dean were those with the retired Archbishop Dunn and many of his old students from the Cathedral School at Army Camps. He also visited Curazo where the recent hurricanes did much damage and took nine lives.

WASHERS DROPPING FROM THE AXIS

As the outcome of the meeting not so very long ago between Benito Mussolini and Adolf Hitler at the famous Brenner Pass, the Axis suffered the loss of its principal washer; for, on the Nazi Dictator declining to grant the Fascist leader additional protection in men and material against the threatened invasion of the Italian Peninsula by the Allied Nations, Mussolini quitted his high and dignified office.

Two more washers, and possibly a third, have slackened and likely to fall away at any moment.

tend its congratulations to the contracting parties and wishes them all the joys and prosperity of a long and happy marriage life.

AT THE CHURCH OF THE GOOD SHEPHERD

From an esteemed collaborator we have the information that a high society wedding will be in evidence, this evening, at the Church of the Good Shepherd of the Anglican Denomination in San Jose.

The outstanding contracting parties are Miss Mary Dunn Jamison, Dietician of the Pan-American Highway Hospital, and Captain Jack Raymond Gustafson, Physician of the United States Medical Corps. The marriage ceremony will be performed by the Rev. W. James Evans, Rural Dean of Costa Rica-Panama, assisted by the Rev. D. Cooper, who is temporarily attached to the Domain.

PREPARE OUR YOUTHS FOR FUTURE TASKS

Over the present turmoil of materialism and the pitchy days of terrible warfare, we believe a new day will dawn a day which will bring a civilization to demand more of us. A fresh realization of human needs will be made manifest and the law of action and reaction will be much in evidence. Despite the clamour for universal freedom and human liberties, there must be civil, industrial, religious, social and other disabilities throughout all the war-torn countries during the earlier post-war period. The restoration of some of the pre-war order of things and the establishment of new ones will not be effected by leaps and bounds, and it will hardly be justifiable for us, in this western hemisphere, to leave the gigantic programme of reconstruction and reformation of a former Management.

We of this section of the universe must be ready to supply the architects, the builders and, perchance too, the spiritual leaders. It behoves us, then, to effectively prepare our boys of today for the great task to be undertaken. There are hundreds in our midst, seemingly physically fit though intellectually weak. As a means of helping in the preparation of at least some of these lads, we suggest the establishment of the Apprentice system at the local Railway Shops. Many of the men who are now holding their own in the mechanical and other professions, both here and abroad, have graduated from these same Shops during the lengthened period of a former Management.

BULLETINS FROM BRITAIN

SHARING COMMON TASKS

We really went to war — total war — in May, 1940, when Mr. Churchill formed a coalition government that was immediately voted enormous powers by Parliament.

With the greatest military machine known to history just twenty-one miles away and some times above our heads we had to create a war effort adequate to turn the country at once into a fortress and an arsenal — a vast production plant and larder. Something new has been successfully accomplished. All Government moves were heavily backed by public opinion. Tremendous powers of compulsion have been used sparingly, simply because the people felt that the Government was expressing their own will. Mobilization of manpower, the entire reorganization of industry and business by limitation of supplies and labor, various rationing schemes, price fixing, taxation of profits and income, control of agriculture — all these have been thorough and ruthless, but, they have been accepted, and even demanded by the British people, because they realized that their Government had one huge task in common and this was the sensible way to get it done. If you are in an open boat with only a few days' supply you do not complain of because food and water are being carefully measured and rationed. Although we have given the Government these enormous powers, we have also created a series of checks and balances — for example, the appeal committees in connection with the mobilization of manpower — that safeguard the interests of the individual. There are no secret police listening in and noting our names. Britain is more democratic than she has ever been before. The sheer necessities of the war effort have ironed out the grosser inequalities. The rich are worse off and the poor are far better off. The difference between classes now means far less. Social philosophers point out, that a classless society is impossible to achieve, because it may be necessary for the common good that new classes should emerge.)

"KINDLY" HIMMLER

Heinrich Himmler, personification of the cruelties and persecutions of the National Socialist regime in Germany because of his ruthless use of the Gestapo, was eulogized as a kindly gentleman of quick sympathy for the humble and deep understanding of his fellowmen in a Berlin broadcast. A political commentator for the Nazi propaganda agency, Transocean News, discussing Himmler's appointment as Minister of the Interior to succeed Dr. Wilhelm Frick, was entrusted with the task of explaining the elevation of the man under whose direction thousands of enemies of the Nazi state were "liquidated" or sent to concentration camps. The commentator described Himmler as one known for "treating the simplest man with just as much sympathy and understanding as the highest official", and

HOME GUARD READY

The Home Guard, now in its fourth year of life, is on the threshold of the most momentous phase of its existence. The United Nations are on the offensive. More and more men from the Field Force go overseas. The Home Guard, now trained and efficient, grows in importance as Britain's body-guard against counter-attack, whether by airborne troops, parachutist saboteurs, or seaborne invasion. Able-bodied men rallied from every town and village, ready to die if the threatened invasion came to pass. Day after day went by. Every hour was used to train and to arm. But the task of fitting out an army that had sprung into life in a night was herculean. That which remained has now, to a great extent, been done. The stepping-up of Home Guard training during the past year shows how in three years a part-time force has been brought into a high state of military effectiveness. There are now three G. H. Q. Home Forces H. G. Schools, to which are attached 26 Travelling Wings and one Street Fighting Wing, all of which are manned by regular officers and other ranks. So advanced is the training in tactics and the use of weapons at these schools, that trainees are taught the same battle drill as the Field Force. A fair number of H. G.'s have gone through battle inoculation courses. Intensive training has been given in the use of the Sten, E. Y. Rifle, Northover, Spigot, Lewis and other guns, besides shooting with rifles on the range.

NEGROES VERSUS NAZIS

Negroes don't just sit in bombers showing levels of culture, they are out there alone in their fighters, tearing into the Luftwaffe itself, and they have only just begun. At Tuskegee are hundreds in training and every day they are passing out of the tough postgraduate courses and into active fighting squadrons. We can therefore confidently expect to hear further whimpers from the Nazi high Priests in coming months.

FEARFUL QUISLINGS

The Quislings of Europe are beginning to feel afraid. In 1940 they were so confident that they were on the winning side. Now they glance fearfully over their shoulders, and cling closely together for comfort, and would, if possible renounce their party. The rats are beginning to find their paws getting wet. The bitterness and scorn of the peoples of Europe is starting to find an outlet.

added that his appointment completes a political development which had been foreshadowed for some time". Such is the Hun idea, but we British are justified in thinking that this merely means a greater oppression by the Gestapo and a few more thousands of socalled "decent Germans" put into the concentration camps:

THE FOUNDATIONS SINK

That peculiar and fatal blight which the Germans have carried with them wherever they have gone is again dramatically manifest, in almost the same moment, at the two opposite ends of Hitler's dark, tottering and tormented empire. On the Black Sea the people whom he tried to manipulate through the coils of an alliance with Nazism are seething angrily. On the Baltic the last remaining pretense of Danish independence and sovereignty is crushed with the same pre-emptive ruthlessness which the Nazis have used upon so many other states and peoples. The situations in Denmark and in Bulgaria no doubt very different in detail reveal Nazism's profound inability to claim any allegiance save that of the pistol point, to create any order save that of murder and robbery, to offer anything to European men and women save misery and confusion, the certainty of enslavement to Germany's insatiate greed and desperation as the pressure rises, the specter of irretrievable defeat at the end. The result was one long series of robberies, encroachments and enslavements. Even in Denmark Germany could create nothing save bitter hatred and popular resistance. These have been flaring up so fiercely in recent weeks as a sign of the new hope that has been stirring everywhere in the dark empire with the advance of the Allied arms, just as the rising pressures in Bulgaria are a sign of the new fears that are assailing the rulers and politicians who trusted themselves to the "new order". And both together are a sign of how deeply the whole edifice of German tyranny is being shaken. The gangsters who raised it will fight with the last ferocity to retain their grip; they will use any brutality on their own people or on others in order to save themselves, and the fight may still be long. But the foundations are already sinking beneath them.

TRANSPORT GLIDERS WILL ATTACK

Prospects of an Allied invasion of Europe focus attention on the tactical and technical uses of the glider as integral part of the equipment of any army. The "air trailer", is both a striking weapon and a air supply truck. The glider may lead off an attack by landing troops, weapons and equipment at a vital strategic point. It can follow up this work by carrying supplies up to the front from the back areas and delivering them safely into fields impossible for operation by any other form of aircraft. The glider towed by an air transport can lift a big load for a short range at slow speed with a very short landing. The transport aircraft must operate from prepared airfields. So, where transport aircraft and gliders are both available to an air force the tactical situation provides cargo begins at once.

GERMANY CRUMBLES

As the fortress Europe crumbles under fierce Allied air attacks, it becomes clearer every day that our bomber squadrons have succeeded in finding and hitting one of Germany's most vulnerable spots. Up until recently the chief bull's-eyes have been war plants; but now, in addition, our bomb bays are opening up more and more against the German "transportation system": locomotives, locomotive plants, railways centers and inland waterways. In the face of a second front, which is already a reality in the Mediterranean, and a third front in the west which is imminent even as I write Hitler and his generals are up against one of the biggest problems of the whole war. For Germany's overburdened transport lines are the very "nerve centers of the Fortress Europe". If we succeed in destroying a considerable part of them, or even in disrupting them for certain periods of time, then the conquest of Europe may be tremendously accelerated and the lives of hundreds of thousands of Americans saved. A British broadcast addressed to French workers said that "the Royal Air Force aims at smashing railway traffic in France as well as in Germany. You must realize", the London broadcast told the French workers, "the tremendous importance of the railroads for German troop transports. The British air attack will be directed chiefly against German railways, against locomotives and freight cars, and will be continuously intensified".

SOLDIERS AT SCHOOL

A summer school at the University of London for members of the Forces of the United Nations now in Britain has just ended. The course extended over four weeks and during the last week the number attending was nearly double those of the first week. In addition to lectures on such subjects as international relations and international law, Great Britain, the Dominions and Europe, the program for each week included visits to British national institutions. The courses have been attended by Americans, Belgians, Canadians, Czechs, Dutch, French, Poles and Yugoslavs as well as by members of the British Forces, including the women's services.

the answer to which method of operation is preferable. A great point about a glider is its ability to alight in a confined space. "Spoilers" are fitted to the wings which break down the lift when required so that the angle of glide and sinking speed can be governed with extraordinary precision once the glider has been cast loose. With his spoilers and wing flaps the glider pilot can control his rate of descent. An approach is usually made at about 70 m. p. h. and the touchdown at about 50 m. p. h. The glider pulls up quickly and out leap troops or the unloading of cargo begins at once.

A DARK SECRET

German propagandists star the about secret weapons. They were all the rage during the battles against the Low countries in France but, as the tide of war changed, the spectre was transferred to the other side — the Germans started talking about our secret weapons. They are more and more scared about them, German officers in Rome's Afrika Corps then began to receive complaints about the use by our side of a secret weapon: an automatic gun; a piece of a artillery constructed like a giant Bren gun. The officers went to front to investigate only, according to one report, to beat a rather hasty retreat for there was indeed one gun firing continuously and at great speed with precision and a rhythm that certainly spoke of some amazing new mechanical control. After consultation the Germans sent scouts with instructions to investigate the gun at close range but not to disclose themselves. These scouts were soon back again, breathless and somewhat disoriented. The reason — they had to report that the gun was not automatic; it was nothing more than an ordinary cannon fired by a Negro unit with such precision that it appeared to be automatic!

SPEECHES

Mr. C. R. Attlee, Deputy Prime Minister:

I am not going to tell you that the war is over, but it is very different scene from three years ago. Everywhere we are on the attack, and in war it is always the unexpected that happens. While I do not think the war is going to end immediately I cannot help remembering what happened in the last war. We are fighting for the full utilization of abundance and a full life for all.

Mr. Arthur Greenwood, M. P.

Unless we are to be robbed of the fruits of a righteous victory we must not only plan now for the future but must take immediate action in many nations and international directions.

Colonel Harold Mitchell, M. I. Would it be wise to revert to the old-style political warfare, the moment Germany and Italy have been defeated — perhaps, while the fighting with Japan is still in progress? Surely the preparation of the peace settlement is a task for the san national co-operation as active prosecution of the war.

AIRMEN COUNTER TROPICAL PESTS

British entomologists and agricultural experts are fighting plagues from Egypt and the Sudan to the frontiers of India. Reconnaissance aircraft search for locusts and when they are located Russian and R. A. F. planes fly over the territory spraying the swarms with arsenical compounds. Reconnaissance has to be carried out at a height of 20 to 30 feet and spraying has to be done at dawn from aircraft flying not more than 7 feet from the ground.
