SEMANARIO INDEPENDIENTE

AÑO IX

PUERTO LIMON, COSTA RICA, SABADO 27 DE MAYO DE 1944

Nº 424

LOS SINDICATOS VUELVEN A DIRIGIRSE AL BANCO DE SEGUROS SOLICITANDO una OFICINA EN ESTA CIUDAD

Limón, 19 de mayo de 1944

Sr. don Andrés Brenes Mata
Gerente del Banco de Seguros

San José.

Muy señor nuestro:

Permitame volver a distraer la atención y quitarle tiempo de su trabajo y entrar a considerar la grave situación de los asegurados de esta Zona.

Empezaré por manifestarle señor Gerente, la imperiosa necesidad de que el Banco tenga por lo menos un empleado para atender todos los asuntos relacionados con los trabajadores asegurados, según informes que se han suministrado, antes existía un empleado para estos fines y con suficiente autorización hasta para hacer los pagos previa consulta a San José en casos de alguna duda, tales consultas la hacía este empleado por la vía telefónica resolviéndose rápidamente el pago a los derechos que tienen, la resolución del Banco para no continuar haciéndose estas operaciones en Limón está perjudicando a los trabajadores que necesitan el inmediato pago de su dinero, los mayormente perjudicados son los trabajadores de la línea que, saliendo del hospital sin un cinco en el bolsillo y todavía enfer-

mos tengan que volver a los ocho días para recibir lo que les corresponda. El nuevo sistema adoptado por el Banco de Seguros de enviar de San José y por escrito la autorización, no se justifica toda vez que el trabajador necesita cuando sale del hospital o está enfermo y no cuando ya está trabajando; consideramos que el Banco debe mantener un empleado atendiendo todos los casos de su incumbencia. Qué razón hay señor Gerente para que los trabajadores tengan que sufrir esta disposición del Banco? No considera usted justo que debe haber un empleado atendiendo todas estas situaciones que hoy le expongo?

En esta ocasión señor Gerente, le estoy demostrando mis afirmaciones anteriores de que tengo razón para pedir del Banco mayor y mejor atención a sus asegurados.

Espero que usted estará de esta vez de acuerdo con mi criterio y ponga toda su buena voluntad y empeño por resolver cuanto antes esta situación por el bien de los asegurados y del mismo Banco de quien es usted su digno gerente.

Soy de usted atto.
Joaquín Hernández Poveda
Secretario general del Comité Sindical de Enlace.

SE AMPLIA EL PRESUPUESTO PARA EL COLEGIO DE SEGUNDA ENSEÑANZA DE LA CIUDAD DE LIMON. EL LIC. FONSECA CHAMIER RESENTO AL CONGRESO, QUE HA PASADO YA EN SEGUNDO DEBATE

Desde que se estableció en esta ciudad la Escuela Complementaria de Segunda Enseñanza, a principios del año se ha tropezado con la dificultad del presupuesto que se le había asignado. La suma de 600 colones mensuales para el pago de profesores. Esta suma resultaba tan pe-

SE LE FIJO PRECIO AL MAIZ PRODUCIDO EN LA ZONA ATLANTICA

EN UNA IMPORTANTE REUNION ENTRE LOS MIEMBROS DE LA DIRECTIVA DEL BANCO NACIONAL, DE LA JUNTA CENTRAL DE ABASTOS Y DOS PERSONEROS DEL INSTITUTO DE ASUNTOS INTERAMERICANOS, SE HIZO TAL FIJACION, QUE SERA DE 90 COLONES LA FANEGA DEL AMARILLO Y DE 100 COLONES DEL BLANCO

Se verificó una importante reunión entre los miembros de la Directiva del Banco Nacional de Costa Rica, los de la Junta Central de Abastos y dos personeros del Instituto de Asuntos Interamericanos.

Como se sabe, este instituto posee en Guácimo una secadora y en vista de que la producción de maíz está por recogerse, había necesidad de fijarle o señalarle precio a ese producto. A eso debióse la reunión. Después de discutirse varios aspectos del asunto se acordó hacer tal fijación de precio mínimo a pa-

gar al productor, quedando señalados los siguientes valores: la fanega de maíz amarillo deberá ser pagada a razón de ₡ 90.00, y el maíz blanco a ₡ 100.00 la fanega. Para mayor facilidad del agricultor se dispuso que la Secretaría de Agricultura ceda a éstos sacos aparentes a razón de ₡ 2.00 cada uno. Además, también con el afán de favorecer al productor se dispuso que el maíz sea entregado en la estación más próxima al sitio de producción con flete a cobrar, en la secadora. Como se comprenderá este maíz deberá ser entregado a los dueños de dicha secadora en mazorca.

queña que no era posible llenar las plazas de profesores en todas las materias que oblige el programa de segunda enseñanza. Como el número de alumnos resultó el doble de lo que permite una sección fué necesario abrir dos duplicando el presupuesto.

La Junta Administrativa del Colegio hizo las gestiones necesarias ante la Secretaría de Educación y fué presentado un proyecto para ampliación del presupuesto, por medio de nuestro diputado el licenciado don Francisco Fonseca Chamier. El congreso aprobó ya el proyecto en segundo debate y en el curso de pocos días será publicado el decreto respectivo. La asignación que se ha fijado para este año alcanzará a la suma de 1.400 colones más o menos. Esta suma permite llenar las plazas de profesores en todas las materias requeridas, en forma que los alumnos puedan ingresar a los colegios del interior a los años superiores sin dificultades de ninguna clase.

El interés que el licenciado Fonseca ha tomado por todo lo que se refiere a esta provincia es digno de toda alabanza.

VETA EL SR. GOBERNADOR EL NOMBRAMIENTO DE LOS MIEMBROS DE LA JUNTA DE EDUCACION HECHO POR LA MUNICIPALIDAD ANTERIOR

En la primera sesión municipal celebrada el martes, por la nueva municipalidad, se conoció del veto interpuesto por el señor gobernador de la provincia al nombramiento hecho por la anterior municipa-

lidad de los miembros de la Junta de Educación. Estimó ese alto funcionario que no podían designarse para esos cargos miembros de la Corporación Municipal que estuvieran en funciones.

La Municipalidad aceptó el veto y revocó los nombramientos hechos y designó de las ternas enviadas por el inspector de escuelas de la provincia los dos miembros propietarios y el suplente. Resultaron electos don Fulgencio Campos Segura, don Enrique Laprade, propietarios y don Hilario Cruz suplente.

LA ASAMBLEA GENERAL DE ACCIONISTAS DEL CLUB MIRAMAR, ELIGIO LA NUEVA DIRECTIVA QUE DEBERA FUNDIR DURANTE LOS PROXIMOS DOS PROXIMOS

En la asamblea general de accionistas del Club Miramar verificada el martes último fué electa la nueva directiva del Club que deberá fungir durante los próximos dos años. Salieron electos por unanimidad de votos en la forma siguiente:

Presidente, don Félix Reyes
Vicepresidente don Antonio Canalias
Tesorero don Guillermo Oreamuno
Secretario, don Oscar Pacheco.
Gerente, don Rogelio Pardo
Fiscal, don Enrique Laprade

Vocales:
1º don Enrique Arrázola.
2º don José Chaves
3º don Gilberto Calvo
4º don Antonio Casasola.
Nuestras felicitaciones para la directiva electa a quien deseamos muchos triunfos en su actuación.

Artilleros Brasileños

Pilotos brasileños reciben instrucción final en los Estados Unidos bajo la dirección de aviadores que acaban de regresar de los distintos frentes de combate. Aquí los vemos mientras disponen de un buen surtido de balas para los cañones de su avión. Muy pronto los aviadores brasileños se unirán a las fuerzas aliadas en los campos de batalla para participar en las próximas ofensivas aéreas.

Mundo Social

ESTA NOCHE SERAN FESTEJADOS CON UN WISKEY PARTY, EN EL CLUB MIRAMAR LOS SEÑORES DON ABEL ROBLES TROYO, Y DON DON FRANCISCO FONSECA

Un grupo de amigos celebrará esta noche en los salones del Club Miramar un Wiskey Party como agasajo a los caballeros don Abel Robles Troyo, gobernador de la

provincia y Lic. don Francisco Fonseca Chamier vicepresidente del congreso. Esta fiesta que no tiene color político es simplemente una manifestación de simpatía y cariño para los dos amigos.

Don Abel Robles Troyo

PARA SAN JOSE

Partieron para San José donde permanecerán durante algún tiempo don Rafael Eduarte y su señora esposa doña Julia de Eduarte.

DE SAN JOSE

Regresó de San José, donde estuvo algunos días don Víctor M. Casco.

Lic. Francisco Fonseca Ch.

DE TURRIALBA

Se encuentra entre nosotros, procedente de Turrialba doña Renee Mangel de Góngora y sus niños.

DE SAN JOSE

Llegó de San José después de algunos días de permanencia en la capital, don Félix A. Reyes.

NOTA DE DUELO

En la madrugada del martes último, falleció en el Hospital de la Compañía Bananera, don Fernando Asch Escoria. Fué el señor Asch un viejo y esforzado agricultor de esta zona, donde trabajó empeñosamente por el resurgimiento de nuestra agricultura. Formó en los últimos meses parte de la directiva de la Cooperativa de Cacao que tantos beneficios ha traído a esta región. Deja el señor Asch una familia numerosa. Su muerte ha sido hondamente sentida en esta ciudad. Al dar cuenta de tan triste suceso, enviamos a su señora esposa y a sus hijos nuestro más sentido pésame.

FIESTA SOCIAL

En la noche del lunes último fué celebrado en el Club Miramar un elegante baile en honor de la gentil damita limonense Srt. Erna Castro Stenwort, quien partió para la República de México a concluir sus estudios. La señorita Castro, muy querida de la sociedad limonense radica-

rá durante algunos años, en el extranjero. LA VOZ ATLANTICA al despedirla, le desea toda clase de triunfos.

PARA SAN JOSE

Partió para San José el Sr. Henry Smith, Cónsul de los Estados Unidos de América en esta ciudad.

CAMPAÑA CONTRA EL MERODEO

La Inspección Provincial de Hacienda, a cargo del General Ricardo Monge, ha emprendido desde hace días, una intensa batida contra el merodeo que es mal endémico en la provincia de Limón

Era necesaria esa actitud enérgica. Nuestra pequeña agricultura nunca ha podido surgir, porque la indiferencia de los de arriba y el hurto de los de abajo, hacen nulo todo esfuerzo para trabajar la tierra. En ninguna finca de los alrededores de Limón pueden sus propietarios recoger más de un veinte por ciento de sus escasas cosechas. El resto es para quienes los visitan en la noche, arrancando sin consideración cuanto encuentran vendible.

La falta de caminos hace por otra parte casi imposible una vigilancia adecuada. La ley de merodeo resulta buena en la teoría. Llevar la a la práctica sin un personal suficiente es la dificultad con que tropiezan las autoridades

No obstante estas tropiezos, el esfuerzo llevado a cabo por el General Monge y su personal del Resguardo, es muy digno de aplauso. Si se persiste con energía y se extiende a los otros resguardos, puede ser un poderoso auxiliar de nuestro resurgimiento agrícola en lo que se refiere a los pequeños productores.

Hasta el momento, desde el diecisiete de Mayo al veintidós del mismo mes, han sido detenidos nueve sospechosos. La proporción no puede ser más desconsoladora. Ella puede dar una idea de como se halla extendido este delito entre nosotros.

Si las autoridades judiciales a quienes corresponde el juzgamiento de los culpables, les aplican la ley con toda energía, se completará la meritoria labor que está llevando a cabo el señor Inspector Provincial de Hacienda, y que nosotros aplaudimos muy sinceramente.

LOS INTELLECTUALES Y LA RESISTENCIA

Por el periodista chileno, Gonzalo Mera

Final del artículo del 13 de mayo

Todo lo dicho valga para los intelectuales franceses que han preferido resistir al invasor dentro del territorio nacional. Los hay que han emigrado al extranjero por razones varias.

No estando en nuestro propósito prejuzgar ligeramente al respecto invocamos la palabra autorizada de Jean Perrin, distinguida personalidad francesa, fallecida en los Estados Unidos el 17 de abril de 1942.

¿Quién era Jean Perrin? Baste decir, únicamente, que era de aquellos que no creía en los sabios enclaustrados en su torre de marfil. No concebía el pensamiento científico como un valor extraño a la cultura popular. Consideraba el esfuerzo del investigador como ligado al de los trabajadores de todo orden e influyendo e influenciándose al mismo tiempo con las múltiples formas de la vida. Estimaba que en las horas graves de la sociedad, el profesor como el obrero, el campesino como el ciudadano, sin consideraciones de rangos sociales, tenía el derecho de emitir su opinión. En tiempos normales—según él—uno de los deberes más urgentes del hombre de ciencia era de difundir el resultado de sus estudios y de formularlo con perfecta claridad a objeto de hacerlo accesible a los profanos.

Producida la crisis europea, Perú se contó entre los que salieron de su país. Pero él se caracterizaba por una in-

tegridad intelectual demasiado seria, para no esforzarse en comprender las ventajas y las inconveniencias de una elección dubitativa, entre "quedarse o partir". Tres semanas antes de su muerte, declaró lo que sigue:

"El éxodo no es moralmente posible, más que después de un examen de conciencia y que contemple todos los ser vicios que se pueden rendir, ya sea quedándose o partiendo. Es por esto, tal vez con desconcierto de muchos, que intelectuales franceses eminentes—habiendo podido partir en el momento del armisticio—optaron por permanecer en el país, con la creencia de que así salvaban a Francia. Cito, a este respecto, a mi estimado amigo Langevin, quien, entonces, rehusó abandonar la dirección de la gran

escuela de enseñanza superior, semillero de sabios e investigadores, y en la cual pudo hasta hacer poco salvaguardar la tradición. Como ya se sabe, desgraciadamente, los alemanes terminaron por prenderle y le mantienen todavía en residencia forzada. En resumen, aunque se piensa que tal vez Langevin hubiera hecho mejor de partir, yo reconozco que él obró de tal suerte por motivos altamente respetables".

En todo caso, por nuestra parte, opinamos que el balance moral de la intelectualidad francesa le es favorable. Los impuros se pueden contar en su seno con los dedos de la mano. Sus congéneres de los demás países no pueden menos de sentirse que legítimamente confortados sobre esta materia.

O Y E M E

(Para Argentina, ave fugaz...)

Oyeme! Gracias por haber fingido; no tenía derecho a la esperanza cuando surgiste tú, como un mentido miraje de ilusión en lontananza...

Yo desperté los pájaros callados; yo mismo creí que amanecía... Yo recorrí los valles y los prados creyendo en mi locura, que eras mía...

Después... Sí... Comprendí; mas el engaño, mío fué por creer en mi ventura. Mentira de ilusión, me hiciste daño, mas son míos engaño y amargura.

Gracias pues: gracias por haber tú sido alma del sueño que mi amor forjara... Fué como un don habérmelo traído: Gracias... Porque dejaste que te amara.

ROBERTO.

Mayo—26—1944

NEW REGULATION CONFRONTS SMALL FARMERS

While on their way home but it is regretted due notice from their cultivations, with supplies of foodstuff for their family use, several of our small farmers were taken in custody, we are told, during the course of the past week. They were shortly after released on the necessary identification of their being the owners or proprietors of cultivated lands being submitted. It is understood that this procedure has been promulgated with a view of detecting praedial thieves. This phase of the order is all right,

was not extended prior to its enforcement. Every farmer is now obligated to have on his person the prescribed form of identification, when coming from their farms with produce.

We hope this new effort will have the much desired effect, though we are inclined to think there is the possibility of the dishonest cultivator seizing it as a license to further rob his fellowmen of the fruit of their hard labour.

— NO LO OLVIDE —

¿TEME HITLER EL ASAUTO A DINAMARCA?

Por JOACHIN JOESTEN

La visita del mariscal Erwin Rommel, el mes pasado, ha hecho creer que los alemanes temen una invasión a través de la pequeña nación escandinava. La toma del puerto de Esbjerg sería una gran amenaza para el sistema defensivo alemán, y colocaría a las tropas aliadas a cuarenta millas de las fronteras del Reich

La visita inesperada del mariscal Erwin Rommel a Dinamarca, en la segunda semana de diciembre, es una de las más reveladoras indicaciones recientes que sugieren que los nazis esperan una pronta invasión aliada en Dinamarca, precisamente por una de las vías más cortas a Berlín.

Se declaró oficialmente en Copenhague que el mariscal había inspeccionado las defensas alemanas en Jutlandia por orden de Adolfo Hitler. Fue acompañado por un estado mayor compuesto de expertos en fortificaciones. Más específicamente, un despacho de Suecia dijo que Rommel había girado una visita a Esbjerg, el único puerto de importancia en la costa oeste de Jutlandia. Antes de la guerra, Esbjerg, era el principal puerto de exportación para los productos agrícolas que salían de Dinamarca hacia Inglaterra, y también la principal entrada para los productos que venían de este último país.

Hoy, Esbjerg, es un pilar, perfectamente fortificado, de la "muralla del Atlántico" de Hitler. Este puerto pesquero, un día activo, ahora está muerto, y toda la vida de sus 35 mil habitantes ha sido transformada para ayudar a los fines de guerra. Los hoteles, las escuelas y muchos edificios privados se han requisado, para la guar-

nición alemana, que ha aumentado en grandes proporciones recientemente. Muchos civiles que no se necesitaban en las industrias de guerra de la ciudad, han sido evacuados por los alemanes.

EL PUERTO DE ESBJERG

La captura de Esbjerg por los aliados constituiría una amenaza capital para el sistema defensivo alemán y pondría a nuestros ejércitos a 40 millas de las fronteras del Reich. El viaje de inspección de Rommel a esa área indicó que los alemanes están completamente al tanto de esta amenaza potencial y sus implicaciones.

Si nembargo, no puede haber duda de que un intento de desembarco en Esbjerg sería una empresa harto arriesgada y costosa. La entrada al puerto está protegida por la gran isla fortificada de Fanoe y la península de Skallingen. Entre ellas, un estrecho canal dragado conduce desde el agitado Mar del Norte hasta el

puerto de Esbjerg.

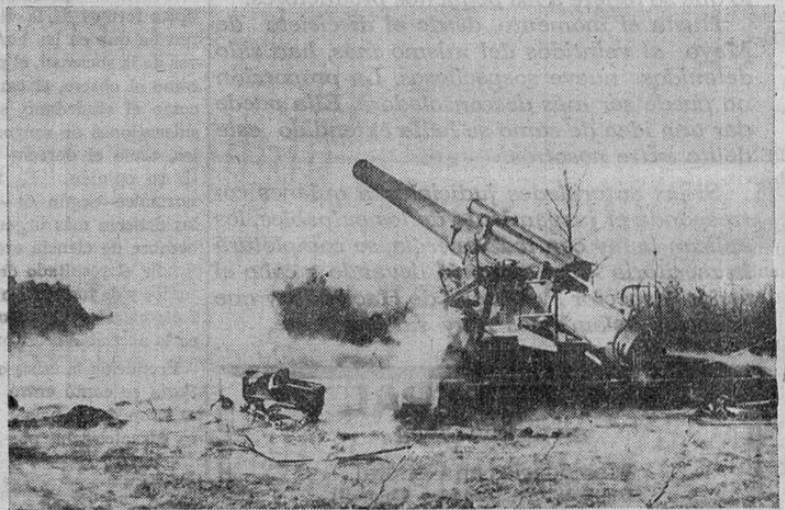

En invierno es difícil acercarse aun en tiempos de paz. Ahora los extensos campos de minas, las defensas costeras y la proximidad de una bien equipada base aérea nazi en las islas de Roemoe y Syt añaden fomedables obstáculos

a los de la naturaleza.

La costa baja, regular y bordeada de dunas, al norte de Esbjerg, está casi desprovista de bahías y es muy peligrosa a la navegación, pues tres temibles bancos de arrecifes proporcionan una protección natural contra las invasiones. A lo

largo de la costa baja los alemanes han sembrado una anchura de cinco campos de minas terrestres que pueden hacerse explotar simultáneamente. Evidentemente, ellos no dan por descontada la posibilidad de intentos de desembarco. Pasa a la pág. 5

barco, con vehículos anfíbios de fondo lano, en alguna parte de las playas arenosas y cubiertas de brezo que se extienden desde Esbjerg hasta Shaw.

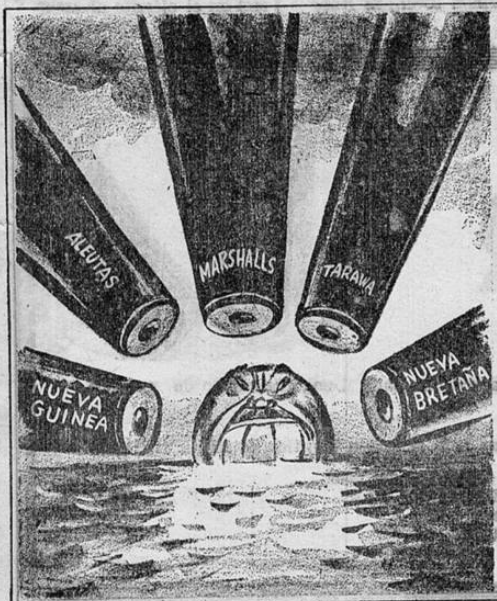

LA PENISULA DE JUTLANDIA

Desde el pasado 14 de noviembre toda la península de Jutlandia ha permanecido en un estado de "alarma intensa". En la misma época se supo en Suecia que, el comandante militar alemán en Dinamarca, el general Hermann von Hanneken, habi mudado su cuartel general de Copenhague a Si-

lkeborg, un pueblo pequeño rodeado de lagos, el cual ha sido lugar favorito de verano. Von Hanneken estableció su cuartel general en el sanatorio de la localidad, que ha sido virtualmente transformado en una fortaleza. Hace unas cuantas semanas un despacho de una asociación de prensa de Estocolmo indicaba que el cuartel general nazi había sido mudado de Silkeborg a Holsted, una villa situada a unas 15 millas al este de Esbjerg; pero esta información tiene fines de propaganda alemana, pues, de acuerdo con las últimas informaciones de fuentes suecas dignas de crédito,

"EL CIGARRILLO MODERNO"

Siquirres hizo un buen juego frente al Barcelona

A pesar de la hora tan pesada en que fue realizado el partido Siquirres - Barcelona, hubo bastante concurrencia y mucha animación en las jugadas, sobre todo por parte de los visitantes que nos dimos trabajo lo mucho que han mejorado desde la última vez que los vimos actuar frente al Júpiter, en Siquirres. Han mejorado notablemente su cuadro y esto ha traído como consecuencia lógica un gran mejoramiento en el conjunto. El Barcelona en cambio, estuvo malo y más que todo desorientado. No se vio una jugada digna de un campeón de primera división, y no fue sino al final del partido que se le vio activar un poquito, estando a punto de perder el partido. Valió al Barcelona la mala jugada de

una defensa del combinado siquirreño que anotó a su propio equipo un goal, mediante una jugada loca tratando de despejar. Este fue el balde de agua fría que desorganizó a los visitantes perdiendo el entusiasmo con que habían estado jugando. Notamos que entre los visitantes sobresaló Manuel, jugador veterano que ya casi tiene el pelo blanco pero que tiene más agilidad que muchas de nuestras estrellas jóvenes. Fue el tignon que impulsó y dirigió las buenas jugadas hasta convertirlas en goles. Y es que en nuestros jugadores de antaño está mejor cimentado el espíritu deportivo y su vida metódica les permiten tener mejor actuación que nuestros deportistas jóvenes, que con varias

y por tuerce pocas excepciones, llevan una vida desorganizada y viciosa que mina sus energías.

A los de Siquirres, nuestras felicitaciones por el score de cinco a tres que es para ellos un triunfo.

DON NOE ALVARADO, PRESIDENTE DE LA NUEVA LIGA DEPORTIVA LIMONENSE

La directiva de la nueva Liga Deportiva Limonense, quedó integrada así: presidente, don Noé Alvarado M.; vicepresidente, don Mariano Zúñiga O.; tesorero, don Alvaro Goicoechea Q.; secretario, don Jesús Nassar F.; prosecretario, don Enrique Laprade; fiscal, don Edwin Sáenz S y vocales en el orden respectivo, don Rafael Eduarte S., don Joaquín Hernández P., don Rodolfo Johnson y don Eliseo Dixon.

Inmediatamente después de nombrada la directiva, sus miembros tomaron posesión de sus cargos respectivos y tuvieron la discusión y aprobación de los siguientes asuntos:

Fijación para la fecha de inscripción de equipos para el nuevo campeonato así: del 25 de los corrientes al 10 de junio inclusive a fin de comenzar el campeonato el domingo siguiente a esa fecha. Sea el 11 del mismo mes. Las cédulas para la inscripción de jugadores, dentro el mismo lapso, llevarán este año la fotografía del jugador a fin de permitir mejor identificación de los mismos. Las primeras divisiones pagarán por su inscripción 20 colones y 10 las segundas. La cuota mensual para los clubs será de 5 colones en vez de dos, como en años anteriores.

Se gestionará la consecución del timbre deportivo para la provincia de Limón y se recomendó al señor Nassar para que busque la legislación al respecto a fin de buscar la manera de gestionar con éxito esa gran ayuda económica para el deporte limonense, que en números redondos asciende a mil colones trimestrales. Si esto se logra, la Liga se propone la construcción de un estadio, una cancha de basquet que tan necesaria es en estos momentos y la importación directa de artículos de sport para ser vendidos a precio de costo a los clubs en particular y a los jugadores en general. Si es necesario se llegará a preparar una manifestación popular para apoyar el buen resultado de estas gestiones, que de resultar, vendrían a constituir el punto de apoyo a la buena labor que la Liga se propone.

Los clubs explotados por particulares, sin participación de una directiva responsable, serán obligados a enfrentarse dentro de las leyes respectivas, por propio bien del club y del deporte en general. En otras palabras, no le permit

tirá la nueva Liga a particulares que exploten un nombre de club en su propio beneficio.

Serán impulsados de manera efectiva los deportes en general y en particular el fútbol, baseball, basquetball, cricket, ciclismo, tenis y de ser posible hasta el golf, ya que para este último deporte se cuenta en la OZNA Americana con una magnífica cancha.

Se fijó los lunes a las 8 de la noche, como día fijo para las reuniones de la Liga y se pasó notificación a todos los clubs para que nombren

representantes ante esa entidad. El quorum para las reuniones de Liga lo llenan 4 miembros.

Dada la buena integración de esta nueva Liga y el buen propósito de ayudar al deporte limonense que anima a sus integrantes, podemos asegurar que será esta entidad deportiva la que mejor labor en beneficio nuestro realice entre las últimas nombradas. Dirigida por un hombre del dinamismo y el entusiasmo del capitán Alvarado, sus resultados tienen que ser halagadores.

JUPITER VENCIO A LA GIMNASTICA POR 1 A 0

Lo hemos visto y ahora podemos confirmarlo: nuestros equipos de futbol están bien desorganizados y faltos de entrenamiento. Al ver actuar a las primeras divisiones se nos escalofría el entusiasmo para llegar a ver la realidad: nuestro fut anda muy mal. Pasan 90 minutos de juego y nos cansamos de ver un juego de rebote de bola de pie a pie sin ninguna técnica ni mucho menos inteligencia en las jugadas. A veces se ven bonitas jugadas entre los delanteros, pero entre éstos y la defensa existe una muralla que la bola puede traspasar solamente por la estratosfera, y de ahí que las defensas se dedican a sacar bolas fuerte y por alto sin colocación alguna. Se olvidan de que más importante que una patada loca, es el pase bien colocado a un half para que éste a su vez haga juego con su interior o con su extremo. El futbol es un juego de inteligencia y de agilidad. Los defensas, los

hals y los delanteros son una serie de engranajes que deben moverse al unísono atendiendo el piñón principal que es el half centro, en quien des cansa la responsabilidad del resultado de las jugadas. Por eso se debe escoger el mejor jugador para half centro, a fin de que la dirección de las jugadas sea perfecta.

En el juego del domingo fueron contadas las buenas jugadas. Sobresalieron ambas guardametas y ambas delanteras perdieron oportunidades preciosísimas de anotar. Esperamos que en el campeonato próximo a iniciarse podamos ver mejor calidad de futbol y así volver a ocupar en la afición portieña el puesto que nuestra buena actuación siempre tuvo. Ahora que el señor Rojas está dispuesto a colaborar con todos para el mejoramiento deportivo de Limón, debemos poner todo nuestro entusiasmo y nuestra colaboración para no defraudar sus entusiasmos.

von Haneken y su estado mayor, están todavía en Silkeborg. El doctor Werner Best, ministro alemán en Dinamarca — en verdad, ahora es el gobernador nazi de ese país — se ha trasladado también de Copenhague a utlandia, y varios departamentos del gobierno danés han sido obligados, por los alemanes, a enviar parte de su empleomanía a Silkeborg.

Antes de abandonar la capital se informa que el doctor Best le hizo saber, al director del ministerio de relaciones exteriores danés, Niels Syningensen, que él esperaba que los ingleses intentarían invadir a Jutlandia dentro de

unas cuantas semanas.

Al mismo tiempo que los nazis demuestran bastante temor a una invasión aliada por Dinamarca, un periódico sueco observa justamente que los alemanes recientemente, han dado a la publicidad, en vez de ocultarlos, sus preparativos defensivos en Jutlandia. La razón de esta publicidad es muy simple. Aunque pueden ser bastante temibles, las fortificaciones alemanas de la costa occidental danesa, en el presente, no son tan formidables como las que se alzan frente a los ejércitos aliados de invasión en otros sectores del frente del Atlántico. Se requiere mucho tiempo para construir defensas costeras verdaderamente fuertes y las que hay en la costa de Jutlandia se comenzaron en una fecha comparativamente reciente. Por eso los nazis atraen la atención hacia el hecho de que este punto débil en la "muralla del Atlántico" ha sido fortalecido y hecho inepugnable ahora.

Es perfectamente posible que el viaje del mariscal Rommel a Esbjerg y Copenhague tuviera el mismo propósito. Es probable que Hitler mandara a su mariscal favorito a Dinamarca no porque su presencia se necesitase allí, sino porque, para fines de publicidad, no hay otro militar igual a Rommel en el ejército alemán.

UNPRECEDENT AIR RAIDS OVER GERMANY AND NAZI OCCUPIED EUROPE

On Wednesday last, the sixth day of their consecutive monstrous aerial offensive against Germany and the occupied territories, the outstanding number of 6,500 Allied airplanes, raided many of the enemy's more important military centers and effected damages of a most serious character.

No less than 6,000 tons of explosives were rained over airbases, factories, railways and other military objectives. The important Nazi Capitals of Berlin, Paris and Vienna experienced disastrous attacks. The aviation factories in Niberdorf, and Graz in Austria, as also those of Zagreb in Yugoslavia suffered heavily.

The day's operations include several violent aerial encounters and resulted in the loss to Germany of 34 machines. The Allied loss was a total of 45, which the competent authorities regard as very small, in view of the successes achieved and the unprecedented number of planes which were in operation.

On Thursday last, violent attacks were launched against important enemy installations in south France. Strategic military positions in Italy were also the objectives of intensive raids by 3,300 of the planes of the Mediterranean force. 55 Nazi planes were destroyed against 31 for the Allies.

IMPORTANT ALLIED VICTORIES IN ITALY

The troops of the Fifth and Eighth Armies are reported to have gained important victories during the course of the past few days.

Effectively aided by tanks, the Canadians of the Eighth, who operate in the valley of Liri, broke the Hitler Line and crossed the river Melfa.

Moving by way of the mountains, the North American troops of the Fifth attacked and captured the important position of Terracina on Wednesday last. The capture of this place is regarded as of extraordinary import, not only because of the exceedingly large number of prisoners taken but because it enables the Americans to continue their advance along the Apia way and brings them in close proximity to the other troops who have initiated the offensive on the Anzio front, and places the remainder of the German forces in danger of being

destroyed in the Pontine swamps.

Other Allied successes refer to the cutting of the railway line between Rome and Naples. A later advice states that the Allied forces of the Anzio region

Canada's Navy Multiplied Twenty - Two Times

The information has been officially released that the Canadian Navy is now twenty two times larger than it was at the out-break of the war. Its man-power is also said to be almost on a par with that of the Royal Navy.

Among its important units is the "Prince Robert", an anti-aircraft auxiliary cruiser. She is equipped with powerful anti-aircraft firepower and provided with special protection against aerial attack. It was the "Price Robert" which, in September 1940, surprised and captured the German freighter "Weser" off the west coast of Mexico.

THE THOUGHT FOR THE WEEK

The shirking of duty or running away from the things we feel we ought to do has a peculiarly demoralising effect on our high purpose of right.

FACING THE ISSUE

We desire, today, to express an impartial opinion in connection with the vigilance of the representatives of the "Junta de Abastos" or the "Auxiliary Price Control Committee".

We firmly believe connective and conscientious thought is essential when treating with the different phases of communal activities, particularly, as in this instance, with those which may possibly develop into what is generally known as "profiteering", to the serious prejudice of our economic interests. All should endeavour to prevent this evil from becoming a standard of living in these dark and terrible days. Though we should, at the same time, carefully avoid losing our sense of proportion when faced by two opposites.

Every system, whether political, religious, social, economic or otherwise reflects the good and the bad, the merits and the demerits of the civilization it serves. Each is however, capable of being fully controlled. To secure a just analysis of the causes which have brought about the abnormal increases in the value of our daily requirements, we must, undoubtedly, take under close consideration all the elements and persons concerned. First, the supplier or producer, being faced with heavier production costs and greatly increased living expenses, is, obviously, compelled to place a higher value on his product. Then, the trader, if he intends to remain in business, must buy at the increased quotation and in turn, charge the consumer a higher price. We see nothing incorrect in these activities - the evil lies in the manner or proportion in which the increases are made. The scrupulous may seize the opportunity to less advanced prices. Its against these that the vigilance of the competent authority must be directed, and accorded the wholehearted cooperation of the general citizenry.

The most effective means of stemming this situation is, we think, by the inauguration of a well regulated aid to stimulate production particularly with respect to the first line needs of our dietary. Unless something of the kind is given immediate attention, there is reason to believe that very soon, in this city, there will be much to offer the consumer.

SALVATION ARMY'S MAY QUEEN CONTEST

Two days hence and a new queen will reign over everything of the Salvationists for the ensuing twelve months.

The finishing touches in connection with the contest are said to be all attended to and that the contestants, with their distinctive supporters, are in battle formation awaiting the bugle call. Our genial townsman Mr. Peter Muir, will be Master of Ceremonies with the largest audience, we

anticipate, of all the past years.

We are now in a position to present the names of the contestants, they are—the Misses Lena McKenzie, Ruby Lynch Vivian Thanks, Gloria Black, Violet Cunningham and Ruby Mullings. The designer and maker of the royal robes, Miss Ethlyn Booth, promises that the sceneries will excell all previous ones.

We arent advertising — we are appealing. Please give us a benefit. Eat at LA MAGNOLIA — Dixons's little place West of the City Market.

BRITISH WEST INDIANS ON WAR SERVICE

Designated an "Ace Air Gunner" twenty-three year old Sergeant Lincoln Orville Lynch, a native of Kingston, Jamaica, is mentioned as having distinguished himself within the first nine months of takinn up work with the Royal Air Force in England. On his first operational flight he is said to have materially assisted in the destruction of an enemy fighter.

After concluding his education, Lynch volunteered for air crew duties with the Royal Air Force, and left his Island home for Canada to train to be a rear-gunner. Shortly after reaching England, Lynch went through an O. T. U., when he won his trophy—an air gunner's wing, mounted on a pedestal for his all-round efficiency.

While in a raid over Ludwigschafen Lynch and the other gunner in the "Halifax" saw a Junker 88, just as it had begun its run over the target. The fighter was about 350 yards away to starboard, and when it began to edge in, the two gunners opened fire. Two of Lynch's guns jammed, but he saw tracer from the other two hitting the fighter's port engine. Then the fighter's starboard engine was hit. Flames shot out from both engines and the aircraft fell, crashing in the fires of the target. Refer-

ring to the incident, Lynch said he shall never forget the thrill of it.

WAR SHORTS

When the important city of Odessa was captured by the Russians the Germans are reported to have lost 10,000 trucks, 6,000 automobiles, 6,000 railway waggons and 95 food, ammunition and fuel deposits. Their loss at Sebastopol is stated as vastly greater, in addition to 25,000 of their man-powes.

The North Americans are officially said to be employng, with great success a special type of aircraft, called "helicopter", in the transporting and landing of their troops behind the Japanese forces in Burma.

A Washington advice reveals that orders have been issued to augment to a large extent the programme with respect to the manufacture of heavy artillery for the North American Army.

LIVERPOOL ENTERTAINERS HIGHLY SUCCESSFUL

Death of Mr. William Keith

Death has further pruned the rank of our coloured citizenry of pioneering days by taking, on Friday nine days ago, the life of Mr. William Keith, after a rather lengthened period of illness.

The departed fellow townsman was a Jamaican from the parish of Westmoreland. He was very prominent in religious and social activities. The obsequies were performed by Mr. Edward Ritt of the Methodist Church, in the presence of a goodly number of mourners and sympathisers.

His loss is mourned by his widow Mrs. Eliza Keith, several children and grandchildren in this Republic and abroad. To them all we tender our sincerest condolence.

With The Methodists

Lovers of wholesome amusement will not be assured, their desire, amply satisfied on Tuesday night the 30th inst. in the Methodist Church of the city, when the personnel of the Anti-League will be at the entertaining end.

These young ladies adopt this medium to extend a hearty invitation to our public in general

The charming Liverpool entertainers proved themselves "Lamp Lighters." They came, entrenched themselves and spectacularly conquered their audience in the Hall of the St. Mark's Parish on the night of the 22nd. instant. With a streamline of thirty-seven items, they ascended the heights of their ambition. We were particularly impressed with the altruistic demonstration of the boys in the company, who, obviously, were alive to the realization that they had journeyed from their district to give their best to the public of our city.

Among the troupe was Master Lester, a cute-looking and striking youngster who though young, tactfully embellished his songs with pleasing mannerisms. His best numbers were "Captain Ship" and "Put on your Ta Ta." The Misses Cohen and Wright proved themselves graceful dancers and pleasing harmonists. Dynamic deliveries were effected by Master Jose Cadenhead, his top number being "King Bruce." Much humour was caused by the rendition of Heab'n by two boys and two girls. Master Maurice placed a lot of pepper-sauce in his recitation "The Psalm of Life." Master Marcus Hines was tickling with his "Oh, Folks." S. Cohen, the sensational Tot of the group, clicked off the function with the "Welcoms." Miss Brown re-

cited "Little Jim" in ample form. "Roaming" by Master Lewis perfumed the atmosphere; while Miss Lewis waxed charmingly with her "Hesperus." Full of flavour was the recitation "Children in Bed" by Miss Henry. Many others of the Group gained high ratings but, unfortunately, space does not permit mentioning them in entirety.

The entertainment was a signal success for Miss Brown, the Directress of the School, and her effort was admirably appreciated by a very representative audience. She presided at the organ, while Major Lynch offered the opening prayer and the writer presided over the programme.

SAYING

"We have to find a new equilibrium in international trade. It is clear, too, that we cannot hope greatly to increase our export trade in a world that is disorganised by rival trade policies, extravagant protectionism, chaotic exchanges and every kind of obstacle."—Mr. Richard Law.

"After the war, given a generation of peace and wise government, we can achieve a level of prosperity such we had not known before. The inventive genius of mankind is capable of providing us with immense material advantages."—Mr. Ralph Assheton.

THE GOOD WORKS OF MR. FERNANDO ASCH ESCOCIA WILL LIVE AFTER HIM

It was as if a devastating tornado or some other of nature's angry actions had swept this city, (and we believe with a similar effect over other places) when the news spread, near the midnight hour of Monday the 22nd instant, that our dearly regarded fellow citizen, Mr. Fernando Asch Escocia, had fallen in that sleep from which he was never to awaken in this life.

We firmly believe there was not a heart which was not deeply affected when made aware of the sad event—a death which represents the destruction of one of the conspicuous pillars built on devotion, love, energy, friendship, vision, charity, endurance and perseverance.

Mr. Asch had not been adorned with the diadem of Princes or the Crown of a Monarch, but his magnificent accomplishments have stood, and will stand as long as our community lasts. On Tuesday afternoon, when his mortal remains left our Cathedral headed by the Rev. Fr. John, the hardest soul must have been penetrated by the tenderness of human sympathy. The outstanding concourse of mourners and sympathisers were drawn from the highest of our city's officials and the lowest of the land.

Among the distinguished personages in attendance were don Abel Robles, the widely esteemed Governor of our Province; don Rafael Eduarte,

our Port Captain and the newly elected President of the Municipal Board; Lic. Fernando del Barco, Secretary of the Municipal Board; Colonel Fulgencio Campos; don Alfonso Sole, don Felix Reyes, don Juan Abdelnour, don Jose Acuña, Dr. Sergio Vindas, the Professors of the Tomas Guardia School and many others whom we are unfortunately unable to enumerate for lack of space. Don Raul Velazquez, Chief of the Cacao Cooperative Association, which Mr. Asch had visioned and nestled, was most touching in his address at the grave.

To the bereaved widow, children and relatives, the "Atlantic Voice" extends its deepest condolence.

TRANSLATED COPY OF LETTER OF SYNDICATE OF WORKERS TO MANAGER OF THE BANCO NACIONAL DE SEGUROS, SAN JOSE

Señor don Andres Brenes Mata, Manager of Bank of Security, San Jose.

Dear Sir:

Permit me to again distract your attention and time from our work to give consideration to the grave situation of the insured workers of this one.

I shall begin by emphasizing, Mr. Manager, the imperative necessity of the stand by us lest we fall—support us with your united strength. Eat, and drink, day and night at LA MAGNOLIA Dixon's little place West of the city Market.

Bank having, at least, an employee to attend to all matters relating to the insured workers. According to the information we previously furnished, there should be an employee at this end with sufficient authority to make payments after consultation with San Jose. In cases of my doubt this employee, by means of the telephone could rapidly determine the pay to which such workers are entitled.

The resolution of the Bank

to discontinue carrying on these operations in Limon is prejudicial to the workers who need the immediate receipt of their moneys. The greater number of these prejudiced workers are those of the line towns, who, leave the hospital without five cents in their pockets and though still in ill health, have to return in eight days to receive that which corresponds. The new system adopted by the Bank of Security to send to San Jose for written authorization does not justify, at all times, what the workers need when discharged from the hospital, or when sick. We consider that the Bank should maintain an employee to attend to all the cases of its incumbency. What reason is there Mr. Manager, for the workers to suffer this disposition of the Bank? Will you not consider it justifiable that an employee should be assigned to attend to all these situations to which we are today exposed?

On this occasion, Mr. Manager, I repeat my previous affirmation that I have reason to ask the Bank for more and better attention for those who are insured.

Awaiting that you will, at this time, give attention to my criticisms and your good will decide how long this situation should remain for the workers associated with the Banco de Seguros of which you are the worthy Manager. Attentively yours.

Joaquin Hernández Poveda, Secy. Genl. Syndicate of Workers Committee. Limon, 19 May 1944.

SR. L. BARTOLI MATINA'S POLICE JUDGE

We are in receipt of the very interesting report that our much appreciated citizen, Sr. Livio Bartoli, now occupies the important position of Police Judge at the township of Matina.

Don Livio is an ex-Chief of the local Detective Bureau and well versed in matters judicial. As he has long earned

the reputation of a champion of right and justice, we are confident our friends of the progressive township and district of Matina will greatly benefit from his appointment. His knowledge, too, of the English language, will, we think be a great asset to the large majority of those who must from time to time contact him in his new surroundings.

CONGRATS TO DR. UMANA CORDERO

We desire, by this medium, to add our most sincere congratulations to Dr. Carlos F. Umaña Cordero who, having terminated his period as a representative of this Province before the National Congress, has been honoured with the important assign as a Surgeon in the Military Department of the Nation.

Though it was our hope of again having his amiable presence and capable services, we nevertheless share the pleasure the Doctor's new appointment has afforded on all sides. We wholeheartedly wish him a most successful career in his new field of activities.

A DEMONSTRATION OF LOVE

One could not but deeply admire the scene at our railway station, prior to the departure of the regular passenger train for the Capital, last Wednesday, when almost the entire educational staff and children of the Rafael Yglesias and Tomas Guardia Schools assembled there in demonstration of their love and esteem for Miss Erna Castro Stenvorth, a member of the

teaching staff and one of our widely distinguished young citizens, who was on the first lap of her journey to Mexico to pursue special scientific studies. The showering of love and the changing of greetings were most picturesque.

The ATLANTIC VOICE wishes Miss Castro every success in her praiseworthy efforts.

MRS. PAULSON DELIVERED INSPIRING ADDRESS

On the night of Wednesday the 17th instant, Mrs. E. Paulson of Turrialba was the special guest speaker at the annual Missionary Meeting of the Methodist Women's League.

Under the guidance of Mrs. Inez Holmes, the President of the League, a brief entertaining programme preceded Mrs. Paulson's very impressive Message. The participants were—Mesdames Jeanette

Brown and Iris Williams in recitations and Mrs. Mary Brown and Mrs. S. Lettman in solos.

Mrs. Paulson's address was based on the words, "Ambassadors of Christ", and she referred in her talk, to many of her amazing experiences among the less fortunate brethren of the universe. She was sincerely welcomed by our citizenry.

MR. CHRISTOPHER BERNARD SUCCUMBS TO ILLNESS

Consequent on a further development of a serious nature taking place in the illness of our esteemed fellow-townsmen, Mr. Christopher Bernard, he was transferred to the San Juan de Dios Hospital in the Capital for special treatment; he breathed his last there a few days ago.

Not having yet received sufficient data, in connection with the exceedingly sad event, we can only make this abridged announcement. Meantime, we extend the Mr. se C. Bernard and children who have been dealt this further heavy blow within three weeks of the first anniversary of the death, of their daughter and sister.

No loafers waiting room! No gossip station! The ideal place for yourself and son is Dixons Barber Shop—West of the city Market

New Tuberculin Test

A new tuberculin test, which makes it possible to diagnose tuberculosis within twelve to twenty-four hours, is stated to have been developed by a medico in Denver in the State of Colorado, United States of America; he applies with a transparent adhesive to the skin and watches for reaction.

as a pure simple "autolytic" uncontaminated by the medium on which the tubercle bacilli are grown, and in which all live bacilli are killed and removed

This tuberculin also, for the first time, we are informed, eliminates all danger of a patient's reaction to foreign elements being mistakenly diagnosed as an indication of tuberculosis.

Tonight's Entertainment

In commemoration of their brilliant progress in affairs social, the personnel of the Eagle Aces Friendly Club will entertain their invited guests with a Seasonal Hit tonight, in the St Mark's Parish Hall. Our re-illuminated streets and a lovely late Spring-moon will, no doubt, enhance the desire of the guests to attend. The Riversiders are slated to dish out the Swings.

Persons and Movements

Among those of our esteemed citizens who left during the course of this week for the Capital were.

Dr. Hilario Cuevillas of the United Medical and Sanitary Department and resident physician for local section of the Northern Railway Co.

Mr. Salomon Berenzon, of the well known Hollywood Store, also went up in connection with important matters pertaining to his commercial activities.

Mr. R. S. Buchanan, a widely known agriculturist of the Cahuita region, also had to leave for San Jose in the interest of his unfortunately impaired health. We wish him the best results.

De Witt's Pills quickly relieve

Joint pains and backache warn you that your kidneys are out of order. They are getting sluggish and allowing impurities and poisons to escape from the bloodstream and lodge in the muscles and joints.

These poisons (especially uric acid) may bring on painful rheumatic swellings if they are not quickly cleared out of the system. The way to tackle the trouble is to go at once to the root cause—the unhealthy condition of your kidneys.

De Witt's Pills are specially prepared to correct kidney disorders. That's why they have proved such an effective treatment for Joint Pains, Rheumatism and Backache.

De Witt's Pills not only clear away clogging impurities and poisons—they actually tone up and strengthen the kidneys. You get evidence of the direct action of De Witt's Pills within 24 hours of taking the first dose. This gives positive proof that a wonderful internal antiseptic is getting to work at the very root of your trouble—in the kidneys themselves.

Once your kidneys are restored to healthy activity, those joint pains, rheumatic twinges and depressing backaches banish completely. And because the cause of your trouble has been removed you can expect more than temporary relief.

DeWitt's Pills

KIDNEY AND BLADDER

Made specially to end the pain of Rheumatism, Backache, Lumbago, Joint Pains and all forms of Kidney Trouble. Of chemists and storekeepers everywhere.

THE HONDURAS-COSTA RICA BASEBALL TOURNAMENT

We are indebted to the god offices of Manager Adolfo Johnson of the Cubes Baseball Club for being able to furnish our much appreciated readers with the following information in connection with the games played between the Costarrican Selection and the Hondurians. The team's transportation by air is said to have been very pleasant and with a perfect landing at the Tegucigalpa airfield on the morning of Saturday the 6th. of the present month.

The tournament included six matches, featuring the teams — Palic, Peces and Olimpia. The Olimpia, the local champions, and the Peces were stated to have been powerfully re-inforced by the "Crack of Nicaragua," who included such stars as Melendez, Chiquien, and Sandoval. The first game was played against the Palic and resulted in a decided victory for the Costarricans, who mustered eight runs against one by the homesters. On the morning of the following day the re-inforced Olimpians

were faced, and after our side had the lead in the seventh inning with nine runs against three, the inevitable took command and the Champions turned the tables with twelve to our nine. During the afternoon of the same day our representatives were again walloped by the Peces.

The return match with the Palic was effected on the 13th. when the Costarricans repeated their chastisement with a score of fourteen runs to four. The Peces triumphed over our Selection on the Sunday morning, with three runs to two, as the result, it is regrettingly stated of several errors. The last game brought out the Olimpians and they were beaten to the tune of eight runs against a single. The honours of the tournament were therefore evenly divided — three wins for each side. Two home runs were registered during the tournament, one by Cope and the other by Carlito Hayling, both off the pitching of Chino Melendez.

We desire to extend our

profound congratulations to both the "Josefinos" and our own Limonenses for their splendid accomplishment.

IMPORTANT

Viene de la pag. 6 and those of the southern front have united, and that this may bring about the encirclement of no less than 100,000 German soldiers.

The North Americans are said to have totally dominated the Nazi resistance in the Center of Cisterna which was occupied during the night of Wednesday last. This victory will, it is expected, greatly facilitate the final advance on Rome.

Germany's Commander in Chief, Marshal Kesserling has ordered the evacuation of several areas in Central Italy. The Battle for the possession of Rome has begun in all reality.

NEW REPELLANT AGAINST BODY LICE

WASHINGTON. - A new chemical, scientifically known as dichloro diphenyl trichloro ethane, but more familiarly called DDT, has recently been adopted by the United States Army as an effective repellent against the plague of body lice.

During the last war, the question of body lice constituted one of the major problems confronting the Army Medical Corps and no truly effective insecticide was ever found.

The new compound, which is prepared from chloral hydrate, monochlorobenzene and

sulphuric acid, was first synthesized in 1874 by a German scientist, but it was not until 1939 that a Swiss Chemical firm, Geigy, Inc., made complete tests and reports on the quality of the deterrent; the analysis was satisfactory and indicated high potential killing powers against flies, moths and particularly lice.

Made in the form of powder, it is sufficiently strong so that one application to a piece of clothing will insure protection for as long as two months, even though the garment is laundered weekly.

CRICKET NOTES

It has been arranged that the city Selection, under the auspices of the Pathfinder Sport Club, will cross bats tomorrow the 28th. on our Oval, with a team from the "Unity" Cricket Club of Matina. If no unexpected circumstance occurs, the homesters will be, S. Dixon, (Captain); W. Le Ray (wicketkeeper); A. Sutton; V. Walker; S. Wade; B. Scott; G. Xorinash; M. Myrie; S. Escoc; G. Howard; L. Ramsay and B. Escoc. The reserves will be L. Gallimore and F. Cope. Messrs. E. Jones and E. Moore are slated as Umpires.

On Monday, the 29th. instant, the Pathfinder's Selection will be the guests of the

Progressive Cricket Club of Pacuarita. The exercise will be honoured with a dance on the night after the match. The following players will, it is expected, represent the City Selection Captain Dixon, S. Barton, Wicketkeeper; R. Simms; E. and S. Escoc; C. Stewart; L. White; H. Edwards; J. Robinson; A. Sutton; L. Gallimore; L. Ramsay with L. Howard and A. Martin as reserves.

Arrangements are also said to be underway for a game between "Benedicts" and "Bachelors", on our Oval, on Sunday 4th. June. Details of this will appear in our next issue.

BULLETINS FROM BRITAIN

Fate

The strength of the Reich, encircled, blockaded and surrounded, is one of the most important factors in the equation of victory. Some statistics are available; other figures are largely intangibles which can never be precisely measured; such estimates must take account not only of military strength but of political, psychological and economic factors.

The war strength of Germany is most fully expressed in her army, and it is the Wehrmacht that must be defeated when the day comes. It has a tactical flexibility, units can be readily shifted—without any serious impairment of combat efficiency—from one division, one regiment, one battalion to another. Such shifts are constantly occurring; German divisions are really task forces—built up of special units for the particular job. The German soldier today—all things considered—is still a very tough soldier; it is still a very strong army, second only to the Russian Army in sheer numerical size, probably second to none in fighting efficiency. Armies of the satellite powers—Finland, Croatia, Hungary, Rumania, Bulgaria, Slovakia, etc.—add perhaps 75 to 100 divisions to the Wehrmacht, and despite their different quality these troops must be reckoned with.

The numerical air strength of Germany's enemies has increased so greatly that the Luftwaffe, relative to its enemies, is probably only one-fifth to one-tenth as strong as it was four years ago. Above all, the Luftwaffe, like the German Army, is now a defensive force. Some of the latest versions of the Messerschmitts and Focke-Wulfs compare well with our operational fighters, although the Nazis have no heavy bombers in any way comparable. Germans are undoubtedly building up in western Europe as part of their strategic reserve to meet our invasion, a hard-hitting, fast-moving army of maneuver, which will counter-attack any beachhead.

Invasion GHQ

Inside there are makeshift tables and rickety chairs. But the lighting is good and on the walls are big maps with concentric circles marking the extent of Allied air power and little flags which designate the German divisions. Once, twice or three times a week the invasion chiefs meet there for an hour or so, then dash off in cars to other jobs. The citizens watch them go in silence.

Japan's "Friendly Enemies"

If Hitler asks Japan for assistance, his request isn't likely to produce much. Not only are the Japanese heavily engaged with Anglo-American forces, but they've never pretended any special love for Germans.

Some recent comments by Germans who have been in Japan are enlightening. The former German Ambassador to Tokyo, General Ott, said, "If I had remained there, if we had lost the war, I would have been the first to be interned in a concentration camp."

The coolness of the Japanese towards the Germans has increased steadily with the Wehrmacht's reverses. That coolness has now reached an undisguised contempt. The latest blow was a peremptory order to Germans in Yokohama to leave their homes and offices in the fashionable Foreign Settlement. The order was issued for "security reasons". German newspapermen in Japan are subject to rigid censorship. They complain bitterly that Yokohama, for eighty-five years the centre of German trade in Japan, has now been closed to them. Most of the German traders have been cut off from home since the beginning of the Russo-German war. There is much financial distress among them. It appears that Germans without means are herded into communal camps. From here to proper internment would seem to be but one step. In other words the "herrenvolk" are having a hard time as guests of the nation which the Kaiser described as the "yellow peril".

Blackout

The blackout comes when the light fades. And blackout it is, as deep and formidable as the very name of Hitler. A nocturne punctuated only by the beauty of the searchlights. It is then that England becomes a fortress in truth against the envy of less happier lands. The blackness is absolute. A man is indeed daft if he is not handy to an underground by blackout time, for he will never find his way home unless he is a native. Even they do not venture far at blackout time. The luckiest soul in London is one able to flag a cab after blackout begins. For the blackout is a shroud dropped upon a city of 10,000,000—the largest city in the world—as completely as the lid of a coffin or the cap of a well.

That is invasion headquarters. It is not especially glamorous or even comfortable now.

R. A. F. Mountain Rescue Service

Here's a phase of the Royal Air Force about which you hear very little. Yet it's a godsend to the flying men who return with shaky planes from missions over Germany or dashes over the Channel. When flak, machine-gun bullets or rocket-gun fire has all but crippled a plane, and the pilot's trying to bring her back with a dead or injured navigator and a waist gunner who needs immediate attention, the pilot sometimes loses direction and lands "somewhere north of Dover."

Members of this special mountain crew are first of all rugged. Many of them were already familiar with the local terrain in which they work. Day or night they must be ready on the cliffs or in mountain ravines, to haul some crippled or unconscious flyer up slopes to highways and safety. When word is flashed that a plane is down in their district, the crews don ropes, special head torches, first-aid packs and "walkie-talkie" radio equipment. Then they start off in an ambulance and a jeep to the key point on their location charts. In foul weather at night it is not so simple to locate a crashed plane unless there is a fire. Once it is found, ropes and stretchers are put into use, and injured flying fighters are taken from the plane to be hauled away to hospitals or rest camps.

The Colossal Task

The number and extent of Britain's airfields is secret. But the total area of paved runways, perimeter tracks, hard standings, etc., amounts to nearly 160,000,000 square yards—or 33,000 acres. This is the equivalent of a road, thirty feet wide, stretching for 9,000 miles. The construction of runways, perimeter tracks, and hard standings, for the standard bomber station, required thousands of tons of ballast and cement. The airfields programme to date has meant the carriage and use of approximately 30,000,000 tons of ballast and cement—7,500,000 truck loads. This has involved the opening of hundreds of new ballast pits and material has sometimes had to be hauled fifty miles to sites—thus adding to Britain's already considerable transport problem. Equally immense are figures of other materials required in the construction of Britain's airfields. 1,000,000 tons of steel and cast iron have been authorized. Electric plants and equipment in-

British Fishermen

Fishermen on the southern coast of England are jaconic folk, with the salt of the sea in their beards when they have them, and, in their word, when they use them. They don't say much about it but the order which turned the south coast into a restricted invasion spring-board zone has even further curtailed their limited operations. So many a fisherman sits on a granite slab outside a fish-shack door or in the middle of a trawler deck, quietly working a bit of new hemp into his net. Occasionally he may pause a moment to look up at a flight of four-engined bombers zooming across the Channel toward Ostend or toward Boulogne. Sometimes the planes overhead are not British or American. Then when he does drag his nets near Lizard Point or Beachy Head, he may haul in a plank or two from the hull of a fishing smack ripped apart by machine-gun fire. Or he may leave his fishing to make for the hazy coast of France in a minesweeper to clear the channels of hidden danger. It is a task in which the British are not alone. Newfoundland seamen are operating mine sweepers along Britain's "E boat alley."

Despite these incidents, a prosperous, if limited, war-time fishing trade flourishes. For, in warring Britain, fish is a vital food.

India's First Wild, Rubben Plantation

The Government of India first wild rubber plantation will come into production in April this year. The plant, *cryptostegia grandiflora*, may turn out to be of great assistance in solving the problem of the United Nation's shortage in rubber. 5,000 acres of land not far from Dehli were sown with the seed last summer but neither the conditions under which the plant would thrive nor the quality of the rubber it would produce were then known. It has now been found that the plants have thriven and the rubber is of good average quality. A few hundreds of tons will, it is estimated, be produced this year, though a satisfactory method of extracting the rubber has not yet been evolved.

It includes 6,936 transformers, 9,800 switchboards, and 336,000 miles of cables. Among other items are standard and general accommodation huts and 18,000,000 cubic feet of wood of all kinds.

Germany Strained

Month after month the All-German air armadas have been hurled upon German war industries in ever-growing volleys. All available information indicates, however, that although German production has been gravely impaired, German ground forces can still be supplied with all war mater necessary for the current year. Everything has already been combed out. But the demands are steady for additional hundreds of thousands of people to close the gaps torn by the war on all fronts. That no fresh reserves are available is evident from a recent radio appeal by Fritz Sauckel, the Labor Minister. At this point Germany no longer has any reserves. In addition, the food situation on the home front, which was formerly good, has deteriorated. The Nazis have lost the fertile Russian provinces and they had to draft increasing numbers of farmers for the Army.

The Nazis are aware of conditions. They know that everything is going downhill and that the decline in industry can no longer be stopped but at best slowed down. They know that the German economy is living more and more off its substantial reserves. The present propaganda slogan is that everything must be concentrated upon the Allied invasion.

Great Britain Builds

Winning the war is the dominant thought in Great Britain today. Every man and woman in the country realizes the magnitude of the task they have undertaken. They have undertaken ahead of them, and that until it is achieved their hopes for the future cannot be given practical expression, but the overtones of war cannot deafen them to these understones of future peace. The planning of post-war Britain, in itself necessary, serves as a stimulus to increase effort in the making of war.

Sayings

"Britain can take it. She has never flinched or failed when the signal is given. The whole circle of avenging nations will hurl themselves upon the foe and batter out the life of the cruellest tyranny which has ever sought to bar the progress of mankind."—The Prime Minister.
