MAS DE QUINIENTOS COLONES ROBARON EN LA MADRUGADA DEL MIERCOLES A LOS SEÑORES BROWN Y ABRAHAMS

En la madrugada del miércoles fué saqueado el establecimiento de los señores Brown y Abrahams, situado frente a la Unidad Sanitaria. Aunque el robo alcanzó a unos 500 colones en total, entre dinero efectivo y mercaderías, la forma en que lo hicieron fue bastante atrevida.

Rompieron la puerta exterior del almacén reventando con una barra los dos candados Yale que la cerraban. En dinero efectivo que había en una gaveta se llevaron unos trescientos colones y en latría unos doscientos más o menos. Los señores Brown y Abrahams dieron parte a la

Comandancia de Policía y se están haciendo las investigaciones del caso, ya que es posible localizar a los ladrones por las mercaderías que se robaron y que necesariamente han de vender, en alguna parte.

Mucho sentimos este robo que, aunque no afecta en nada los intereses de la acreditada casa de los señores Brown y Abraham, si es sensible por la cuantía del mismo.

NOMBRA SU DIRECTIVA LA LIGA DEPORTIVA LIMONENSE

Debido a la enfermedad que aquejaba a nuestro buen deportista don Rafael Eduarte, la Liga recién nombrada no había realizado la reunión para la instalación y nombramiento de directiva. Hasta el viernes no se reunió a fin de integrar su directiva, que se dará a conocer en nuestro próxima edición.

Dada la integración de esta Liga y los buenos deseos de colaborar en el resurgimiento de nuestro deporte en general, no dudamos de la buena labor que ha de realizar. Sabemos que su éxito depende del apoyo que los clubs el deporte a su labor, pero estamos seguros que ambos no escatimarán esfuerzos a fin de prestarle a la Liga de su colaboración y su esfuerzo en provecho de un pronto resurgimiento deportivo para nuestra provincia.

LALO ROJAS será nombrado entrenador general de Limón

Nuestro buen amigo y conocido deportista Lalo Rojas nos ha dicho que no participará exclusivamente para determinado club, sino que sus deseos son de colaborar con todos. Hacer deporte en general para buscar el mejoramiento de nuestro fútbol y minar las diferencias que impiden su resurgimiento. En conversación al respecto los representantes de los clubes de primeras divisiones acordaron nombrarlo entrenador general y poner a su cuidado el manejo y entrenamiento de los equipos, sobre todo se do se traigan equipos de inferior. Se pedirá a la Liga apoyo necesario para facilitar el trabajo que ha reanudar el Sr. Rojas.

DECLARACIONES DE SMITS

BIRMINGHAM, INGLATERRA, 19 UP. — El primer ministro de Sudáfrica, Jan Smuts, dijo hoy que puede que la decisión final en la guerra contra el racismo "llegue mas pronto de lo que han predicho los pesimistas". Smuts también reiteró la resolución de los aliados de aplastar el fortaleza de Hitler desde tres direcciones.

Los veteranos de los Estados Unidos Impulsan el programa de buena vecindad

Warren H. Atherton  
Comandante de la Legión de Veteranos de los Estados Unidos.

WASHINGTON. — El Comité de Asuntos Interamericanos de la Legión Americana, ha dado gran impulso al movimiento iniciado por ese organismo para fomentar la armonía y buena vecindad con las otras repúblicas del continente.

Esta sociedad la integran los veteranos que lucharon en la primera guerra y en el actual conflicto mundial y es la asociación más importante de excombatientes en los Estados Unidos. Su Comité de Asuntos Interameri-

canos lo preside el señor Thomas W. McManus, de Bakersfield, California, y figuran entre sus miembros los señores Eugene Biscailous, de Los Angeles, y Samuel E. Fryer, de Nueva York.

Su tarea principal es la de fomentar la política de Buena Vecindad mediante las actividades de sus oficinas regionales distribuidas por todas partes del país. Con este fin, la Legión distribuyó 25,000 folletos en los que se describen con todo detalle los objetivos que persigue su programa interamericano. Asimismo imprimirán otros quince mil que se enviarán a colegios, clubes, etc.

Siempre que el Comandante Nacional de la Legión, Warren H. Atherton, viaja por los Estados Unidos en asuntos oficiales, no deja pasar la oportunidad de llamar la atención respecto a la necesidad que hay de lograr una completa solidaridad en el Hemisferio, y de advertir que si bien las relaciones entre este país y las repúblicas americanas son cada vez más íntimas, las mismas, sin embargo, se fundan en la mutua comprensión de la interdependencia continental y en la seguridad de todos los países que lo integran.

El señor Atherton dijo en una ocasión:

"Debemos seguir trabajando y pensando al unisono, hasta que logremos eliminar el prefijo 'pan' del vocablo panamericano, y hasta que la expresión 'americano' llegue a indicar el mejor estilo de vida desde el Ártico hasta el Antártico."

LA CARESTIA DE LA VIDA

Muy eficientes y muy oportunas resultan las reformas que está llevando a cabo el gobierno del licenciado Picado. Pero el resultado de todas ellas no podrá resultar efectivo antes de algunos meses. Mientras tanto el problema de la carestía de la vida adquiere una gravedad incalculable.

La especulación y el alto costo de producción parecen ser los factores inmediatos. Pero este es el problema que tiene que afrontar el gobierno de una manera drástica. La labor de las Juntas de Abastos por eficiente que sea no resuelve la situación. Hay que tomar medidas rápidas, no importa que ellas sean costosas. Es necesario y es urgente que se organice la labor de las Juntas dándoles todo el apoyo necesario. No se llega a ninguna parte con la publicación de boletines que fijan precios en desacuerdo con la realidad. Los mayoristas venden a los precios que quieren y los comerciantes en pequeño explotan en cuanto es posible la necesidad del público. No son solamente los frijoles y el arroz lo que debe controlarse. Hay muchísimas otras cosas indispensables a la vida que han subido a precios astronómicos.

Muy importante para la libertad política las reformas electorales que se proyectan. Muy necesarias para la hacienda pública la reorganización de las finanzas. Muy útil para la buena marcha de la Administración las otras medidas de que han tomado. Pero más importante que todo eso, sería una intervención directa del señor Secretario de Gobernación en la creación de un organismo que controlara los precios con la autonomía necesaria y el respaldo completo del gobierno. El Licenciado Soto Harrison está dispuesto a poner orden y a que se cumplan las disposiciones del Ejecutivo en las dependencias de su Secretaría. Si sus empeños abarcaran también el control de los precios, haría una labor más que de gobierno de humanidad.

NOMBRADO DIRECTOR GENERAL DE POLICIA EL CORONEL DON DONATO YGLESIAS

Primer Comandante de Policía el Coronel don Aníbal Morales y como Instructor General de la policía el coronel don Raúl Pacheco Gómez

El señor Secretario de Seguridad Pública emitió la Orden del Día por la cual se organizan departamentos de la policía nacional.

Se nombró Director General de la Policía al Coronel don Donato Yglesias que había dirigido la Dirección de la Penitenciaría.

Se nombra al Coronel don Raúl Pacheco Gómez para instructor general de la policía en todo el país, y para reponerlo en el cargo que servía de Comandante Primero de Policía de San José, se designó al Coronel don Aníbal Morales.

LA FORTUNA ES UN LARGO AHORRO

CIENTO NOVENTA Y TRES MIL CUATROCIENTOS SESENTA Y SEIS COLONES SE HAN REPARTIDO EN LIMON CON LA COMPRA Y EXPORTACION DE BANANOS

Ha sido un completo éxito la exportación de bananos que está efectuando la Compañía J. B. Efferson Ltd, de que es socio un costarricense, don Alberto Barrantes Carranza. Hasta el momento se han exportado treinta y un mil seiscientos racimos computados, y se ha pagado por ellos una suma de ciento noventa y tres mil cuatrocientos sesenta y seis colones diez y ocho

céntimos Este dinero ha sido distribuido entre los agricultores, cargadores, ferrocarril, etc. lo que ha mejorado la situación de la ciudad y de la zona en una manera sensible. Y sobre todo ha permitido a los pequeños agricultores mejorar sus finanzas para nuevos cultivos.

Hasta el momento se han hecho seis embarques de fru

ta desde el 14 de Marzo hasta mediados de mayo.

Por el momento, según se nos han dicho algunos interesados, no podrá subir mucho la exportación porque todas las fincas de banano estaban completamente abandonadas y ha sido necesario emprender ciertos trabajos de limpieza de tranvías y de fincas para la corta y acarreo de la fruta. Pero estiman que dentro de dos meses podrán exportar, se si los vapores llegan regularmente, el doble de fruta lo que significaría casi medio millón de colones distribuidos entre la población cada dos meses. El precio que se está pagando a los finqueros es de cincuenta céntimos oro por racimo computado. Este precio solo en condiciones excepcionales, lo pagó la Compañía Bananera a los dueños de fincas.

Vendrán a esta ciudad más de cien botellas de leche diarias

La Junta de Abastos de esta ciudad, en su deseo de resolver el problema de la escasez de leche en Limón, que es bastante agudo, ha tratado de conseguir que de la finca Pandora, propiedad de don Otto Starke, se envíen más o menos cien botellas de leche. La dificultad con que se ha tropezado desde el principio es el valor del flete del ferrocarril que llegaba a nueve colones más o menos por cada sesenta botellas de leche. Este flete hacía imposible cualquier intento de enviar leche a Limón. Además el tranvía de línea no llegaba hasta Pandora y el transporte tenía que hacerse a mula hasta Pensurt.

En esta forma se ha solicitado un serio problema que se presentaba en Limón como es la falta de leche.

Nuestras felicitaciones para los señores miembros de la Junta de Abastos, cuya labor está muy bien intencionada.

Premian sus Proezas

El General Dwight D. Eisenhower prende la Cruz de Servicios Distinguidos al pecho del Capitán Don Gentile, quien tiene a su haber la destrucción de treinta aviones nazis. A la derecha, el Coronel Donald Blacklee, quien también recibió la misma condecoración. El capitán Gentile tiene 23 años de edad y es hijo de un matrimonio italiano que vino a los Estados Unidos y quienes se naturalizaron hace algunos años. guerra. Esta suma de... 16.000.000.000 sobrepasa en 1.000.000.000 dólares al límite que se señaló para el tercer empréstito de guerra, el cual, según dijo el secretario del Tesoro, señor Henry Morgenthau, ha sido la mayor empresa financiera en la historia

En la campaña que se avanza se prestará atención especial a la venta de bonos de 25 dólares, conocidos popularmente con el nombre de bonos del pueblo.

La nación sobrepasó siempre las cuotas establecidas para los cuatro empréstitos anteriores. En el primer empréstito se señaló un límite de 9.000.000.000 y el público respondió aportando 12.947.000.000 de dólares.

## HORROROSO CRIMEN PERPETRADO EN UN ANCIANO DE COLOR

"Matoneado" George Nelson Martin

Guiado por las auras que se cernían sobre su presa, fué encontrado el domingo último a corta distancia del Liverpool, en un creek, boca abajo, el cadáver de un sujeto de color, sobre una lata, sin ningun arma. Avisadas las autoridades, hallazgo el señor Alcalde de yó en el lugar del macabro halazgo el señor Alcalde de turno, Bachiller en Derecho, Jorge Rojas con el médico forense, constatándose que se trataba del cadáver de quien en vida se llamó George Nelson Martin, panadero, jamácano, como de setenta y cinco años de edad, soltero, el que presentaba en el costado izquierdo, en un círculo comide seis pulgacás, siete oricios de entrada de bala salida, iniciándose la investigación, que continúa con toda actividad y diligencia el señor Juez Penal, Licenciado Fernando Muñoz, quien espera correr el velo que hasta cubre al autor del repugnant crimen, perpetrado en el anciano Nelson.

El del segundo fué de... 13.000.000.000 y la subscrición ascendió a... 18.555.000.000 de dólares

El límite de 15.000.000.000 señalado para el tercer empréstito fué sobrepasado en 3.943.000.000. El cuarto empréstito se fijó en... 14.000.000.000 y la suma suscrita llegó a... 16.730.000.000 dólares

El secretario Morgenthau al anunciar este nuevo empréstito, hizo notar que las erogaciones de guerra desde el 1º de enero han subido en... 23.000.000.000, en vista de las fases difíciles de la guerra que todavía están delante.

Ahora se excita al pueblo a que aporte más que nunca de bido a que el Tesoro necesi-

tará durante el presente año una cantidad mucho mayor para proseguir la guerra.

Esta campaña, al igual que las anteriores, ya dirigida a todas las comunidades de la nación. Un personal de 5.000.000 de voluntarios visitará de puerta en puerta los hogares para dar oportunidad a todo el mundo de adquirir acciones en el futuro de la nación.

Más de 60.000.000 personas poseen ya uno o más bonos comprados en las campañas especiales, en las ventas diarias, mediante el plan de deducciones en los sueldos, de cualquiera otra manera.

FUERZAS NORTEAMERICANAS HAN REANUDADO LA OFENSIVA DIURNA CONTRA LA EUROPA DE HITLER, EN FORMA BERLIN

LONDRES, 19 UP. — La radio Berlín indica que las fuerzas norteamericanas han reanudado la ofensiva diurna contra la Europa de Hitler. Los nazis afirman que dos formaciones de bombarderos convergían sobre el noroeste del Reich esta mañana. Todavía no se tienen detalles sobre el informe enemigo. Aunque la real fuerza aérea reanuda sus operaciones nocturnas, pero aun no se han dado a conocer los objetivos de los incursores.

### NUEVA DIRECTIVA NOMBRA EL "ORFEON CARTAGINES

Notable progreso va adquiriendo este artístico conjunto, que dirige el Lic. don Carlos María Campos

Hemos sido informados de que el Orfeon Cartaginés ha nombrado nueva directiva que fungirá durante un año:

Presidente: Profesor Luis Barahona J.

Secretaría: María del Rosario de Campos.

Tesorero: Manuel de Jesús Jiménez M.

Fiscal: Carlos Segura.

Dirección: Lic. Carlos M<sup>a</sup> Campos.

Desde que se fundó en la ciudad de Cartago el Orfeon Cartaginés, nosotros hemos visto con simpatía las actuaciones de este destacado centro artístico.

En varias partes de la república ha actuado, saliendo airoso de los difíciles compro-

misos, como es cantar diferentes misas a cuatro voces y orquesta.

El Lic. Campos Jiménez con su dinamismo y preparación es el que ha realizado tan notable obra, que es orgullo de la ciudad de las Brujas y de la nación.

También queremos hacer mención que el Orfeon está integrado por señoritas y jóvenes de condición humilde pero que responden ampliamente con su esfuerzo y cultura.

La Voz Atlántica, saluda y felicita a estos jóvenes cartagineses, deseándoles muchos éxitos en su ascendente carrera artística.

### MARTE Y ORIENTE FRENTE A FRENTE EL DOMINGO

El domingo a las nueve se enfrentan los dos gallitos infantiles que se disputan el cinturón de campeones: Marte y Oriente. El primero, el más "guila", ha sido la revelación de esta chiquillada y nos ha demostrado lo que vale la constancia de un buen entrenador y la colaboración disciplinaria de los jugadores.

Aria, ha logrado, en pocas semanas, lo que los dirigentes de los clubs no han podido hacer en muchos años: hacer que su equipo juegue fútbol. Los segundos, aunque de mayor tamaño, han puesto también su interés en el mejoramiento de su juego y han logrado mantenerse casi a la cabeza del torneo con una buena anotación de puntos. Seguimos pensando que la organización de este campeonato infantil ha sido el mayor aporte en beneficio de nuestro fut-

bol, que se haya dado en los últimos años. La dirección que a estas esperanzas deportivas del mañana se dé hoy, redundarán en favor de una nueva era deportiva que ya comienza a vislumbrar. Siempre hemos creído que la indisciplina es la que ha llevado por malos senderos a nuestro deporte favorito, y como es casi imposible tratar de imponerla en los jugadores del momento, habrá que culti-

varla, de manera inteligente, en esta guilada que ahora abunda en entusiasmo y que ofrece facilidades para sembrar la buena semilla y sanear la calidad.

El partido del domingo pasado entre el Cariari y el Ye subio, fue ganado por el primero obteniendo una hermosa copa obsequiada por el dedicado Mr. Bryan Score, uno a uno.

### MATANDO RATAS NAZIS EN ITALIA

En siguiente despacho transmitido a la una y nueve minutos del viernes, Hora Italiana. Con las tropas norteamericanas en Italia. Quinto ejército "ocupación de Polonia". Los alemanes que se retiraron en loco desorden, presionados por fuerzas que avanzan por la costa del Tirreno huyen en desbandada. Hace una semana, tropas que aquí entraron en soldados sin experiencia que iban a su primer combate. Hoy son guerreros veteranos que cazan como a conejos a franco tiradores alema-

nes, que se imponen en combates cuerpo a cuerpo y que se lanzan a la carga desafiando fuego asesino de artillería enemiga. Se dieron de hecho y ansiosos de alcanzar a alemanes en su fuga los norteamericanos no perdieron tiempo en acabar con los franco tiradores que se escondían en Polonia para así poder proseguir su avance. Mientras el grueso de la infantería nazi huye hacia el norte en loco desorden, aquí quedaron en cumplimiento de órdenes de oficiales alemanes pelotones suicidas de franco tiradores que trataron de demorar nuestro avance a través de la línea Gustavo. Tiradores escondidos en casas, sótanos, cuevas y colinas disparan contra nuestras tropas hasta que se les acaban las municiones y salen después mostrando una bandera blanca.

### POR UN GOLPE RELAMPAGO, FUE TOMADA LA ISLA DE WADKE POR LAS FUERZAS NORTEAMERICANAS

CUARTELES ALIADOS EN EL SUROESTE DEL PACIFICO, 19 UP. — Los invasores yanquis en la isla de Wadke frente a la Nueva Guinea holandesa están desplegándose hacia el oeste y este a lo largo de la costa de Nueva Guinea. Encuentran solo ligera resistencia. La isla de Wadke fue ocupada ayer en un golpe relámpago. El enemigo fue completamente sorprendido. Los ingenieros yanquis ya están preparando el aeropuerto en la isla para futuras operaciones aliadas probablemente contra objetivos en las Filipinas y las Indias Orientales Holandesas.

LOS GOBIERNOS EN EL EXILIO ESTAN LISTAS PARA LA INVASION

LONDRES, 19 UP. — El doctor Harold Jansen, comentarista de radio en... "Portsmouth, Plymouth, Bristol Hull y Londres son puertos principales donde la Gran Bretaña concentra todo su material de invasion que tendra que trasladar hacia el continente durante la noche en unas pocas horas. Recientes ataques de la Luftwaffe contra Bristol y Portsmouth, dos de los principales puertos de invasion, por lo tanto fueron mas importantes que los bombardeos angrlos norteamericanos contra nuevas redes ferroviarias. Informase que aviones alemanes de reconocimiento mantuvieronse activos anoche sobre el norte y el oeste de Escocia, probablemente con el fin de espiar los preparativos de los aliados. Radio Bélgica, en nombre del gobierno Belga, en el exilio, manifestó al pueblo que debe adelantar rapidamente sus preparativos para la accion y agregó: "En muy pocos dias os daremos claras señales sobre ciertos importantes detalles. Habels completado nuestros arreglos para la invasion q' da poco tiempo para ello pero no olvidéis". Por su parte el gobierno polaco en el exilio envió mensajes radiales similares. Manifiestaron obediencia a las ordenes y señales es necesaria. La guerra ha entrado en su fase decisiva".

JUPITER Y GIMNASTICA JUEGAN MAÑANA

Mañana domingo juegan Jupiter y Gimnástica en partido dedicado y amenizado por la Banca Militar. Es el propósito de ambos clubs comenzar la preparacion de sus cuadros para el campeonato que se avecina y que promete ser uno de los más reñidos que se hayan librado en Limón.

La Gimnástica reforzará algunos puntos con jugadores del Limón Junior por encontrarse en gira por Honduras algunos de sus titulares.

No sabemos a quien será dedicado el partido, pero dadas las condiciones de ambos equipos, claramente podemos deducir que será un buen partido.

INMINENTE LA CAIDA DE MYITKYNA, EN LA BIRMANIA SEPTENTRIONAL

CUARTELES ALIADOS EN EL SUDESTE DE ASIA, 19 UP. —La caída de Myitkyha parece muy inminente esta mañana. Las tropas chinas y norteamericanas se han abierto paso en las afueras de la base japonesa. Y fuentes oficiales revelan que todas las vías de escape de los nipones en Myitkyha han sido definitivamente cortadas. Myitkyha ha sido el punto focal de todas las operaciones y comunicaciones de los japoneses en la Birmania Septentrional.

47 OFICIALES ALIADOS FUSILADOS POR LOS ALEMANES

LONDRES, 19 UP. — El ministro de relaciones exteriores, Anthony Eden, revela que cuarenta y siete oficiales aéreos aliados fueron fusilados por los alemanes cuando trataron de escapar de un campo de concentración, el 26 de marzo último. La información suministrada por Suiza dice que algunos de los oficiales fueron fusilados mientras se resistían a ser arrestados. Eden alega que el gobierno alemán es responsable de esta violación del derecho internacional, y ha pedido al gobierno suizo que demande del gobierno alemán un informe detallado sobre el caso. Eden quiere q

Alemania explique por qué no se revelaron los hechos a Suiza en seguida, pues Suiza es la potencia protectora en este caso. Un representante suizo se enteró del incidente por casualidad, durante una visita de rutina al campo de concentración el diecisiete de abril.

## JAPANESE ON DEFENSIVE IN INDO.-BURMA FIGHTING AREAS

An official communique states that the Japanese are now on the defensive on all the Indo-Burma fighting fronts, with the exception of the Arakan, where their patrol activities are still on foot, though by no means of a real offensive character.

Lord Mountbatten reports that the Chinese troops, who are advancing south of the Mogaung valley, have cut the enemy's direct communication line, south of Malakawng, and are increasing their pressure against the Japanese in that zone.

Three columns of Chinese and North American troops, having captured an airbase a

short distance south of the Japanese base of Myitkyina, the largest and most important in north Burma, its fall is expected at any moment, as it is not thought the defending force is sufficiently

strong to withstand the final assault.

North American troops have taken possession of the Island of Wadke, off the coast of New Guinea.

## AFTER CASSINO - THE "ADOLF HITLER LINE"

After an unusually lengthened period of at times, the most violent fighting with heavy losses in man-power and material to the contesting forces, the Noted Veterans of the Eighth British Army have succeeded in wresting the strong hold of Cassino from the Nazis. This important victory was shortly

followed by the taking of the Hill, on which stands the famous Benedictine Monastery, by Polish troops.

The French troops, who operate with the Fifth North American Army, are reported to have occupied Esperia, one of the more important fortified positions of the "Adolf Hitler" Line. Troops of the Fifth are also said to have secured control of a township in the near vicinity of the port of Formia on the Gulf of Feata.

Allied air units are in the meantime dealing heavy blows on the enemy's vital communicating lines and ports.

The Prefect of the Province of Genova has ordered the immediate evacuation of the city of Genova and various other districts.

The enemy forces are said to be completely dominated as a consequence of the breaking of the Gustav line and the subsequent raid advance of the French and Canadian troops across the mountains. British and Polish troops, operating in the area above the Cassilina roadway have contacted advanced positions of the Adolf Hitler Line, which it is thought is the last stronghold in the Nazi defence south of Rome.

Troops of the Fifth Army have launched a heavy assault against Riazzo, two miles off the important Pico-Otrifomia roadway. Canadian tanks are reported proceeding toward Rome, from Cassino, despite enemy opposition.

## THE COMING INVASION OF EUROPE

Speculation is still rife as to when and how the Allied High Command will initiate the long talked about and anxiously awaited invasion of Europe.

The statement has been made that no less than one and a half million North American and other Allied troops, have reached Great Britain and are fully prepared to launch the attack on Western Europe. A Paris radio broadcast, a few days ago, stated that General Eisenhower had eighty divisions and fifty thousand parachute troops completely equipped and awaiting the order to "move".

me information of a reliable nature to what really is taking place, Nazi air units have been making flights over the south and southwest of England, fifteen of them were shot down during the night of Monday last. It is of course known that an unprecedented number of naval units are now in the waters around Britain, and that all movements of a civil character have been prohibited with the outside world.

Marshall von Rundstedt is said to have completed his preparations to repel the invasion. Enemy patrol launches and bombing planes mightily keep watch over the Channel waters.

## PENSHURST TRAM SERVICE AGAIN TO THE FRONT

If it be destined that the much discussed transportation system, known as the "Penshurst Tram Service", must again pass under private ownership, then we are firmly in agreement with the suggestion that the new owners should be none other than the recently established Cacao Co-operative Association.

We pleasingly recall the splendid efforts which, under the able leadership of our energetic and sincere fellow citizen and agriculturist don

Fernando Asch, were effected for the retention of the service. And, if it be true that certain private parties have advanced a proposal for its acquirement, we are confident our newly installed Minister of Agriculture, don Jose Joaquin Peralta, will not suffer the same ill wind to again blow against this important section of the agricultural activities of our Province. As it is understood that a large majority of the small cultivators of the immediate and nearby regions are members of the Cacao Cooperation, we feel sure they will put forward every possible effort to secure ownership of the very indispensable system of transportation. And all, who can, should aid such efforts.

### THE PASSING OF Mr. FRANK ALEXANDER NUGENT

In the little town of "Cats hall", in the parish of St. Mary, in the Island of Jamaica, Mr. Frank Alexander Nugent first saw the rising of the Sun on a day in the long ago. Becoming infused with a desire of seeing strange lands and peoples and unfamiliar surroundings, he left his homeland for Costa Rica.

He is said to have drawn deeply from the well-spring and to have contacted an intellectual stream full of useful knowledge for the jaded heart of man and to have also, in his own way, earned a joyous springtime of life. However, unfortunately, like the falling leaves of Autumn, in the brief period of ninety minutes of a very acute attack of illness, he sipped the bitter cup of death during the night of Saturday the 18th instant.

On the afternoon following the funeral ceremony was conducted by the Rev. Father John of our Cathedral at the residence of mourning situate in the Jamaica Town Settlement; he also headed the procession to the point of entombment. Two sons of the deceased being associated with the First Limon Cadet Troop the full uniformed ranks, with muffled drum and baggle accompanied the body to the place of burial. In addition, a large number of mourners and sympathisers paid their last respects to him who in life they had highly regarded and esteemed.

The deceased is survived by his widow, Mrs. Louise Nugent, an ardent member of the Cathedral, and eight children. To these bereaved ones we extend our profound sympathy.

I wish to put this question to the Public:

By what right do some of us denounce the doings of Hitler when in our own organization we practise the same evil? In them, we have our Hitlers, Goerings, Goebbels Himlers, and the rest.

The honest and sincere men always suffer injustice and persecution, the same as in Germany.

**BRITISH WEST INDIANS ON WAR SERVICE**

Sergeant Benjamin Vivian Hazell, Flight Engineer, a native of Jamaica, awarded the Distinguished Flight Medal for displaying high skill and devotion to duty in operations against the enemy

It has been recently re-ated that up to the latter part of 1943, nearly two thousand volunteers from the West Indies and Bermuda had registered their names with the West Indian Committee in London. It was also stated that this showed a marked increase over the previous year's total.

Up to the time the compilation was made, the volunteers from Jamaica totaled more than seven hundred. Of these, nearly 300 were with the Army, over fifty with the Royal Navy and another three hundred with the Royal Air Force. Several have been taken prisoners by the Germans, many killed in action and others reported missing.

In addition to the above, there are hundreds of Jamaicans and other West Indians at work in England assisting the war effort in the munition factories, in civil defence activities; also as foresters technicians or as members of the merchant navy. A large number are also said to be attached to the Nursing Service.

Among the many Jamaicans who have already distinguished themselves, we note the recent mention of Sergeant Benjamin Vivian Hazell, a Flight Engineer, whose "brain wave" saved his "Lancaster" bomber, which had developed great difficulties shortly after participating in a raid over Wuppertal in Germany.

Sergeant Hazell related

they had discharged their bombs and turned for home, when they soon found their machine aloft amid coned searchlights. The pilot took violent evasive action, but they hit a flak and the starboard engine caught fire. He feathered it and the flames died down without the necessity of using the extinguisher. The "Lancaster" then dropped to 3,000 feet over heavily defended territory, and Hazell remembering being told during his course of training that of he pulled the boost cutout control while under an elevation of 10,000 feet, the engine would be given a tremendous boost and more horse power developed in quick time; he did so, and the bomber rapidly climbed to 15,000 feet. After landing, the crew counted 87 flak holes in the bomber. Nobody was hurt.

On returning home, on another occasion, from a Nuremberg bombing, Hazell's Lancaster bomber was attacked by a Junkers 88, which they succeeded in chasing

away. It was however discovered that two port engines had been cut and the trimming damaged. The machine tilted over on one side. Hazell advised the navigator to direct them to the nearest airfield; meantime, he manipulated the engines, working off one tank at a time. He also had the wireless operator stand in such a position that he could check the fuel cock when asked and make use of the petrol tanks in turn, as the gauges showed zero. The bomber reached a base in the south of England.

Sergeant Hazell was subsequently assigned a teaching position at an Officers Training Unit.

Sergeant Hazell was recently honoured with an award of the Distinguished Flight Medal for his many successful operations against the enemy in which he displayed high skill and devotion to duty. Hazell is a native of the city of Kingston and was a member of the Linotype staff of the Gleaner newspaper.

**MOTHERS' DAY PROGRAMME AT SACRED HEART SCHOOL**

Harmonizing with the public Tribute paid, yearly, to Motherhood on the second Sunday of the month of May, the Cathedral Parish presented a highly appreciated programme in the Hall of the Sacred Heart School. The function took the form of a coursing manner, that is, without a presiding chairman. Mrs. C. Bernard, the Directress of the School, who had the onerous task of preparing the youngsters, presided at the piano. The following programme is self explanatory:

Chorus — Ring out sweet Bells of memory. Recitation,

Mother's Day. Chorus, Bring Blossoms. Recitation, Great Mothers. Solo with chorus, Land of Yesterday. Recitation, Praise of Womanhood. Quartette, Sweet memories of Mother. Recitation, The Mothers. Solo and quartette, Eventide Prayer. Recitation, Madonna and Child. Recitation, Mother and Son. Salutation to all mothers, present — Exercise Closing item — God bless the Mother's Day.

The entertainment was graced with the presence of the Rev. Fathers, John and Hubert, the latter being the Director of the Choir.

**A NOTE OF SADNESS FROM ESTRADA**

Among the residents of this our district of Estrada, we can say, with every grain of truthfulness, that Mr. Cyril Saints, who we now deeply mourn, had live a clean, quiet godly and sober life, proving himself a friend to all and an enemy to none.

The hand of affliction had laid its tenacious hold on him for sometime and after everything possible was locally effected to relieve him of his suffering, but without success, he was conveyed to the hospital in the city of Limon, where he breathed his last on Saturday eight days ago.

From the morgue at the hospital his remains were taken to the Camp One Cemetery and there interred, after the Rev J P Holmes of the Methodist Circuit had conducted the funeral ceremony. Among the pall-bearers were Messrs. John and William Vose, Nathaniel Smith and David Forbes.

The deceased was born in the parish of St. Ann, Island

of Jamaica, and had domiciled in this Republic for about twenty years. He is survived by his son, Frank and other relatives, to whom the "Atlantic Voice" tender's its deep hearted sympathy.

The night of Monday the 29th, of the current month is fast approaching, and in the local Salvation Army Circle it has been "ear-marked" for the annual May Queen Rally and Entertainment. The programme will, we gather present another uncommon event in the social features of the Army.

According to all we have heard, the very keen selection of the lassies, who will contest for the Queenly honours, have made it very difficult to even hazard a guess as to the one who will occupy the royal throne and yield her sceptre over her realm. So at this time publish the names of the chosen contestants; but suffice it to say that whoever triumphs will admirably fill the bill. We have also been told that the setting of the Throne and other decorative aspects will top all previous ones. Last year's queen will, naturally, transfer her reign to her successor.

A Variety programme is in the making and all points to a grand entertainment.

Get quick relief from

Rheumatism, pain in joints and muscles are due to the formation of sharp crystals from excess uric acid which weak kidneys have allowed to escape into the system.

The kidneys should be filtering this excess uric acid (and all other poisons and impurities) out of the bloodstream. That is why, at the first twinges of Rheumatism, you should take special steps to satisfy yourself that the kidneys are working properly.

De Witt's Pills have been specially prepared to act directly on weak, sluggish, clogged kidneys. They soothe inflammation, heal, strengthen and restore them. You have visible proof of the direct action of De Witt's Pills within 24 hours of taking the first dose. You know for certain that the wonderful internal antiseptic they

contain is getting to work clearing away impurities and poisons.

Within a few days the kidneys are once more at work—trapping poisons and impurities in the bloodstream and expelling them from the system by Nature's marvellous mechanism.

That is why De Witt's Pills prove so wonderfully effective in relieving Rheumatism. They go at once to the root of the trouble—the kidneys themselves.

On the swiftly, flowing waters of eternity the spirit of Mrs. Malachi Cox has been carried away. Under the shade of a lengthened illness, borne with christian fortitude, and during which everything possible was done by her loved ones to prolong her life and restore her health, her faded form bowed to taste the wave on the 11th. of the present month.

The late Mrs. Cox was a native of Kingston in the Island of Jamaica and had resided in this country for a lengthened period of years, amid the enjoyment of the endearment of her household and citizenry. She was an Anglican by

faith, and prior to the depositing of her mortal remains, the funeral service was conducted in the St. Mark's Church and at the grave by Catechist W. Daysley. The Boy and Girl Scouts of St. Mark's were present, in addition to a concourse of mourners and sympathisers.

Among the bereaved ones are our esteemed, townsman, Mr Malachi Cox, her widower; Mr. Sydney Beckford, a nephew; two sisters, several adopted children nieces and other nephews. To these sorrowing ones and all others, we extend our profound condolences.

Many outstanding comments have been heard in connection with the enthralling programme staged in tribute to Motherhood in the local temple of the Seventh Day Adventists. The function was given under the auspices of the young People's Society an Auxiliary, over which Mrs Lydia Rogers is the Directress, it is said that her's was an onerous task to so praiseworthy

prepare the youngster, under her charge.

The celebration in connection with the present anniversary has, we sincerely hope, served as a pillar of reflection by vividly presenting to our modern youths the devotion and love of Mother. The Temple's seating capacity was greatly taxed, we are told.

While away for his regular evening pleasures, his mother Mrs. Cyril Hunter, arranged a surprise tribute; and when all was set, our good friend Mr. Beresford Duncan, escorted the honouree to the scene where, he was confronted with the strange happenings and accorded the familiar and ever appreciated birthday greetings.

The lovely birthday cake, with its lighted candles, occupied a central position and was surrounded by other dainties and delicious beverages. After adjusting himself, friend Delroy blew out the lights. Among those who lent their presence to the joyous occasion were the Misses Iris Birch, Tiny Messam, Ellen Jackson, M. Dunn. (of Zent) Mrs. Clara Johnson Barnett, Messrs. Beresford Duncan, Percy Grant, F. Gouldbourne, Buck Smith and the writer. A token of love and congratulation was sent, by medium of a letter, to the honouree's grandmother who was unable to attend. There was also the gift of a Rose for his lapel. city, where they were reminded of past histories, in addition to those of the present age. Memories of many ancient and illustrious mothers were distinctively evoked.

Strange and imperishable pictures were placed before the eye. Some of the items were not wanting in their thrilling and humorous effects. Many "fote", still in the culling stage of their lives, were among the wonderful contributors. Each delivered his or her Tribute to Mother in a glowing manner. Great were the lessons obtained on life's magnitude and diversity. The good in Mother was outstandingly discernable, we were kept in touch with her devotion, her care, her ne-

ver failing willingness, her sacrifices and, above all, her deep-seated love. The opportunity was also afforded us of treasuring the faith and reciprocal affection and love of her children.

**TRIBUTE TO MOTHERHOOD BY BAPTISTS**

As impressively witnessed at the three o'clock service last Sunday afternoon, the Baptist of our city were afforded another grand opportunity of augmenting the work of their christian career rendering, the while sincere homage to Motherhood.

At the close of the opening devotional feature, a few items of songs and recitations, were rendered by the choristers and some of the children of the Church. All were executed with characteristic charm; but we consider it our duty to specially mention Miss Ida Berrick, who marvellously recited the "Origin of the Tribute to Mother". Hers was a test of bed-

rock memory, and gallantly she held her cars.

Based on the 20th. verse of the 5th. chapter of St. Paul's writing to the Ephesians, the Rev. W. Forde, who conducted the service, delivered a seasoned and historic Message. He also emphasized on the graceful presence of the members of the Limon Lodge and the Mount Herman, Household of Ruth, both of the Grand United Order of Odd-Fellows as also those of the Loyal Bethsada of the Independent Order of Odd-fellows, Manchester Unity, who were present in Thanksgiving to God and blessings. Their colourful for His boundless mercies regalias were much admired.

# BULLETINS FROM BRITAIN

## CHINA COUNTS

Every facility and accommodation is being prepared for the time when the Allies can flood China with aircraft and equipment. That is why China is counting the days until her blood transfusion route is restored. Chinese air force is smashing as hard as economically possible at Japanese targets, making every hard-earned bomb pay its way.

Huge airfields are being constructed throughout Free China. Hundreds of thousands of Chinese coolies, working as they did centuries ago, are carrying stones in baskets hanging from bamboo poles slung over their shoulders in a slow, steady process, leveling these vital airfields. They chant rhythmically as they work. They know what they are working on and they work hard. These airfields are bigger than anything seen in China before, with long runways capable of servicing the largest, newest, longest-ranged aircraft.

The first phase in the campaign to reopen the Burma road has been completed with the conquest of the Hukawng valley by the Chinese forces who killed over 4,000 Japanese and recaptured an area of 1,800 square miles. In achieving this they decisively defeated the back Japanese 18th division, two of whose regiments were fully mauled.

The chief Chinese commander of the Hukawng valley is Lieut. Gen. Tseng Tungkong of the new 1st Army, a graduate of the famous Whamoua military academy in south China, who is fighting his first Burma battle. Under him are two seasoned divisional commanders, both of whom have been decorated by the United States. Forty-year-old, tall, athletic, Lieut. Gen. Li Jen is commander of the 13th division. He went to Burma as soon as war flared up there and was the garrison commander of Mandalay. His opposite number in the field is French-trained Major-Gen. Liao Yao Hsiang, commander of the 22nd division, who received the Legion of Merit for "exceptional meritorious conduct" during the last Burma campaign.

## DO YOU KNOW?

The British aircraft industry has provided more than three-quarters of the total structure of aircraft delivered to the RAF. 6 per cent. came from the rest of the British Commonwealth and 18 per cent. from the USA.

## LONDON'S MONUMENTS

"Oranges and lemons, say the bells of St. Clement's." Thus an old cockney doggerel. But Londoners may never hear those bells again, even when peace breaks out. The little round church of Dr. Samuel Johnson and flower sellers, is a splendid ruin, roofless and windowless, with a ghostly beauty on nights when the moon shines through. Although the interior is burned out, the blackened stone walls remain in place, a tribute to three feet of solid masonry. Undisturbed on a pedestal behind the church there looms the pudgy figure of that great talker, Dr. Johnson. It is really remarkable how many churches were bombed.

The worst destruction begins at Ludgate Circus, leading up the hill to St. Paul's and beyond. A futile signpost points to the Church of St. Nicholas Cole Abbey — the first church to be completed by Christopher Wren after the great fire of 1666 — saying: "Open daily 8 a. m. to 4 p. m." The roof and the windows are now wide open twenty-four hours a day. With nothing but its modest stone walls standing amid four blocks of desolation, where every other building has been razed to its basement, this little church, as impressive in its way as the ruins of ancient Rome, Greece and Carthage, and should be neither razed nor rebuilt.

John Bull's bulldogged resolve to carry on and see it through is epitomized at St. James's Church, opposite the Piccadilly Hotel, where the passers-by read: "This church (though blitzed) is still in use." The south aisle has been converted into a chapel with a tarpaulin ceiling and an offertory box, which reminds tourists, "We have lost much — please give generously." The center of the church is a mass of rubble. However the walls and Grinling Gibbons retables were savaged.

In Fleet Street, St. Dunstan's has patched up its fire-bomb damage, and the sturdy figures of Gog and Magog hammer out the hours on the big bell.

St. Paul's itself has survived three different bombs, one of which landed in the street and St. Paul's continues to hold services on the site where prayers have ascended for more than thirteen hundred years, with many members of the armed forces in aweful attendance.

## CALM AS THE TENSENESS GROWS

On clear days the coast of France is clearly visible. On one occasion a local newspaper published a panoramic photograph of a section of the enemy-held coast. This picture of France was taken from England. It brought home the fact that the English are not only living within sight of the goal, but are so close that it is possible to take a picture of it showing such details as towers and buildings.

But through all this pressure the average Englishman goes his way among his bombed building saying little. There is plenty going on inside of him but his character and his years of war training enable him to keep silent. The English are noted for their restraint. Night and day the great fleets of planes drone out to blast a way for the invasion. Throughout the country there are signs of military activity. Most persons will have a relative taking part when the day comes. Their very silence is felt throughout the length of the country. Everybody works in England. Thousands of them hold more than one job. Your waiter in the hotel dining room will work in a war factory during the day. A barmaid also holds a daytime job. When everybody is working so hard there is less time to sit around trying to keep from talking.

## CANARY CAMPAIGN

When Japan conquered the Dutch East Indies, cutting the Allies off from quinine supplies, British scientists had to speed up their work in perfecting mepacrine, the substitute for quinine.

To do so they needed canaries for "guinea pigs", at the rate of 100 a month. Unfortunately, the bird-seed supply in Britain at that time was at a very low ebb. The scientists had difficulty in obtaining even half a dozen canaries.

They appealed to the Ministry of Food, and a special supply of bird seed was made available. A canary breeding campaign was launched through the Yorkshire canary societies. In the 2½ years since then the Yorkshire fanciers have bred 2,500 canaries, and the research has continued without a hitch.

## NAZIS MILITARY, ALLIES MARTIAL

"The Germans are a military race. We and the Americans

## CLIFFS OF LIBERTY

To an Englishman the White Cliffs of Dover symbolize what the Statue of Liberty does to an American: Home! They also stand for resistance to the forces of tyranny and despotism. Dover, nestling among the cliffs, its citizens using their ancient caves as bomb shelters, is that "southeastern English city", so often reported bombed. 2,000 years, these chalky prominences have been the background for some amazing sights and goings-on all having to do with the history of England. The White Cliffs touch English life intimately in almost every way. In peace they are the markers, gleaming through the mists, which tell navigators of fast milk boats from Holland that they are near their destination.

In the summer of 1940 the undaunted citizens of Dover stood on the cliffs and watched the Germans in France preparing for the invasion which never came. Today, they look across for gun flashes. They take these as matters of course. What they talk about most, in quieter moments between hits, is the fact that the time from which you see the flash of the gun fired on the French side until the shell bursts against the White Cliffs or in Dover is, usually, exactly one minute! They have learned to beat the shells to the caves in that time.

The caves in the cliffs, crowded today by citizens of Dover wherever there's an air-raid alarm, were often used in the Middle Ages by smugglers. William the Conqueror, in 1066, found it safer to bypass the White Cliffs on his invasion. And the cliffs were in eyeshot when little British vessels battled the Spanish Armada in 1588. The British put out from them in July, 1666, to battle the Dutch. The first bomb ever to blast British soil fell here on Christmas Eve, 1914 — a "present" from Kaiser, Wilhelm II. Military men say that the Channel which they overlook, with France only nineteen miles away, is more important. But they do not deny, the symbolic value of the cliffs, which rise 350 feet.

are not; we are martial races. There is a difference. The Germans do what they are told. The Germans withhold information from their soldiers; we take the men into our confidence about what we are trying to do. But you must give our troops leadership and establish absolute confidence between commanders and soldiers."

## KOHIMA

A Jap incandiar bullet have touched off Naga huts near the tank. For a few moments there was a magnificent blast but the tanks kept firing. A minutes after two, 12 Vengeance dive bombers appeared from the west, and one by one they dived off one by one to dive release bombs into Jap positions along the ridge behind used to be the Kohima base. They pounded enemy strong points and communications along the ridges to the left of head of us and to the right.

Tommyes here seem very sure that they have the measure of the Jap and his tricks. It is a ticklish and difficult situation, for the Japs hold geographical advantages. The weight of power, however, is on our side. From Kohima the road stretches more than 30 miles southward to Imphal. Thrown back from Kohima and locked in their effort to the Assam-Bengal railway the Japanese are, reported to be shifting their forces for an out assault on the Manipur capital. They are really driven to the attempt by military necessity. They can no longer overrun, and in their rear Chindits are remorselessly hanging at their thin lines of supply.

## BRITAIN'S BIGGEST

The aircraft industry, formerly comparatively small beginning has been expanded into Britain's biggest single industry since 1918. Hundreds of factories had to be constructed or converted to aircraft; individual units of manufacture had to be carefully centralized; and all of them, employing large numbers of workers quite new to the job, had to be fed with a steady flow of materials and parts in order to ensure uninterrupted rise in output. Massive though the production of aircraft already was in 1941, the total weight of aircraft produced showed a further increase of 50 per cent in 1942.

After the war Britain will be able to switch over from a peace production, to turn immense potential production capacity on to the manufacture of goods for civilians and export. During the intervening years some British industries are adopting new methods of engaging in the manufacture of new products. But the tremendous achievements of the war are not likely to be lost.
